Packed like silks . . . it takes patience and care to prepare Turkish tobacco for Chesterfield Cigarettes

Size, color, texture, condition . . . all these have something to do with aroma and flavor

Leaf by leaf, the sun-ripened Turkish tobacco is selected or rejected to get just the right kind for Chesterfield's milder, better taste.

And just as much care is taken to pack the tobacco to preserve the delicate aroma during its 4000 mile journey to this country.

So important is the preparation of Turkish tobacco in making Chesterfields, that Liggett & Myers have their own modern leaf handling plants in seven important tobacco centers of Turkey and Greece.

"Selection station" in Turkey where Turkish tobacco leaves are weighed and classified to judge their quality.
