

ROAD OILING PROGRAM ENDS IN NEXT WEEK

The oiling program of the county for 1936 which covers over 30 miles is expected to wind-up next week. The crew is at Keizer Bottom today doing a stretch there and from there is to be transferred to St. Paul where it will finish the 1800 feet of pavement not done on the first time around. Lack of materials caused the crew to leave the 1800 feet unfinished. While there was sufficient material gathered there when the crew did the work arrangements were made for doing work on streets in the town of St. Paul which used up the extra rock. So the crew went onto other jobs while the stock pile there was being replenished. The 1800 feet is on the St. Paul-Aral's corner road which also had some oiling done on it at the other end.

County Engineer Hubbs today went over some spots on the Silverton-Stayton pavement where the road was not originally paved because of right-of-way difficulties and the plan is now to oil these open stretches in event the roadbed is in condition to do so. The county engineer before he left today expressed doubt as to their being in condition.

Next week the oiling crew is expected to start on some non-skidding work on curves in various parts of the county.

The county completed the work at Sublimity recently doing both the jobs on the Coon Hollow road in that town and a stretch on the road immediately east of it, covering nearly the entire town of Sublimity with paved streets.

REBEL FORCE DRIVEN BACK

(Copyright, 1936, by United Press.) Madrid, Aug. 21 (UP)—A conglomerate loyalist army of soldiers, policemen and civilians is driving rebels back in the Estremadura country southwest of the capital, at present the most vitally important area in Spain, it was announced today.

It has taken Guadalupe, 116 miles southwest of Madrid, and other towns from rebel foreign legionnaires and Moors, reinforced by fascists, and is moving on toward Caceres and Merida.

Government leaders hope this army and other forces operating west of the capital have succeeded in stopping the rebel advance from Badajoz province and its vicinity.

The army which took Guadalupe is commanded by Captain Gonzalo Uribarri and is called "the phantom column."

POOR CROP UPON ROOSEVELT FARM

Warm Springs, Ga., Aug. 21 (AP)—President Roosevelt, owner of a Georgia farm, faces an unprofitable season because of drought ravages.

He may harvest a fair crop of hay, planted after recent rain broke the long dry period.

"We would have made absolutely nothing without rains," Gus Moore, manager of the farm, said today.

"And even with plenty of rain henceforth, we will only make about a fifth of a crop."

However, we do have a fair chance at a fair hay crop, since we have planted 25 or 30 acres of hay crops since the rains."

Most of the president's lands are in mountain forests and pastures with only about 150 acres in cultivation. The cultivated land is used principally for the production of feed stuff for cattle.

The drought also affected the farm's 12-acre vineyard.

George Bailey of Red Oak, Ia., has a white Jersey giant pullet which laid its first egg June 11 and then one a day until July 18.

Newspaper Guild to Attempt Publication Of Daily in Seattle

Seattle, Aug. 21 (UP)—Confident it had presented its complete case to the public and admitting little chance of immediate settlement after refusals of Post-Intelligencer officials to arbitrate, the Seattle chapter of the Newspaper Guild today announced hereafter it will publish a morning paper free from propaganda.

The first issues of the Guild daily a four-page paper including general local news and sports, were financed largely by contributions of other unions. During the past few days, however, the paper has reached a circulation of more than 25,000 copies which sell at 5 cents each, and has carried considerable advertising.

The Post-Intelligencer building has been occupied by only a few guards since last Friday. In the first day of the strike the picket line of 300 or 400 was so menacing that employees of the paper could not go through, and since Saturday the management of the paper has instructed its employees not to attempt to go through the picket line, which has dwindled to about a dozen men.

About 15 guards have been maintained within the building with police taking them in provisions and supplies. Today police removed four of the guards—at their own request—and took them through the thin picket line under guard.

"The Post-Intelligencer shows no disposition to arbitrate the issue," Seller said. "We have exhausted every available course in hopes of conciliation. But even the offer of Major John F. Dore has been refused by the management of the Post-Intelligencer."

"Hence there is nothing we can do, but stand by our original demands for the reinstatement of Frank Lynch and Everhardt Armstrong."

Harvey Kelly, general labor counsel for the Hearst publications, insisted "The Post-Intelligencer will still not compromise with mob violence."

Governor Clarence D. Martin of Washington, speaking on a state-wide radio hook-up, said he would not interfere until all other means of settling the dispute had failed, and minimized reports that an emergency existed.

THEFTS REPORTED INDEPENDENCE AREA

Independence, Ore., Aug. 20—A few cases of theft of articles from cars and camp shacks have been brought to the attention of the police in this vicinity, within the past few days.

A Colts revolver belonging to Verne Young, a camper at the Chittenden yard across the river in Marion county, was taken from his camp shack sometime Monday while he and family were at work. Three men and a woman who were in the adjoining shack are suspected and a check is being made on them by state police. Several shells were taken from a box of shells which were wrapped up with the pistol. No other articles were missed although a new rifle, Winchester, was wrapped and lying in the same box that the pistol was taken from, it was not molested.

A purse containing a large sum of money was taken from the Fred Muhleman car on Tuesday night while it was parked in front of the Club Two suspicious characters who are being held on a drunk charge in the city jail were questioned about the money but denied knowing anything that happened on that evening. A coat belonging to one of the men was found in the car, and a considerable amount of the money was secreted on his person.

COYOTE BAYED IN HUNTER'S KITCHEN

Roseburg, Ore., Aug. 21 (AP)—Frank Ingram, of Dothan, in southern Douglas county is a coyote hunter, and he gets his varmints one way or another. The prize way to get them is revealed in a letter received by the county clerk here.

The letter follows: "I am sending, under separate cover, one coyote hide. Please mark same for bounty and destroy the hide. I will send the affidavit as soon as I can get same signed."

"This coyote was bayed in my kitchen. I went out with my dogs and left the door to my house open. The dogs took up the trail and when I returned they had the coyote behind my cupboard in my kitchen. 'Believe it or not.'"

4H CLUB STOCK FAIR SLATED FOR SEPTEMBER 5

The Marion County 4-H livestock fair will be held this year September 5 at the state fair grounds the Saturday before opening of state fair, according to notices being sent out by Wayne Harding, county club leader. Stock must be in place by 9:30 a. m. of that day and the entries and record books in by 10 o'clock. If an animal places at the 4-H club fair he will be in line for exhibit at the state fair.

The notices being sent out also carry a number of suggestions from the county club leader as to condition of the animals. The livestock judging contest for the county fair will start promptly for 10 o'clock the morning of September 5 and teams will be picked to represent Marion county both at the state fair and the Pacific International.

Also there will be showmanship contests for hogs, sheep and cattle at the state fair and the club leader urges members to be training their animals to handle to best advantage in the show ring.

The county club fair this year will be for livestock only. Leader Harding is also sending out instructions as to handling exhibits in other classes at the state fair. One letter covers poultry, rabbit, vegetable gardening, rose and flower and canning projects. In some of these he stated that exhibits for a county fair were eliminated such as vegetable gardening for instance, because he feared the exhibitors would put in their best in the county fair and suffer at the state fair in consequence. He asks that exhibits for canning, corn and vegetable gardening be brought to the court house September 5 or before 9:30 September 7. All clothing exhibits should be at the court house by the evening of September 2. Cooking exhibits should be at the court house either Saturday, September 3, or before 9:30 in the morning of September 7.

HIGHWAY BIDS TO BE OPENED THURSDAY

The state highway commission will open bids for \$1,500,000 of highway and bridge construction work at its meeting in Portland next Thursday. R. H. Baldock, state highway engineer, announced.

The largest job will involve 14.96 miles of surfacing and bituminous macadam wearing surface on the Redmond-Bend section of the Dalles-California highway in Deschutes county.

These will be the last jobs awarded under the federal highway aid program for 1935 and 1936, Baldock stated. The new federal appropriation for states will become effective within the next few weeks, and will carry through the remainder of this year and 1937.

MAN'S OWN WORKS READ AT HIS GRAVE

San Jose, Calif., Aug. 21 (AP)—The words of a dead man read at his own funeral told mourners, "this is a time for happiness."

"I am at this moment probably more alive than any of you here," wrote Dr. Carl Holliday, 57, former dean of the University of Toledo college of arts and sciences and head of the San Jose state college English department. The funeral oration, written before he was fatally injured in an automobile accident a week ago was read at his services yesterday.

"It is the belief of some scientists that everything on earth is constantly throwing off minute particles of itself," he explained. "That in my opinion, is exactly what I have done in death."

"A thinner, lighter duplicate of my body, less subject to the law of gravitation, with my soul as the magnet holding this lighter, thinner body together, has floated off into a lighter atmosphere."

A load of cedar posts cut in 1850 was sold recently in Texas as sound material.

ALWAYS CLAIMED THAT HE GOT HIS FIGHTING SPIRIT FROM HIS GRANDFATHER WHO WAS THE CHAMPION SHILLALAH BRUISER OF ALL IRELAND!

Cameron Girls May Become Citizens

Portland, Aug. 21 (AP)—Mary Olivia Cameron, 17, and her sister, Ruth, 1, will have a chance to become American citizens.

Roy Norene, district immigration officer, said the girls whose father, a former Cottage Grove minister, was deported, will be re-admitted to the United States.

The girls were permitted to withdraw from the United States voluntarily and the approval of their application for re-entry will enable them to go to a Eugene home.

HURLED MELON RESULT SERIOUS

Medford, Aug. 21 (AP)—Mrs. Joe N. Marsh, Medford, lies seriously injured in a hospital here as a result of injuries sustained when a piece of watermelon was thrown through the windshield of the car in which she was traveling.

The missile was hurled by boys in a passing car. Bits of broken glass from the windshield pierced Mrs. Marsh's throat.

Other motorists complained to state police of the same offense. No clues to the culprits have been found.

WANTED AT DAM

Aurora—According to L. C. Stoll, the employment office in Oregon City received a call Tuesday for 10 more laborers for the Bonneville dam project. The job pays 20 cents an hour for a 48-hour week and involves the relocation of the railroad at Bonneville.

HEARST TALKS ON P I STRIKE

New York, Aug. 21 (UP)—William Randolph Hearst, in a statement given out today through his New York offices relative to the suspension of publication of the Seattle Post-Intelligencer, said:

"If the communists want to relieve me of that cost and of the duty of supplying jobs to labor, it is not an unkind wish. I would save money."

"However, there is a greater issue at stake than saving money. "There is the issue of a free press and a free country."

"No press is free that is subject to mob rule. "No country is free where the public officials are too cowardly or too corrupt to protect the fundamental rights of loyal and law abiding citizens."

"No country is even independent which allows citizens of alien lands and advocates of alien doctrines, like Mister Bridges, a British subject, unnaturalized here and unwilling to be naturalized—to defy its laws and its constitution, and ride roughshod over its liberties."

"No country remains free, or deserves to be free, which has not the spirit to protect its freedom—to guard its own liberties—not the liberties of somebody else, but its own."

"The trouble with our careless people is that they are like the western gambler who said that he did not care what happened as long as it did not happen to him. "They forget that what happened to their fellow citizens will eventually happen to them."

21-POINT EXAMINATIONS

Assure you Eyegear that is genuinely corrective

Poor eyesight may be caused by any of numerous disorders. Glasses must be carefully selected if they are to be useful in the correction of any specific trouble. Our registered optometrists assure you of the corrective qualities of your glasses you buy by prescribing individually ground glasses in every instance. This extra service costs no more.

Don't Ruin Your Eyesight! Make sure—guessing is dangerous and costly. You owe your eyes the best of care—Today, get our 21-Point Qualified Examination.
