## Mystery Veils Blood Splattered Dancing Girl

Hollywood, Sept. 14 (AP)—The mystery of the barefoot dancing girl, splattered with blood which was not her own when found sobbing at the gate of the B. R. Schulberg movie studio, embroiled Los Angeles police today in a most vexing predicament.

Miss Laura Lee, red-haired, 21 years old, charged the officers with confusing the offender with the offender. They arrested her, she said, when they should have jailed the celebrated scenario writer she accused of trying to attack her.

She hit him on the head with a telephone, she added, thus explaining the blood splashed on her gaily slacks and blouse. Had police arrived only a couple of minutes earlier, she said, they would have found her nude, except for the neck, which was twisted around her neck.

She said the author had taken her to his luxurious offices on the second floor of the Spanish hacienda-like building which serves as headquarters of the Schulberg Production company, and there started to rip off her clothing.

"Then he hit me on the head and knocked me unconscious," she said. "When I recovered consciousness, I was nude—and so was he."

"He tried to force his attentions and I ran to the telephone and called police. He started to struggle with me. I hit him with the phone. Blood spurted from his head. I ran screaming downstairs, taking my clothes with me."

Under an arc light on North Bronson Avenue she pulled on her underwear and her slacks and was arranging her blouse, when officers E. W. Smith and W. C. Burris arrived.

The policemen charged Miss Lee kicked them, injuring Burris so severely he was forced to seek medical aid.

"I only kicked him when he called me a foul name," Miss Lee insisted. "Anyway I couldn't find my shoes—I was barefooted."

## Ethiopians Still Resist Italy

Geneva, Sept. 14 (AP)—Exiled Emperor Haile Selassie today told the League of Nations his East African domain still is bitterly resisting Italy's army of occupation.

From his refuge in England the fugus sent a letter to the league asserting that "It Duke's legions occupy merely 'strategic points' in Ethiopia. Italy claims complete dominion."

Italian exploratory columns sent into the interior have been withdrawn, said Selassie, because of hostility of the natives who severely communications and prevented arrival of supplies.

"My report indicates the resentment of my people is hardening and continuing tirelessly," he said.

The league assembly coincidentally held a plea from the Chilean delegate, Artur Edwards, urging modification of the league covenant in some way that would bring in all non-member nations—including the United States.

In view of the "grave, tragic complications obscuring the horizon," the Chilean asked league reforms that would give assurances to America and thus perhaps woo the eight non-member American states into the league.

He suggested consultation with those nations—the United States, Brazil, Honduras, San Salvador, Costa Rica, Guatemala, Nicaragua, and Paraguay—before effecting the reforms.

## Board Allows Oregon \$17,606

Washington, Sept. 14 (AP)—The social security board today allotted Oregon \$17,606 to expand its state employment services.

Director R. Gordon Wagenet of the board's bureau of unemployment compensation, explained the grant was made necessary because the state is beginning to set-up administrative machinery for benefit payments beginning January 1 under state unemployment compensation laws.

The expansion is one phase of the proposed coordination of unemployment compensation and employment service here as well as in the state, he said. The new duties will require states to open additional offices to provide networks of employment centers, Wagenet added.

## Offers Received for Courthouse Bonds

Marion county courthouse construction bonds are so good that folks want to buy 'em before they have either been voted on or issued.

The county court today received a letter from Walter, Woody and Heimerding of Cincinnati saying they want to buy the proposed \$300,000 courthouse bond issue and would like to send a representative here to confer with the court about the purchase.

While Commissioner Nelson said he was sorry the bond issue isn't in such shape yet it can be sold right off the bat, he said the court would like to ascertain what the bonds were likely to bring if voted.

Final order has been granted to Blaine McCord as administrator of the estate of Libbie M. Morcom.

## Continuation of— Colleges Opening

meeting left a docket full of these to be acted upon at this meeting. New appointments, leaves of absence, changes in time service and salary adjustments affected 22 at the university, 30 at the State college, one in general extension and two each in the medical school and centralized activities.

After passing on a number of salary raises, mostly held over from the June meeting for further consideration, President Willard Marks cautioned presidents and the other administrative officers to inspect critically reported increased offers from other institutions. Marks said he knew many of these have been received by staff members but said it is good business to make sure concerning such offers.

## Bids Opened on New Highway Short Time Loan

Portland, Sept. 14 (AP)—The highway commission received offers today from the First National bank of Portland and the state bond commission for a short term loan of \$1,000,000.

The bank bid \$100 for each \$100 par value note at 45 of one per cent interest. The commission offered \$100 for each \$100 par value note and a premium of one mill at one-half of one per cent interest.

The proposed loan will enable the commission to meet federal aid and continue construction during the period the commission's expenses exceed its income. The loan is for six months with an option to repay on January 1 or any date thereafter on 30 days notice.

The commission opened bids on eight projects, headed by the surfacing of 16.7 miles of the Siletz secondary highway in Lincoln county. The mountain states construction company of Eugene submitted the low figure of \$40,983.

Other projects and the low bidder:

Construction of a frame storage building in Clackamas county near the south city limits of Portland on the East Pacific highway, Frank Watt Construction company, Portland, \$7144.

Concrete bridge over south fork Quartz creek, Wolf creek highway, F. C. Himber company, Eugene, \$8910.

Furnishing 10,200 cubic yards crushed rock on West Diamond lake and Crater lake secondary highways, R. I. Stewart, Medford, \$19,850.

Furnishing 5200 cubic yards crushed rock, forest boundary-Lons creek section, Pendleton-John Day highway, Rogers Construction company, Dayton, Wash., \$7820.

Surfacing and culling Goucher creek section of Hood River secondary highway, Rogers Construction company, \$22,385.

Construction timber bulkhead in town of Greatham on Mt. Hood highway, Frank Watt Construction company, Portland, \$11,677.

The Dalles roadside improvement on Columbia river highway, George Schmidt, Portland, \$9750.

## Judge Simpson On Supreme Bench

Olympia, Sept. 14 (AP)—Governor Clarence D. Martin placed Judge George B. Simpson of Clark county upon the state supreme court today to fill the vacancy created by the retirement of Justice Warren W. Tolman.

Charles W. Hall, Vancouver attorney and former state senator, was appointed by the governor to fill the vacancy caused by Judge Simpson's elevation to the supreme court.

Judge Simpson, 56-year-old resident of Vancouver, will assume his new duties at the beginning of the fall term of the supreme court, September 20. That also is the official date of Justice Tolman's retirement.

Simpson was graduated from Willamette University in 1907, and the same year was admitted to practice law in both Oregon and Washington.

Judge and Mrs. Simpson have two children.

## Four of Portland Sawmills Operate

Portland, Ore., Sept. 14 (AP)—Four Portland sawmills continued to operate on slow bell today as both the C.I.O. and A. F. of L. claimed progress in their jurisdictional battle in the lumber industry.

Don Helmick, regional officer of the C.I.O., said an agreement had been reached that the log rafts would be towed to the "alta" at the mills and the C.I.O. loggers would take them in from there.

Meanwhile the A. F. of L. claimed many C. I. O. mill workers were deserting and returning to the newly chartered A. F. of L. Lumber and Sawmill Workers' local 3532, which was chartered when William Wedel, financial secretary of the C.I.O. union, bolted the John L. Lewis organization Saturday, and returned to the labor temple.

## Japs Attack Second Chinese Defense Lines

tragic story of undeclared war at Shanghai when the Chinese civilian news agency reported 400 Chinese war refugees had been killed or wounded by Japanese bombs rained on the flimsy sailing boats in which they were fleeing the city.

Three of the boats were said to have been sunk and six damaged. The undefended decks of the open boats were crowded with frightened Chinese, huddled among their luggage and portable possessions.

After their four-mile retirement last night, the Chinese forces took up their new positions extending in almost a straight northwest line from Shanghai's North Station for 30 miles to the banks of the Yangtze river above Liuhou.

They appeared undaunted by the strategic withdrawal which their commanders explained was made to afford better coordination of the various Chinese units and to avoid the heavy fire of Japanese warships.

The tenacious Chinese, who had fought the Japanese advance to a stand-still for almost five weeks, still had three powerful defense lines intact to the west.

Japanese naval guns from the Whangpoo warships hurled tons of steel at the new line which Chinese said was impregnable. Japanese bluejackets in the North Szechuan Road district joined in the attack, engulfing the northern environs of Shanghai in the continued fighting.

Despite the drizzling rain, fires burned over the destroyed sectors of the city and miscellaneous shells from both armies continued to burst over the foreign areas, spraying them with shrapnel.

## Hitler to Aid Fight on Reds

Nurnberg, Germany, Sept. 14 (AP)—The third Reich's foreign policy was aimed today by Reichsteuher Hitler at intervention "wherever Bolshevism appears in Europe."

Such a policy, he told 16,000 cheering Nazis last night at the closing of the eight-day party congress, is dictated by the "naked necessity of sustaining the very life of the German people."

The chancellor frankly admitted Germany's aid to the Spanish insurgents, and sought to justify such past and future intervention by a broad-and-butter motive based on the Reich's instinct for self-preservation.

Germany has no colonial empire, he said, therefore Germany must trade with other European countries or perish. If the inroads of Bolshevism threaten that trade, he argued, Germany intends to intervene.

"This exchange of goods is only possible if these countries continue to produce goods under well regulated normal conditions," Hitler contended.

A discussion of the productive capacity of a country like Russia "may not interest Great Britain," he went on. "Perhaps it is also a matter of complete indifference toward England if Spain becomes a desert."

But for us Germans Europe as it is today is a prerequisite for our own existence.

"We have neither the desire nor the intention to become political and economic hermits. But we categorically refuse to be hooked up with those whose scheme is the destruction of Europe."

## Frank Myers to Move Dwelling

Frank G. Myers, whose home at 592 North Winter is one of those on property being taken over by the state, today took out a permit to move the dwelling to the northwest corner of Marion and Winter, location of the old Johnson home. The cost of moving the building is placed at \$1000. R. M. Cady took out a permit today to build a 1½-story dwelling at 990 North 14th street at a cost of \$2800. Other permits today were: J. D. Nerin, to re-roof a garage at 2325 North Front, \$25. Wendell Heim, to re-roof a 1½-story dwelling at 498 South 23rd, \$65. J. H. Donaldson, to re-roof a 1½-story dwelling at 2020 North Liberty, \$100. Mrs. Nora Merrill, to re-roof a garage at 350 South 16th, \$25. Mrs. J. H. Moore, to re-roof a two-story dwelling at 940 Leslie, \$50. Maude H. Hresnell, to build a garage at 1932 Chemeketa, \$30.

Marriage licenses have been issued to John E. Davis, 20, engine washman, 325 Hines street, and Norma McGilnly, 17, housekeeper, route 2, both Salem; John J. Koenig, 26, farmer, Sublimity, and Vivian M. Morgan, 17, housekeeper, Aumville; Harvey Jacobson, legal cook's helper, tuberculosis hospital, and Cornelia F. Converse, legal linen mill worker, both Salem.

## Willamette Wants Old Postoffice

There is a prospect, it became known today, that the old postoffice building, soon to be moved, will be taken to Willamette university campus.

The suggestion has been made by local people that the building be used either as a museum or a hall of science.

The possibility has not yet reached a tangible point, and negotiations are not really under way, but the Hoffman Construction company, builders of the new postoffice, are looking for someone to take the building off their hands and no definite proposal is pending.

## School Board to Act On Registrar's Job

A burst of business calculated to keep the directors occupied for two or three hours will confront the Salem school board when that body meets tonight in the administration

there. The readjustment will cause an overdraft in the amount budgeted for janitor service of about \$400. This will be drawn from the emergency fund.

Another bit of business which should be taken up for consideration is the matter of issuing teachers' contracts. This formality has been held up pending the report of the auditors who checked over the district's books. This report has been available for almost two weeks. Since virtually all teachers are under tenure, there is little necessity for issuing contracts.

Transferring J. C. Nelson from the social science department at Salem high to a newly created position of registrar will probably be taken up tonight. Whether Professor Nelson's position as history instructor, should it be vacated, will be filled tonight is problematical. It has been the policy of the board to advance teachers in the system wherever practicable.

Plans in connection with the proposed public dedication of the new high school may be tentatively laid. The dedication is set for the evening of September 30. An effort will be made to secure a suitable speaker.

## Mrs. Parsons Died in Custody Of Kidnapers

New York, Sept. 14 (AP)—Benjamin Shiverts, an attorney, announced today that federal agents in their possession evidence indicating that Mrs. Alice McDonnell Parsons, missing since June 10, died a month later in the custody of her kidnapers.

Shiverts is counsel for Mrs. Anna Kupperanova, Russian born housekeeper at the Parsons farm. He said that the agents had letters from the abductors admitting the society woman is dead and that they have disposed of the body.

Shiverts said a brooch, known to have been worn by Mrs. Parsons when a man and woman induced her to enter their car at Stony Brook, N. Y., has been sent to the federal agents, as proof the letters are genuine. The missives were postmarked Elizabeth, N. J., and Newark, N. J.

One of the letters allegedly said that Mrs. Parsons had been kept prisoner on Long Island and died from pneumonia.

Earl J. Connelley, inspector in charge of government work on the case, refused to comment on the story.

Mrs. Parsons, who is listed in the social register, disappeared from her husband's squab farm near Stony Brook, Long Island, June 9. She was not missed until 8:30 p. m., and it was not until 1:30 a. m. the following day that police found a ransom note in her automobile, parked near the house.

## Russia Closes Jap Consulates

Moscow, Sept. 14 (AP)—Russia, in a surprising note, withdrew all recognition today from two key Japanese consulates in the Soviet Union.

One of the consulates affected is at Odessa, chief Russian port on the Black sea. The other is at Novo Sibirsk, an important railroad junction on the vital Trans-Siberian railroad along which Russia, in a war with Japan, would send men and munitions to far eastern fronts.

Withdrawal of recognition is effective at midnight today, so that there was no time for further argument.

There have been a long series of Russian-Japanese incidents which have had statesmen expecting an explosion for months. Action came immediately upon announcement of the conclusion of a Russian-Chinese non-aggression treaty, in itself a slap at Japan. Japanese have suspicions the treaty contains secret military and political clauses.

Russia took its new action on the ground that Japan has eight consulates in the Soviet Union while Russia had only six in Japan. This, it was pointed out, does not conform to the exchange of notes of 1926 providing for equal consular representation.

## Mighty Fleet Concentrated to War on Subs

Great Britain and France immediately swung into action to concentrate a mighty fleet on the inland sea.

Nine torpedo boats from the French Atlantic fleet—with fresh cargoes of supplies, including munitions, taken on at Brest—drove quickly toward their Mediterranean patrol posts.

They augmented a formidable fleet of British warcraft already at Mediterranean stations.

Together, the Anglo-French war vessels, comprising the backbone of the international fleet, will have 60 warships on patrol duty.

The nine powers await Italy's decision on an invitation to share the responsibility in arrangements for patrolling the Tyrrhenian sea, off the Italian western coast.

The accord and its vast plan for driving maritime marauders from commercial lanes becomes effective immediately, whether Italy accepts her assignment or not.

Neither Germany nor Italy, included among the 19 powers involved, attended the momentous talks in the sleepy little Swiss village on Lake Geneva near here. Albania, dominated in foreign policy by Italy, also declined the invitation.

The Rome and Berlin governments rebuffed the bid in the heat of tension last week over Soviet Russia's accusation that Italian submarines torpedoed two Soviet merchant ships in the western Mediterranean.

The text of the protocol follows the lines of a draft approved on Saturday, zoning the Mediterranean and its lesser seas and authorizing warship members of the international police force to sink any
