

Court Street Sewer Being Given Study

The city engineering department is making a study of the sewer situation on Court street from 13th to Mill creek, it was reported at the city council meeting last night. The report came from the committee on sewerage and drainage in response to a letter received at the previous meeting from E. L. Crawford, asking that something be done for relief in that part of the city.

Two ordinance bills before the city council providing for zone changes from class 1 to class 2 residential, so the building of apartment houses may be permitted were tabled until the next meeting. One of the locations is on D street near the new Salem high school and involves the south 30 feet of the Roth block.

A petition was received for sewer service for blocks 2 and 3 in Simpson addition. A resolution by Alderman Fred A. Williams for vacation of an alley in block 11, from Bellevue to Oak, was adopted.

Williams got the council to refer to the traffic committee the matter of traffic hazard on D street from 14th to Capitol, which is a route from Parrish junior high school to the new senior high school, and urged that parking of automobiles be prohibited on the narrow street. Alderman D. O. Lear called attention to the fact that there are already "no parking" signs on the street.

The city recorder was instructed to send a letter to the Portland General Electric company suggesting that the cluster light posts about the city be painted some attractive color, probably a dark green. Alderman E. B. Perrine said he had assurance that this would be done if the city would express a wish to have it done.

Freight Line Demands Order

Complaint filed in circuit court by Consolidated Freight Lines, Inc., ask that orders of the public utilities commissioner suspending the company's permit be set aside and that the commissioner be permanently enjoined.

The company contends that under suspension orders which originally were set for September 15 but have been moved up to begin November 15 will cost the company a gross income of \$70,000 a month while the suspension is in effect; will deprive many communities of transport facilities and that shippers will lose money as no other firm in the state has joint through rates with commercial carriers and that the plaintiff's rights to operate

interstate under the interstate commerce commission will be endangered.

The commissioner alleged in suspending the order that the trucking firm has made rebates in its interstate

business, that it has traversed routes not authorized by the permit and has discriminated against certain shippers. The company contends that a majority of the acts alleged were done in interstate

business and some done inadvertently.

The plaintiff states that it has \$1,322,378 invested in rolling stock; \$133,283 in buildings, shops and warehouses, and \$142,734 in garage

and warehouse equipment. It further states it has unsecured indebtedness of \$184,000 and secured indebtedness covered by mortgages on rolling stock of \$317,437.

Scollard of San Francisco are spending a two weeks' vacation at the home of Mrs. Scollard's parents, Mr. and Mrs. William Scollard of West Woodburn. Scollard is employed at San Francisco by Swift and Co.

Lyons School Starts

Lyons—The Lyons school opened Monday with David Staley and Miss Maxine Huber as teachers. The enrollment exceeds that of last year. Mrs. Nora Taylor will teach the

Weasel Flat school which also began Monday.

Giving up golf 11 years ago for dominoes, Thomas Roberts, aged 102, now has had to forego that pastime, his sight having failed.

A STAR IS GONE from the cinema firmament, for Charlie Chaplin has announced the little tramp with baggy pants and his feet is no more.

WHAT WILL IT COST?

You may not ask that question when your Doctor hands you a prescription. But it probably is in your mind. And that's perfectly natural.

We welcome an opportunity to answer that question for you. Here's how prescriptions are priced in this establishment: To the cost of our fresh, potent drugs we add the time of a skilled pharmacist in filling your prescription, plus overhead and a modest profit. This fair price is no more—and often less—than you pay where prescriptions are haphazardly priced. Because our volume is large, our costs are low. Why not bring your next prescription here to be filled?
