CUT IN WHEAT IS ADVISED BY STATE

Fargo, N. D. (AP)—Wheat growers in the United States must limit their production to 56,000,000 acres this year if the danger of increasing the amount of the grain carried over in normal years is to be averted, according to the state agricultural extension service.

Pointing out that the AAA wheat curtailment program has made "definite progress in restoring better prices the last two years," a pamphlet issued by the extension service urges support of wheat growers for the AAA program in the coming referendum. Chief question to be voted on in the referendum is whether the wheat program shall be continued.

"The smallest acreage which any plan can contemplate is an acreage sufficient to supply the domestic needs of the United States," the pamphlet said. "This has to be enough for bread, a certain amount for seed for next year's crop. The rest for livestock feed and enough for seed for next year's crop. The average amount used annually for these purposes is about 625,000,000 bushels. With the average yield of 12½ bushels to the acre, it is estimated that this country's domestic needs can be supplied with 50,000,000 seeded acres."

The report added that an export of 75,000,000 to 100,000,000 bushels was the largest that might be expected. About 6,000,000 to 8,000,000 acres would be required to raise this much wheat, fixing the top limit of planted acres at 53,000,000.

1100 Tax Foreclosure Suits Filed by County On Old Delinquencies

Marion county instituted foreclosure proceedings this afternoon against over 1100 defendants on certificate of tax delinquency covering land of an estimated assessed valuation of over a million and a half dollars.

While the complaint covered delinquencies as far back as 1923 and 1924 most of the delinquencies have run from 1925 to 1930. As far as known this complaint carries the names of more defendants than any heretofore filed in the courts here. It is estimated back taxes and interest involved may total \$75,000.

The prayer in the complaint asks for decree and judgment for interest and cost, with 8 per cent interest added from the date of the issuance of the certificate, or November 24, 1934, and that the respective parcels of property be sold to satisfy the judgment.

Since determination was reached to clean up the tax rolls of these old delinquencies about 400 owners have paid up their back taxes as originally there were about 1500 or over on the list but time has been given for these to be shaved down until it is apparent virtually all of payments that are to be made have been made.

The court not only wishes to collect back taxes but also to place these properties back onto the tax rolls, if possible. It is said that the cream of the properties covered by delinquencies has been milked out of the certificate class but there are said to still be many good properties on the list. The holdings covering the most space space in the complaint are those of Rosealee annex to Salem, or the addition near Salem Linen Mills. The record holders of this property was the First National Bank in Salem. There are over five pages of these

MAHAN SEEKS FOOD AND HELP AT LIVINGSTON

(Continued from page 1)

agents were quick to get on the new trail of the elusive Mahan and officers said he apparently had joined the tourist flow into Yellowstone National park. There are no banks in the park and police believed Mahan might have heeded there believing he could pass his "hot" ransom money without suspicion.

Mrs. Jeffries said she was positive the beggar was Mahan, who escaped Sunday from Butte, Mont., abandoning \$15,155 of the ransom and his car.

Clerks in a store near the Jeffries home said the man later purchased food from them and they were struck by his resemblance to Mahan after they saw newspaper pictures of the fugitive.

It was the second time Mahan has been driven by hunger to beg for food, since he hurdled a back yard fence and outdistanced Detective J. E. Mooney at Butte. At Dillon, Mont., he appeared in a hotel and begged for food or money and then made a move as if he was going to hold up the place but fled when guests entered the lobby.
