

HIGH SCHOOL TO BE FINISHED BEFORE APRIL

While he would fix no specific date for the completion of the building, Leslie Howell of the firm of Knighton and Howell, Portland architects, told members of the school board last night that the new senior high school would probably be turned over to the district late in March. Howell made the prediction in connection with the discussion concerning the proposed shops building which was finally awarded the Hoffman company at a bid price of \$34,708.99. The board had been dicker-

ing for several weeks in an effort to get the cost down within the amount of money available and finally accepted the bid when Howell expressed the opinion that the shops could not be built for any less. Architects' fees amount to \$202.49.

The building, a two-story concrete affair, with mill constructed interior, will not be complete at the contractor's price. However, it can be used and will probably be available for class work next fall.

Construction of the shop building will mean delay in completing the cafeteria, it was explained last night. The board has available around \$6900 with which to place partitions in the space set aside for the cafeteria. However, Hoffman company said the work would cost \$13,000. The latter figure was disputed by Architect Howell who said the job could be completed at a much less figure.

Pending final inspection of the building by Architect Howell, the school board last night held up a resolution of acceptance in connection with the Bush grade building. This building is the first of three constructed under PWA grant to reach completion.

After listening to a protest by Roy Stevens, fuel dealer, who was low bidder on 471 cords of wood, against being compelled to pile the fuel 10 feet 4 inches high, the directors agreed to depend upon A. W. Andrews, superintendent of building and grounds as to whether the district was getting the entire amount contracted for.

FEMALE EQUALITY BILL APPROVED

Following a hearing in the legislature, the senate committee on elections approved one bill granting equality to women in party politics, and rejected another bill formed along similar lines.

Several women appeared at the hearing to advance arguments for the bill providing for the election of precinct committeewomen.

The committee rejected this bill, and approved another measure providing for the equality of men and women in political party organization, but not specifying an extensive dual representation as the other measure would have provided.

Both measures were sponsored in the senate by Senators William L. Dickson and Thomas P. Graham of Portland.

'GLEE' TURN-INS SET FEBRUARY 26

As a preliminary looking toward Freshman Glee, outstanding campus performance, all classes at Willamette university held initial preparatory conferences yesterday. Members of the music committee, including Earle Potter, Lois Burton, Helen Purvine, Ina Bennett and Dayton Robertson, have set Friday, February 26, as the deadline for the turning in of words and music to the graduate manager's office.

Novelty songs will be the theme of this year's glee, with the song consisting of 16 lines. Judges have not been named but the selection is expected soon. The classes will be judged on presentation, rendition, words and music. The decorative scheme has not been announced, but the freshmen promise a decided novelty.

Members of the senior class, who have never placed higher than third in the glee, this year are seeking to climb the ladder to the highest place, and have begun to work on their songs. Committees for the senior class are: song, Gwen Gailiner, Frank Pemberton and Louella Coon; formation, Warren Peters, James Pyke and Anna May Unrath.

Donald-Miss Lois St. Helen has been spending some time at her home here suffering from sinus trouble and flu.

TRY THIS WAY TO QUICKLY RELIEVE ECZEMA ITCHING

If your skin is broken out with "fery" or "weeping" eczema, you want to relieve the intolerable itching and burning as quickly as possible. Resinol Ointment does this and also combats the irritation caused by eczema—its oily base being ideal for penetrating the outer layers of the skin and securing deeper action.

Wash the affected parts with warm water and Resinol Soap. It is especially suited to tender skin—soaps containing too much alkali soap irritate. After washing off scales and crusts, pat dry with a soft cloth. Do not rub.

Apply a thin layer of Resinol Ointment, letting it remain for several hours. Apply again liberally at bedtime leaving on all night. The longer Resinol is in contact with the skin, the more good it does.

Buy Resinol Soap and Ointment in any drug store. Sample free. Write Resinol, Dept. 16, Salem, Md.

Shakespeare Due

Here are Edna May Oliver and Norma Shearer in a scene from "Romeo and Juliet," which will be seen at two performances at the Elsinore theatre Thursday, February 11. The afternoon show will be at 2:30 o'clock and the evening offering at 8:30 o'clock. All seats are reserved.

SPEAKERS URGE PEACE PROGRAM

America should keep clear of any European controversies, Leonard Miall, British student from Cambridge university, warned a capacity audience at the First Methodist church last night when he appeared as one of the speakers on the emergency peace campaign meeting. "If we blow up in Europe, for God's sake don't come in," the speaker added. "Let there be one place in the world where sanity may prevail."

Miall said distribution of the world's raw products in order that countries which lack many essentials may be able to acquire them on a fairly even basis, would go a long way toward erasing possibility of another world-wide conflict. He urged the fostering of an emotional movement in favor of peace on a basis similar to that engendered during a clash of arms.

Dr. Aurelia Henry Reinhardt, president of Mills college, another member of the peace campaign party who spoke last night, suggested a federation of nations on the basis of neighbors. She advocated the keeping foremost in the minds of instructors and students alike a peace program.

C. A. Kells presided during last night's program which was sponsored by the Salem Ministerial association. Musical selections were presented by Ralph Gustafson, vocalist, and T. S. Roberts, organist.

FUNERAL DIRECTORS OF VALLEY MEET

Central Willamette funeral directors held a Salem meeting last night at which Glen S. Macy of McMinnville, president of the United States Embalming board, was guest speaker. He discussed the efforts being undertaken in a national way to pass legislation that would raise the standards of the funeral profession, higher education being one of the main requirements.

C. W. Henkle and J. Paul Bollman of Dallas gave short talks on subjects of professional interest.

Dr. L. E. Barrick, chairman of the legislation committee, reported on the progress of House Bill No. 35 which proposes to govern the funeral profession and requires college education and a longer term of apprenticeship as further safeguard to public health by all desiring to enter the funeral profession.

George S. Ryan of Portland, executive secretary of Oregon-Washington state funeral directors association, discussed late rulings of the Social Security act and invited all members to a mid-winter session of funeral directors in Tacoma February 23, 1937.

President J. Melvin Ringo of Woodburn presided.

TAKE WEIGHT OFF TIRED FEET

Loose Fat The Easy Way—Without Starvation Diets, or Back-Breaking, Bending and Rolling Exercises.

If your feet and ankles feel tired and ache all over—because you are carrying too much fat—do something about it. Try the treatment that has helped millions to reduce excess weight.

There's a reason why so many people find dieting slow and often times futile in reducing. The reason, doctors say, is often because a little gland is not working right.

All the blood in your body goes through this tiny gland sixteen times every day. If it doesn't pour into the blood stream about one and one-half drops of vital fluid every 24 hours, many people take on ugly fat. This fluid helps Nature to "burn up" excess food and fatty tissue in much the same way as a good "draft" muck in a furnace.

Now, physicians combat this condition by feeding this gland the substance it lacks—and millions of pounds of excess fat has been wiped out in this way.

Marmola Prescription Tablets are based on the same method used by doctors. So don't waste your time or money striving to reduce with starvation diets or back-breaking exercises. Start the Marmola treatment today that millions have used successfully to get rid of excess fat. The formula is in every box so you know just what you are taking. Don't wait—get a box of Marmola today from your druggist.

CLAIM ABILITY TO HOLD MADRID INDEFINITELY

Madrid, Feb. 9 (By Direct Cable at 10 p.m. Tuesday) (AP)—Seasoned socialist defenders of Madrid will be able "to hold the city indefinitely" against fascist besiegers, government commanders predicted tonight.

Late reports to military headquarters said insurgent troops were driving against Vallecas, a small town on the Madrid-Valencia highway about six miles southeast of the capital. Fighting was in progress on the

highway near the junction of the Manzanares and Jarama rivers, headquarters asserted. (No mention was made of the victory in cutting the road which insurgents claimed in earlier dispatches direct from the front.)

Alarm over the city's destiny, despite the military predictions, was sounded in Madrid newspapers.

Among the typical appeals for assistance was one which said: "Madrid is in danger! Therefore, all reserves in the heroic city must be mobilized to defeat the enemy!"

An intensive campaign was launched to have workers enroll in factory reserve brigades for daily military instruction.

(At this point, the heavily-censored dispatch jumped from one subject to another, apparently relating to military reports from the southern front around Cordoba.)

The dispatch said: "The town of Montoro (a town 25 miles northeast of Cordoba) is expected hourly and Lopera and Villa Del Rio (two other small towns in the same section) soon after."

"Reports said a train carrying a thousand of Franco's (Insurgent Generalissimo Francisco Franco) foreign troops was derailed as a result of sabotage committed by government agents, who filtered into the fascist lines, and fell into a ravine near Cordoba. The casualties were not mentioned."

Mill City—Mrs. W. J. Robinson accompanied her son, Charles Kelly, to Salem Monday morning to see her sister, Mrs. Harry Budions, who has been ill for several days with a severe attack of influenza.

SUSPENSION OF GLOVER FROM BAR REQUESTED

An order for the three year suspension of Ronald C. Glover of Salem from the practice of law in Oregon was filed with the supreme court yesterday by the board of governors of the Oregon State Bar association. Glover has 60 days in which to appeal before the order becomes effective.

The findings were reached at a meeting of the governors January 19. At that time the board adopted the findings of a trial committee with one amendment. A pertinent paragraph in the order reads: "That the conduct of the said Ronald C. Glover was unethical, wrongful, fraudulent and corrupt and was contrary to his obligations as an attorney at law and an officer of the courts of the state of Oregon, and that by reason thereof the said Ronald C. Glover should be suspended from the practice of law for a period of three years."

The complaint, according to trial committee records, concerned the estate of Clark Bundy, who died January 16, 1934. The charges involved testimony that Glover is said to have given in a contest over the will as to time, place and manner

in which a purported will was drawn. Glover was attorney for Rocky B. Coulson, one of the heirs, in a proceeding to impound the will.

Records show that Glover testified that the will that was filed for probate was written in his office under the direction of Bundy in November, 1933. Later, it developed, according to the findings, that Coulson typed the will somewhere else and at another time.

The records show that Glover defended himself by contending that he did not know these things until after completion of the trial. The findings indicate that the trial committee was convinced that before he made his final argument in the case Glover knew that his testimony was erroneous.

Semi-Annual PENNEY DAYS

For Graceful, Sweeping Lines!

FLEX-O-BACK

Sizes 34 to 48 **2.98**

Slenderizing side hook foundation with patented sliding back and Swami uplift bust section. 25" model of pre-shrunk printed batiste that wears and wears! Very comfortable, and flattering to the figure, too!

Lot No. 3704

Amazing Values! New Spring

CURTAINS

Of Fine Marquette! **98¢**

Priscillas with jumbo size pussy willow dots! Cottage sets... cream with white or colored dots. Tailored net pairs, too, in the popular sun-tan shades. Choose your curtains today!

A Brand New Array of MALABAR DRESS

PRINTS

Imagine, only **15¢** yd.

Interesting new patterns—and, of course, solid colors! Women 39 inches wide, shrunk in finishing to 36 inch width. All fast color! Plan your Spring sewing NOW—see these Prints TODAY! Outstanding value!

Attractive Cynthia SLIPS

98¢

With Shadow Panel

So lovely you'd think they cost much more! They wear well, fit smoothly and launder beautifully, too! V and bodice top models. Tailored or trimmed.

NEW Wash SPRING Frocks

- Table Damask **59¢**
