Mothers! Treat Children's Colds This Proved Way More mothers use VapoRub than any other medication of its kind—they have proved it by use in their own homes. It was first used in the world's largest cold-clinic. No "dosing"—just massage VapoRub on throat, chest, and back at bedtime. Almost at once, its poultice-and-vapor action starts to loosen phlegm, relieve irritation and coughing, help break local congestion. Often, by morning the worst of the cold is over.
