Camera Artist

Frank Pratt, well known camera artist, will arrive in Salem Monday to demonstrate fine lightings and photography...

FIRMNESS IN CEREAL VALUES

Chicago, Nov. 16 (AP)—Wheat futures held fairly steady on the board of trade today and fluctuated narrowly around the previous closing levels.

At the close the major cereal was 1/4 cent a bushel lower to 1 cent higher. Corn was down 1/4 to 1/2 cent, and rye was 1/2 to 3/4 cents a bushel lower.

Major foreign markets were somewhat firmer today, but failed to bring much support into the Chicago pit. Eastern interests took up most of the contracts, while western professionals were the most aggressive sellers.

Northwestern markets were little changed. Cables from the Argentine indicated the crop had not improved within recent weeks to such an extent as the decline in prices would seem to indicate.

The Chicago open wheat interests was reported at 130,825,000 bushels, an increase of 1,444,000 bushels. Corn reacted on week-end evening up. Oats remained steady, while rye futures dipped on local sales.

GRANGE VOTES FOR UNICAMERAL LEGISLATURES

Sacramento, Cal., Nov. 16 (AP)—Members of the California state grange turned toward home or directed their attentions to a session of the national grange today after concluding their 1935 convention with a barrage of resolutions favoring a one house legislature and attacking the Pacific Gas and Electric Co.

The utilities company was criticized for assertedly fighting municipal utility districts' efforts to purchase power from the vast central valley project upon completion.

Another resolution opposed destruction of California agricultural lands by gold dredging and a fourth proposed universal finger-printing as a crime control measure.

One resolution condemned all subversive organizations advocating overthrow of the government by force. National grange officers, meantime, conferred the seventh degree of the organization, conducted on a fraternal secret-session basis, upon approximately 5000 persons.

Resolutions seeking to place the national organization on record in a number of controversial matters already have been introduced, the proposals including: Endorsement of the AAA and processing taxes until such time as industry is willing to forego tariff protection.

Opposing transfer of forest and conservation activities from department of agriculture to department of interior. Demanding liquidation of unneeded holding companies within five years.

Supporting an old age pension system. Opposing military training in schools. Favoring federal control of war munitions manufacture, to be placed on non-profit basis.

Opposing transportation act placing motor trucks under jurisdiction of interstate commerce commission. Opposing military training in schools. Favoring federal control of war munitions manufacture, to be placed on non-profit basis.

YEARLY GAIN SHOWN IN SALE OF FARM CROPS

Washington, Nov. 16 (AP)—An increase of \$39,522,000 in the receipts from sales of principal farm crops of Oregon and Washington for the first nine months of each year from 1932 to 1934 was shown today in a report of the bureau of agricultural economics.

In both states the upturn was continuous from 1932. The report showed, the greatest jump being from 1933 to 1934 when the value in Washington climbed from \$51,873,000 to \$88,244,000 and in Oregon from \$30,589,000 to \$37,849,000.

The bureau used the receipts from January to August in each year for comparative purposes and then included separate figures for the month of September of each year. The sales receipts for Washington in 1932 were given at \$48,002,000 with a gradual increase to \$73,007,000 in 1935. Those receipts did not include the governmental subsidies in the form of rental and benefit payments for crop and acreage reduction, which did not start until 1933.

Benefit and rental payments played a minor part in the increased sales receipts in 1933, the first year the payments were made. In Washington benefit payments for that year amounted to only \$4000 and in Oregon to \$2000. In 1934, however, the payments were much larger climbing to \$4,317,000 in Washington and \$1,829,000 in Oregon. There was a slight increase in the governmental aid to farmers in Washington in the first nine months of this year compared with the similar period of 1934, the amount being \$4,343,000. In Oregon, however, by the same comparison, there was a decrease in government aid to \$1,284,000.

Gradual increases in sales for the month of September in each of the compared years likewise were recorded. These figures do not include the government aid for any of the years. In Washington the 1932 amount was \$8,928,000 which was almost double in September of this year at \$16,913,000. Oregon's September of 1932 showed receipts of \$5,933,000 with a rise to \$8,754,000 in 1935.

FARMERS SURVEY WEATHER INJURY. Hazel Green—Farmers in this vicinity have been taking stock of the damage the recent cold spell caused, and most of them agree that the damage is not as extensive as feared. Cabbage, broccoli and most of the root vegetables are unharmed, however, some kale and winter beans in the low spots. Potatoes, which were unharmed, although those near the surface of the ground are somewhat nipped. There are a number of fields that have not been dug as yet, especially those planted late and were not matured in time to dig prior to the freeze. Fruit growers in this district are optimistic about the fruit tree damage. Most of the growers agree that the foliage is damaged but that the freeze has not so severe enough to stop the flow of sap, perhaps next spring will tell a different tale, but just the same most of the farmers are glad that they are not celery growers for they suffered a fearful loss.

Butterfat prices continue to rise. San Francisco, Nov. 16 (AP)—Butterfat sold at 38 1/2 cents a pound here today, a 1 1/2 cent increase with in the last 24 hours, making the price the highest in five years with exception of one week last February. Producers estimate their income this year will be from \$5,000,000 to \$5,500,000 higher than last, based on an average increase in price of 5 1/2 cents a pound within the last 12 months, and a state-wide annual production of 100,000,000 pounds.

Obituary. Mrs. Effie Campbell. Woodburn—Mrs. Effie Campbell, widow of the late Neil Campbell of Woodburn, died recently at Los Angeles and the funeral will be held here Monday. The Campbell left here about 18 years ago, having owned the Butterfield farm here. The body will arrive in Woodburn and graveside services will be held at 2 p.m. Monday, the corpse leaving the Ringgold chapel at 10 a.m. Interment will be beside her husband. She is survived by five children: Mrs. Glenn and Mrs. Fausch, all of Los Angeles, and Don of Portland; and one daughter, Myrtle of Los Angeles.

BIRTHS, DEATHS MARRIAGES

MRS. LAVINA CORNELIUS. Albany—Mrs. Lavina Cornelius, 85, daughter of Rev. Noah Powell, a pioneer settler of Oregon, died at the home of her daughter, Mrs. G. H. VanBuren of Albany, Thursday, Sept. 20, 1935. Mrs. Cornelius died April 14, 1850, survived by four daughters: one daughter, Mrs. G. H. VanBuren of Albany; Mrs. Flora George of Portland; Mrs. Anna Cardwell of Santa Cruz, Calif.; and Mrs. J. S. Roberts of Los Angeles; one grandchild, 24 great-grandchildren, four great-grandchildren, one great-grandchild.
