GOLD POLICIES FACE ACID TEST IN HIGH COURT

Washington, Jan. 8 (U.P.)—The gold policies of the administration faced the acid test of the supreme court today in a series of cases which involve more than $100,000,000,000 and may be thrown into chaos the government's carefully considered monetary policies.

The issues are raised in a series of cases which involve action by congress declaring clauses in public and private contracts calling for payment in gold in given weight and fineness invalid and contrary to public policy. One of them also demands that the government honor gold certificates in gold or its currency equivalent at the present price of gold.

The result of an unfavorable decision by the court would mean that debtors in each of these instances would be obliged to pay $1.63 for every dollar represented on the face of their notes and bonds.

Students of the situation note that this would mean the estimated $100,000,000,000—of gold clause debts would have to be paid with $163,000,000,000—in currency.

The liability of the government on its gold clause bonds issued and outstanding as of May 31, 1933, and totalling $20,000,000,000 as of that date would be $32,600,000,000. The increase of $12,600,000,000 would be added to the public debt.

The liability of private debtors under gold clause bonds would be increased $47,250,000,000 above the $75,000,000,000 contracted for.

The administration's policy of maintaining its currency on a parity with the currencies of other nations by holding gold as a reserve against currency and discontinuing the use of gold coin entirely would be wrecked.

PENALTIES HANDED AUTO OFFENDERS

Johnny B. Rye of Silverton was fined $10, given a suspended jail sentence of 10 days and driver's license suspension of 30 days by Police Judge A. Warren Jones today for failing to give right of way to a pedestrian. His car struck a woman who did not prove to be seriously hurt.

Other fines imposed in police court today were: Florence Ibabao, for reckless driving $10, a 10-day suspended jail sentence and 30-days suspension of driver's license, it being his third appearance in police court of traffic violations since the first of the year. Jacob F. Mollencop, 495 North 21st street, for failing to stop at a through street, $2.50.

Two men were fined $10 each for getting drunk.

On today's police blotter appeared the names of Merrill H. Gallagher and Gus A. Schumann, 185 North High street, for failing to heed stop signs; George Kamaya, Brooks, K. H. Bonney, route 1, and K. R. Parker, Portland, for having defective lights; and Antone Schmidt of Silverton, speeding.

office work in connection with the water case. Trindle accompanied Winslow and Kowitz to Portland yesterday when the water company's motion for continuance of the arbitration proceedings was argued before Federal Judge James Alger Fee.

There is no question that the council's move could apply to Winslow if the committee so decided. Some aldermen believe it could also apply to the engineers, Baar & Cunningham as far as some of their preparatory work in connection with the water project is concerned.

Baar & Cunningham last night submitted September and December bills in the amounts of $187 and $894.93 respectively, and the bills were referred to the utilities committee. Bills of $50 each submitted by G. W. Johnson, Jr., William McGilchrist, Jr., and U. S. Page for their work as appraisers of real property of the Oregon-Washington Water Service company in the recent arbitration proceedings that ended unfinished. The bills were also referred to the utilities committee. The appraisers were appointed at the request of the arbitration board.

7,000,000 JOBS MAY BE ADDED TO WORK ROLL

(Copyright by United Press)

Washington, Jan. 8 (U.P.) — New dealers are hopeful that President Roosevelt's $4,000,000,000 recovery and relief program will provide useful employment for at least 7,000,000 individuals this year. That appears to be the minimum expectation from the public works plan if it operates in practice as well as it looks on paper. The employment aggregate would be made up of:

1. 3,500,000 persons shifted from the dole to public works.

2. From 3,500,000 up re-employed privately. (Tentative estimate).

Of greatest concern as this unprecedented program is launched is the possibility that local relief may not be able to absorb the 1,500,000 dole recipients which are to be stricken from federal relief rolls. There appears to be less official anxiety over government's ability to provide work for 3,500,000 or so employable persons now receiving the dole.

Mr. Roosevelt's two messages to the 74th congress avoided any estimate of the number of employable Americans now jobless. He estimated, merely, that 4,000,000 persons had been re-employed since President Hoover left the White House March 4, 1933.

The American Federation of Labor estimates, in excess of 11,000,000 persons are without jobs. If administration hopes are realized this number will be reduced by the end of this year to 4,000,000 or fewer.

April 1 is the deadline for the start of federal public works under the new program. Sometime in the autumn the work of slum clearance, grade crossing elimination, highway building, rural electrification and related endeavors is scheduled to be generally under way.

There are many persons in the capital who do not believe Mr. Roosevelt can start his program on the schedule stated.

Don't Let One Man Do All The Work, Mayor Tells Committees

In announcing his committee appointments last night for the next two years of the city administration Mayor V. E. Kuhn admonished them to work as committees. In the past, he said, there has been a tendency to allow one man to predominate committee business, which he did not consider in the interest of good government.

Among important appointments Alderman David O'Hara again heads the ways and means committee, and Alderman F. E. Needham is continued at the head of the police, traffic and license committee. Alderman H. H. Vandevort succeeds Mayor Kuhn as head of the committee on streets, and Merrill D. Ohling, a new member, succeeds Dr. O. A. Olson as head of the fire and water committee. Fred A. Williams, new member, is chairman of the busy committee on ordinances.

Committee appointments in full follow, the first named in each case being chairman:

Ways and means—O'Hara, Needham, Goodman.

Ordinances — Williams, O'Hara, Armpriest.

Streets — Vandevort, Perrine, Evans.

Public buildings and incinerator—Hendricks, Ohling, Williams.

Sewerage and drainage — Boatwright, Armpriest, Vandevort.

Police, traffic and licenses—Needham, Fuhrer, Goodman.

Fire and water—Ohling, Van Patten, Armpriest.

Health and sanitation — Evans, Van Patten, Perrine.

Bridges and approaches — Hendricks, Evans, Vandevort.

Lights and electric signs—Goodman, Hendricks, O'Hara.

Printing—Daue, Boatwright, Hendricks.

Public works, playgrounds and band—Fuhrer, Needham, Evans.

Rules and revision of minutes—Daue, Williams, Hendricks.

Airport and aviation — Perrine, Vandevort, Boatwright.

Public utilities — Fuhrer, Ohling, O'Hara.

Building regulations — Armpriest, Boatwright, Perrine.

Accounts and current expenses—Van Patten Needham, Daue.

ALFONSO DENIES PARIS REPORTS OF SEPARATION

Rome, Jan. 8 (U.P.)—A spokesman for former King Alfonso of Spain today denied Parisian reports that a legal separation of Alfonso and his wife, the former Queen Victoria, was impending. Alfonso is spending the winter here.

The spokesman, who is a Spanish nobleman close to the former king, said he did not know whether Victoria, who has been living in London, would come here for the marriage of the Infants Beatriz to Prince Alessandro Torlonia next Monday.

The wedding plans, however, have been made with the expectation the former queen would be present.

The former sovereigns have lived apart for some time and there have been many rumors that their marriage would be annuled or that they would be legally separated. Well informed sources of the Vatican, however recently denied any formal severance of their bonds would take place.

Paris, Jan. 8 (U.P.)—Spanish royalties here said today an "amicable separation" between former King Alfonso and Queen Victoria is being arranged in London.

Although all talk of an annulment of the marriage has been dropped, due to the prominence of the pair, the royalties asserted, the papers are now being drafted for a legal separation providing for a division of property.

According to the royalties, the queen wants a legal separation because Alfonso's expenses are vastly greater than hers and she desires to preserve her fortune.

Decision May

congress attempted. It inevitably will affect some of the agricultural agencies."

The section scrapped by the 8 to 1 decision was 9 (C) under which the government has been undertaking to bar from interstate commerce oil produced in excess of quotas fixed by state agencies. "This petroleum is known as "hot oil."

Secretary Ickes, oil administrator, noted that the decision "did not rule on the oil code" embodied in other parts of NIRA.

"We still have that code and will continue to operate," he declared. "We will attempt to regulate hot oil with every resource we have."

While some oil leaders in the great East Texas field expressed fear the $1-a-barrel price structure would collapse under a flow of illegal oil and strove to prevent a return to "jungle law" in competition, one school of thought in New York contended the code and state regulation combined would handle the situation.

Moves to present new legislation remedying that one on which the high court turned thumbs down were already under way. Chairman Cole (D., Md.), of a house subcommittee handling oil matters said it would be a good guess that the committee would urge new legislation.

He said the court decision "leaves the problem entirely to the states without any federal assistance. Such assistance was invaluable in bringing the industry out of chaos and putting production more in line with demand."

The high court's first decision on major new deal legislation—a decision in which only Justice Cardozo dissented—brought a quick statement from Donald R. Richberg, President Roosevelt's "No. 1" coordinator. Warning against predictions as to what the court may decide about NRA, he said:

"The court, even by implication, has not cast a doubt on the validity of codes of fair competition."

"No one is justified," he asserted, "in prophesying, on the basis of this opinion, the action of the supreme court in any case involving the validity of a particular code of fair competition, or any provision of such a code."

From Senator Borah (R.-Idaho), who has hurled many criticisms at phases of NRA, came this comment:

"I entirely agree with the decision of the court."

On the question whether congress has the power to prohibit the oil shipments in interstate commerce, the decision read by Chief Justice Hughes said the tribunal assumed "for the present purpose without deciding" that such power existed.

But it found that congress unconstitutionally gave away its legislative powers, without laying down policies or standards by which the president was to act or requiring him to make any finding of fact before acting.

FARMER UNION SESSION HELD; GRAY RETAINED

Bethel—Farmer's Union members from Marion, Polk and Linn counties gathered at Mt. Angel in an all-day meeting Saturday. The large and enthusiastic group of delegates and members attending the Marion county quarterly convention heard reports of growth and progress in the organization and of great increase in cooperative business.

Warren Gray of Marion local, was elected president for the third consecutive year. Darren Creech of Bethel local was elected vice president, and Ernest Werner of Central Howell local, secretary-treasurer; Joseph Bernt of Mt. Angel local, conductor; O. L. Brubaker of Bethel local, doorkeeper; A. R. Mathys of Central Howell, Stanley Duda of Mt. Angel, and J. W. Gilmour of Sidney-Talbot, executive committee.

Rev. Father Alcin, pastor of Mt. Angel, gave an excellent and helpful address at the afternoon session. Miss Dorothy Schwab and Miss Eustelle Bauman sang duets, Miss Pauline Saalfeld sang a group of solos. Walter Smith and Raymond Terhaar sang comic duets. Miss Urala Keber played the accompaniments.

A new ruling that the entertaining local shall furnish all of the noon meal was tried out for the first time. The women of Mt. Angel served a fine dinner to the entire group.

Herbert Michelbrook of Bethany outlined the program of the Marion county tax league and led a discussion. Mrs. Betty M. Kappauf of Marion spoke regarding the need of a good baking flour at a medium price and suggested getting a flour to be sold under the Farmer Union name. The purchasing agent of each local was appointed as one of a committee to confer with the state purchasing committee regarding the securing of such a flour.

S. B. Holt of Scio, state secretary, discussed the Frazer and Frazer-Lempke bills and the national convention. Silas B. Torvend, E. A. Rhoten and George Bahnsen served on the dairy committee. Emphasizing the need of control of Bang's disease they presented the following resolution: "Whereas, the federal government is now giving aid to control and eliminate Bang's disease from our herds; Therefore, be it resolved that we members of the Farmer's Union do declare ourselves in favor of the movement and recommend and urge that all owners of cattle take advantage of the present plan to eliminate this disease from our herds."

Resolutions were presented by Ronald E. Jones for the resolutions committee, urging the members to keep closely in touch with the action of the legislature; to oppose the nationwide encouragement of additional debt for farmers through the national housing act. Governor-elect Martin is to be requested to reappoint Max Gehlhar for another term as director of agriculture, as he has conducted his office in a highly efficient manner. Many of the code and trade agreements are just beginning to function well, and it is necessary that the coming director be in sympathy and fully understand the marketing agreements in detail.

Central Howell local will entertain the Marion county convention at its next meeting on April 6. A hearty vote of thanks was extended to Mt. Angel local for the fine hospitality and to Rev. Alcin and to the young people who furnished the music.
