LET KIDNEYS FLUSH OUT 3 LBS. A DAY

Clean Out 15 Miles of Kidney Tubes

Nature put over 15 miles of tiny tubes and filters in your kidneys to strain the waste matter out of the blood. Kidneys should pass 3 pints a day and so get rid of more than three pounds of waste matter.

When the passing of water is scanty, with smarting and burning, the 15 miles of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

If kidneys don't empty 3 pints a day and get rid of more than 3 pounds of waste matter, your body may take up some of these poisons causing serious trouble. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and help kidneys to flush out 3 pounds a day.

BECK BOOSTER FOR ALFALFA

Dallas—Alfalfa, according to J. R. Beck, county agent, is probably the greatest soil building factor ever introduced to the Willamette valley. Enormous yields are reported almost every time a crop is grown on a field where an alfalfa sod is turned under. The benefits carry on for more than one year.

James Gentle, Monmouth, turned under six acres of alfalfa two years ago. Last year the field was in corn and in the fall it was seeded to wheat, one of the club varieties, and it yielded 52 bushels to the acre despite the fact that the heavy rains of June flattened one third or more to the ground.

Ernest Zieltsch of Parker plowed up 40 acres of alfalfa last fall and planted 15 acres to grey oats. This spring he seeded Hannchen barley on the balance. Harvesting is just over and the oats yielded practically 100 bushels to the acre and the barley 64.

Ten years ago when the campaign to expand the alfalfa acreage got under way the beneficial soil building qualities of alfalfa were stressed by Beck. Statements made at that time are being proved and the fruits are being harvested.

HOP FIESTA TO PRESENT MANY FINE FEATURES

Independence—The Annual Hop Fiesta, the big four-day celebration to be held here August 27 to 30, is expected to attract the largest crowd ever to attend an event held in this community, for the reason that the unusually large hop crop to be harvested, is attracting thousands of extra hop pickers to this district. Failure of the crop in a number of other hop-growing sections, has resulted in many pickers registering at yards here who heretofore have worked elsewhere.

Known as one of the most colorful yearly celebrations held in Oregon, the Hop Fiesta is rapidly taking its place as one of the major festivals of the state, ranking second in importance only to the Rose Festival and the Pendleton Round-Up.

Staged at a time of year when Independence grows from a town with a normal population of 1000 people to a bustling city of 20,000, due to the influx of hop pickers, the fiesta is a true harvest festival in which the harvesters, themselves, join with visitors to celebrate the gathering of the hop crop.

Many new attractions have been added to the 1936 fiesta program, the events of which now include: A rodeo, Cinderella Pageant, Mid-night Musical revue, donkey polo games, hop pickers floral parade, Junior Fiesta, dances, a carnival, bathing beauty contest and hop picking races.

Owners of hop yards are combining forces with Independence citizens to arrange for the entertainment of Hop Fiesta visitors. Open house will be held at the largest hop ranches. Visitors will be taken through the hop yards and kilns by experienced guides who will explain how the hops are grown and dried and packed.

Governor Charles H. Martin will be a special guest of the Hop Fiesta committee during the celebration, and will crown the Hopland queen, who is to be elected from a field of twelve young women who are now competing for the fiesta throne in a contest which is scheduled to close on August 26.
