Our Opportunity

Prospects for an era of construction that should bring prosperity to Salem are very bright. Among the public building projects in the offing are:

A new capitol to cost approximately \$3,500,000.

A new federal building to cost a minimum of \$265,000. A new or remodeled court house to cost anywhere from

A Pacific highway grade crossing to cost \$300,000. \$1,000,000 building program for public schools. A \$25,000 improvement in the National Guard armory. Instead there should be a new armory that could be used as a civic auditorium,

In case of the purchase by the state of the Willamette campus as additional capitol grounds, there would of course be the construction of a new group of university buildings on a new location. While this is not assured, it is a possi-

Governor Martin is right in pointing out that it is up to Salem to secure a beautiful civic center, made possible by the new capitol and postoffice. And County Commissioner Hewlett is right when he suggests that the court house should await the adoption of plans for capitol and postoffice and a new building be erected to harmonize with the architectural plan of the two structures.

Salem has a wonderful opportunity and we hope our citizens have the vision that the pioneers had to take advantage of it and build for the future.

Hazards of the Air

The death in an airplane crash near Point Barrow of two of America's most famous airmen, Wiley Post, 'round the world flier and Will Rogers No. 1 air passenger, cowboy humorist, movie star and beloved character, again empha-sizes the hazards of the air. Post ranked among the most skillful and resourceful of fliers and Rogers had more flying miles to his credit than anyone not an aviator himself.

Yet the hazards of the ah are not greater than those of the auto, and growing less annually as the science of aero-nautics advances. It is every bit as safe in the air as it is on a city street, and will soon be safer. The pedestrian is in as great danger as the flier.

Post was not a stunt flier, and most of his recent efforts have been pioneering along useful lines, such as exploration of the stratosphere as a weather safety zone for aviation. Previously he had made two record breaking flights circumnavigating the globe, only to meet his end on a leisurely vacation trip in Alaska.

Rogers has long been an aviation enthusiast having flown over most of the countries of the world. In recent years he had discarded even the auto for short trips for the plane and his brief syndicated daily accounts of his trips did much to stimulate aviation travel.

The First Modern Physician

Scientists and philosophers the world over are celebrat-the 800th anniversary of the birth of Rabbi Moses ben Maimonides, famous medieval philosopher, theologian and physician, best known by the abbreviated name of Rambam. The city of Cordova, where he was born, has officially de-creed a general celebration in his honor.

Maimonides ranks as the leading scientist, physician and clinician of his time as well as the greatest of Jewish philosophers. He became court physician to Saladin, the Saracen and is portrayed in the character of Al Hakim in Scott's novel, "The Talisman."

Maimonides left 20 works on medical science as well as umerous theological and philosophical treatises. He studied disease from the etiological and casual point of view, as well as examining the pathological changes produced by disease and atressed the importance of preventative medicinic and hygiene, of dietectics, of rest and physical exercise, and the value of fresh air and sunshine.

Disregarding the traditions, he championed simplicity

in pharmacothery and recommended simple prescriptions, emphasizing the curative power of nature and the abuse of drugs. He treated wounds in an up-to-date manner. He combined the practice of medicine with medical research and can be justly called the first modern physician.

PRESIDENT SIGNS

Washington, Aug. 16 (49)—President Roosevell yesterday signed the most serious causes of injury in an bill providing a 40-hour week for postal employes.

Designed to eliminate one of the most serious causes of injury in an automobile smashup—splintered, rapostal employes.

Although about 4,500 substitutes have been given permanent positions in the postal service during the last 18 months, there are still nearly 20,000 "subs" in the service. Regular postal employes have been working 44 hours a week, with time off for overtime. Most clerks and carriers work five days a week and a half day on Safurday. and a half day on Saturday

The 40-hour week will become effective October 1.

SAFETY GLASS LAW 40-HOUR MEASURE URGED FOR OREGON sion to represent the New Sydney Record while I'm here, And I've had

postal employes.

Officials expect it to create about 10,000 permanent jobs for men now on the postal "aubstitute" list.

Mail carriers, clerks, railway mail "sorkers and others in the service will be put on the five-day week, working eight hours a day.

Although about 4,500 substitutes have been given permanent postitute been given permanent postitutes in the postal service during safety glass law has been adopted

PLAN SUPPER DANCE

GIRL PREFERS HOT DOGS
East St. Louis, III. (PP-Miss Marianne Schadelin, social worker from Switzerland, a graduate of the University of Zurich and a student at the University of Okiahoma in America, thinks waffles, hot does and hamburgers are the best American foods,

New York, Aug. 16 ((P)-One of the most exchasive jet revealing social functions of the season will be given this week-end. The mudists are having a supper dance for 250 please."

This jungle is quiet and nice as you please. The Roxana health club and the Nude Culture club, joint heats, assured guests the dance floor was "specially constructed", presumably it is splinter proof.

READY MADE WIFE

ANNOPSIS. Laurie streighted to be Bet Moore's under to sain herself and her Moore's under to sain herself and her sister Glades from a desperate situation.

Now his must keep up the melecules to many months getting ready for his save Betz job with Mark Albert since Heef has returned after two years. Res lines some in the secure of some talled airmen in Africar while he is some Albert endered for draine his hore for Lawrie.

Chapter 18

A CALLER

Alberty released her; she stared at him like a person in a dream.

"I am sorry," he said, and in a miraculous way he was himself again, and the incredible scene was blotted out, and he was smilling at her, a rather sad little amile.

"It was unpardonable, Mrs. Moore. Do please forgive me, and forget about it! To show my feelings like that was taking a shameful advantage of you."

Laurie felt a little chill.

"Of course, I shall be thrilled to see him on his return, if I am still ingratiating smile. "But it would be known to the course of cable over there. You see, it means so much to me. I've had about it! To show my feelings like that was taking a shameful advantage of you."

that was taking a shameful advantage of you."

Lauric was nonplussed. He had suddenly brought an atmosphere of tragedy into what might have been a sordid episode.

"Tm sure you didn't mean it," she nummered.

murmured.
"That's the sad part of it," he replied gravely. "I did mean it. As I said, you came too late into my life.
I am no longer young, and you are to say." Laurie was at a loss, the woman I have dreamed of al"Well, first of all, a message of greeting," he said gibly.
"I shall be delighted to do that."
"Then just a few details above your romantic reunion. The thri ways. The woman I could have greeting,

your romantic reunion. The thrill
of learning that your husband was
alive. And then, if I may ask you, a
few words about your marriage. You
see, it was such a secret romance, so
few people knew anything about it."
Laurie went colder still.
"Oh, there's nothing to tell about
that, Mr. Drake!" ost stupid, that whispered ex-amation. But Laurie was both of any of the overlords of the present-day world, was telling her that he loved her, that she was the wo-man he had always dreamed of. She—his secretary, She—the girl who had cheated him, lied to him through two years, who had been saved from despair and disaster by ds kindness and generosity.

the kindness and generosity.

Mark Albery, watching the changing lights and shadows of emotion
in her face, knew that he must
abide his time. She might be unhappy, but she was loyal.

And Lauric, as she typed the lettera in her office, made so many
mistakes that she had to do several
of them over ngain.

of them over again. This was destined to be a memor-

able day for Laurie.

When she got back to the flat
she found that Gladys had gone out to dinner, leaving a message with Mrs. Budd that a friend had called

"Was it a gentleman?" Laurie "No, mum, a lady."

Laurie felt a fool, but she was no pute herself after that extraordi-lary scene with her employer.

nary scene with her employer.

About a quarter of an hour afterwards. Mrs. Budd came in to say
that a gentleman wanted to see her,
sud handed her a card. "Mr. Gavin
Drake" was the name on it.

Laurie knew nobody of that name.
It must be some friend of Rex
Moores.

neat moustache, and wore heavy-lensed spectacles. He greeted her with a bow and a long smile that expressed deferential admiration. 'It is so kind of you to see me,

He had a pleasant voice, with a friendly manner that was rather

appealing. His accent she recognized a certain misgiving

"I expect it is Mr. Moore-rusband, whom you want to see he suggested.

"No. I am aware that Mr. Mo

Mrs. Moore."

"What can I do for you?" she asked, taken aback,

"I must introduce myself. I an Gavin Drake."

"You are from Australia, aren' you?" she asked.

"Yes, I come from down under. He gave her a comradely smile. "So do you?"

"I wasn't borne there. My fathe went out when I was quitte young."

thought he was rather like a ca-pary, so yellow, with his nest face and little black, bird-like points of and fittle states, sind-like points of eyes behind the thick glasses. "I'm really over here on a boliday trip, but I'm a journalist by profession, and I was given a rowing commis-sion to represent the New Sydney
