A Question TO HER YOUNGER NEIGHBORS

. . . BY A LADY NOW GROWING GRAY

"You see, I happen to be one of the owners of this store," this lady will tell you as she shops.

"Among the securities my husband left were quite a few shares of Safeway stock. It is just about all I have that brings me a regular income.

"That is why my blood boils when somebody talks about Wall Street owning my stores.

"If my Safeway grocer should be attacked by legislation—forced to quit business by wholesalers who wish to bring back old-fashioned, wasteful business methods—it would mean all my husband saved and invested for me would be wiped out. It would mean I would be penniless.

"Can taking my income away be an American idea?"

. . . from a letter on file—copy sent upon application

THOUSANDS OF WESTERN PEOPLE—some elderly, some younger heads of growing families—are among the "proprietors" of your neighborhood Safeway grocery.

These people, from almost every walk of life, have saved and invested here under the American system. The same American system that has made possible our railroads, our movies, our American standard of living.

Why has your neighborhood Safeway grocer joined with these other Western people into a business family?

The answer is simple. Only a *team* of food experts can handle the kind of job which the Safeway family has tackled.

The Safeway family is out to get food from farm to you with less in between expense. To lower your cost of living and still to give the farmer a larger share of the food dollar. The Safeway family is out to eliminate waste.

When food buyers in the agricultural districts, skilled shippers, market experts, home economists, and grocers all work together as a team, then money is saved.

Thus your Safeway grocer is able to give you good foods at lower cost. *Part of this saving the Safeway family makes goes to you.*

The farmer gets another part of this saving. Eighty cents of every dollar you spend at your Safeway grocer's is now paid to the farmer, processor and transporter. *This is far more than the producer used to get before the Safeway method was developed.*

Still another share of this saving goes, as dividends, to the men and women who helped set your Safeway grocer up in business. *And to make possible the payment of higher-than-average salaries and wages to Safeway employees* . . . M. L. Bean, Division Manager for Safeway Stores, 239 South East Salmon Street, Portland, Oregon.

• •

Quite easily you can tell what your Safeway grocer can save you. Do all your trading at his store for just one month. Keep a record of what you spend.

Then compare your monthly outlay with your total food bills for the previous month. Start this test tomorrow
