MONROE STREET STAYS NARROW ANOTHER YEAR

Corvallis—Widening of Monroe street to make this main road of travel 16 feet wider as has been proposed, is out of the question for a year at least, the street committee informed the council at its regular meeting. The matter had been brought up several weeks ago and left to the committee which recommended tabling of the proposition after investigating all angles of the proposal.

Reasons given by the committee for its recommendation, which was adopted, was that no WPA labor would be available for at least a year, due to projects already being carried out at Oregon State college; that the college had no funds at present to bear its share of the widening cost, and that in consequence, property owners would have to bear from 75 to 80 per cent of the cost.

Another proposed ordinance, one requested by the chief of police, that some sort of one-way traffic rules be adopted for use of alleys in the business section was altered by the recommendation of the street committee which decided that a 15 minute parking period for all downtown alleys be enforced. The council adopted this recommendation.

The council also adopted a rule providing that blind persons carrying a white cane be given the right of way by pedestrians and motorists at all times. The law is a uniform ordinance which is being sponsored throughout the United States by blind welfare organizations.

It was also ordered that what is known as the "inside circuit" of street lights in the downtown district be kept lighted until 11:30 o'clock each night from the first of November to the first of January. At present the lights go off at 10 o'clock. The "outside circuit" burns all night.

FINSETH IMPRESSED WITH FIRE QUIRKS

Dallas — Mayor Lief S. Finseth had some interesting comments to make Monday following a visit to the fire wracked city of Bandon on Sunday. The trip was made by auto down the coast highway with the return leg over the highway to Drain and home by way of the Pacific highway. Words, according to Finseth, are totally inadequate when it comes to attempting a description of the desolation which prevails on all sides.

One oddity was remarked upon during their tour of inspection. Apparently a cleared space had been considered as a possible haven of safety for several automobiles but the flames had converted them into heaps of wreckage. On one, however, three of the four tires were still inflated and apparently undamaged through a strange quirk of fate. Some of the former residents are leaving the locality for good, among them a man whom Finseth had known for years. An inquiry on his behalf yielded the information that he had left with his family on Saturday night for San Jose, Calif., where he will reestablish his home.

Caldwell, chairman, Miss Helen Anderson, Miss Laura Taylor, J. A. Cox and E. A. Stebbins. Lowell McMillan, a senior student of O. N. S. is Mr. Stebbins' assistant in handling this work.

The State Power Bill DOES Mean $18,000,000 in Bonds!

Don't be misled by statements, however sincere, that the proposed State Power Bill doesn't mean more bonds on Oregon property.

The State Power Bill is the first step in issuing $18,000,000 of NEW bonds—possibly $54,000,000 of bonds, if the legislature says so.

The State Power Bill will be useless without bond money to build a gigantic experiment. A vote for the State Power Bill is thrown away unless Oregon taxpayers approve $18,000,000 of bonds at a later election.

Don't Be Misled! Uncle Sam won't let Bonneville power lie idle. He hasn't asked Oregon to bond itself. Is there any reason to believe that he won't handle Bonneville power, as he has marketed power elsewhere? Uncle Sam is still on the job.
