Leo N. Childs has been named administrator de bonis non of the old estate of Sarah Bowker, being designated as one of the principal creditors. Sarah Bowker died in 1905 and Arthur W. Treadway named as administrator. He died in 1928 leaving the state unadministered, says the petition and H. D. Treadway was named administrator but he also died before the estate was completely administered. Assets amount to \$1500 in real and \$175 in personal property. A list of 26 heirs at law living in various parts of the country is appended to the petition.

Dr. J. Russell Throckmorton of Chicago, executive secretary of men's work in the Methodist Episcopal church, will speak to the Salem sub-district of the Men's Brotherhood at the Jason Lee church at 3 o'clock Sunday afternoon with all interested persons invited to attend. Dr. Throckmorton spent last week in California and yesterday spoke in Eugene. He will go on to Portland for an appearance Monday and then proceed to Washington for a series of lectures.

New York, May 21 (AP)—Dr. Hugo Eckener, skipper of ocean-going airships, said today failure to obtain helium from America to fill his new dirigible would cause him the "greatest disillusionment of my life."

In his first interview since his conversation with President Roosevelt and Secretary Ickes regarding the purchase of the gas to replace hydrogen which destroyed the dirigible Hindenburg a year ago, Dr. Eckener denied the gas would be used for military purposes.

"The increasing size and speed of airplanes has rendered the dirigible useless as a military weapon to Germany," he said, of obtaining helium for the new airship, LZ-130.

Dr. Eckener will sail late today for home.

Faulty Judgment Cause of Crash
Los Angeles, May 21 (AP)—A coroner's jury described today as "accidental and due to faulty judgment on the part of both pilot and copilot" the cause of the crash of an \$80,000 transport plane in the Saugus hills Monday, which killed nine persons.

"We recommend," the jury wrote, "that all pilots flying planes carrying passengers be instructed by proper authorities and required to fly at 1000-foot elevations above the highest mountain points on the route being flown when leaving or entering all airports in this area."

Joseph Marriott, federal bureau of air commerce inspector, was a witness before the jury yesterday, but testified only briefly because, he said, the bureau has not completed its inquiry.

Classes Hold Picnics
Scotts Mills — The grade school closed here Wednesday. Tuesday the three rooms went to different places to picnic. The primary room and their teacher, Mrs. Leroy Prater, went to the Dale woods. The intermediate room and teacher, Miss Corinne Moberg, went to the Hartman dam on Butte creek. The grammar grades and teacher, Miss Ruth Boyce, went to the McCallan ranch.

Pioneer Remembered
Hazel Green—A group of local friends and relatives motored to Mill City recently where they were guests for a family reunion at the home of Mrs. Arthur Catherwood, honoring Mrs. Mary Swan, pioneer resident of that city. Attending from here were Mr. and Mrs. Henry Dunnigan, William, Orville and June, and Miss Marian Wampler. Others present were Mr. and Mrs. Will Swan, Kenneth and Marjorie, Mr. and Mrs. John Swan, Estel, Bonnie, Billy and Jerry, Mr. and Mrs. James Swan and daughter, Mrs. Mary Lovett, and daughter, Katherine.

In justice court today Walter King, charged with giving a check without sufficient funds, took 24 hours in which to decide on his plea and is held in jail in default of bail of \$150. He allegedly gave a check for \$12.50 to Eugene Hart without funds to cover.

U. S. to Take Part in Medical Celebration

Washington, May 21 (AP)—The state department announced yesterday that the United States would participate in the 11th international congress of the history of medicine at Zagreb, Yugoslavia, starting September 3.

The American delegation will be Capt. Frank L. Pleadwell, retired, medical corps, Honolulu; Dr. Howard Dittick of Cleveland; and Dr. Edward B. Krumbhaar, of the University of Pennsylvania medical school.

Paving Brick Lethal Weapon

Oakland, Calif., May 21 (AP)—Mrs. Ruth A. Mintz, 38, a cateress, was slain early today by a mysterious assailant who attacked her with a paving brick at a street corner.

Mrs. Mintz died at the Alameda county hospital without regaining consciousness. The attack occurred about a block from Mrs. Mintz's home while she was returning from a theatre.

Police Chief Bodis A. Wallman said he believed the man trailed Mrs. Mintz from the theatre and suddenly rained blows on her head with a concrete paving brick wrapped in a newspaper.

Mr. and Mrs. C. J. Moore, living nearby, were awakened by screams and saw a man carrying Mrs. Mintz. He then vanished into an alleyway but reappeared shortly, still carrying his victim.

Moore said the man dropped her on the sidewalk and started to run away, halted and returned.

"Get away from me," the prostrate woman pleaded and the man, Moore said, raised his arm and struck another vicious blow.

Chief Wallman said he believed Mrs. Mintz knew her attacker and there was a possibility the slayer had attempted to attack Mrs. Mintz criminally and had beaten her when she resisted.

Funeral Held For Anton Lang

Oberammergau, Germany, May 21 (AP)—Anton Lang, the Christ of this little Alpine village's world famous Passion Play, was buried today. The village gave "his great son and first burgher," who died May 18 in a Munich hospital, "a solemn homecoming."

Almost the whole population, as well as visiting American and English tourists, attended the services for the 63-year old impersonator of the saviour.

The coffin almost was hidden under wreaths from Oberammergau families and fellow actors. One was inscribed in English, "To a great and simple man."

There were no tributes, however, from Nazi party or state authorities nor was there any Nazi uniform among the 1200 mourners in the little churchyard.

Lang's widow was present but his two sons were in America. Anton, his elder son, is a teacher of German in Washington, D. C., and Fritz, the younger, is a civil pilot in Canada.

Members of Lang's family recalled his dying words: "I have tried to make people more devoted followers of Christ."

Eckener Says He's Disillusioned

New York, May 21 (AP)—Dr. Hugo Eckener, skipper of ocean-going airships, said today failure to obtain helium from America to fill his new dirigible would cause him the "greatest disillusionment of my life."

In his first interview since his conversation with President Roosevelt and Secretary Ickes regarding the purchase of the gas to replace hydrogen which destroyed the dirigible Hindenburg a year ago, Dr. Eckener denied the gas would be used for military purposes.

"The increasing size and speed of airplanes has rendered the dirigible useless as a military weapon to Germany," he said, of obtaining helium for the new airship, LZ-130.

Dr. Eckener will sail late today for home.

Neutral Zone of Madrid Shelled

Madrid, May 21 (AP)—Rebel batteries shelled the neutral zone of Madrid for the first time today, wrecking the Venezuelan consulate and killing the brother of former Vice-Consul Eduardo Lozano and three servants.

The Venezuelan legation also was damaged. It was believed approximately 12 were killed and 40 wounded during the bombardment, in which about 150 shells were fired.

TVA Pact OK'd By Nashville

Knoxville, Tenn., May 21 (AP)—The Knoxville city council today unanimously approved the agreement whereby the city and TVA plan to purchase the electric facilities of the Tennessee Public Service company for \$7,900,000.

It was announced the city's share of the purchase price would be \$5,375,000. In approving the plan the council praised Mayor Walter Myratt for "making a good business deal."

W. H. Petrus, former city law director, was engaged to help draft contracts for the sale.

Revenue bonds will be issued against the electric system to finance the city's part of the purchase, it was announced.

If the transaction is completed it will mark the first acquisition of a private utility properties by the TVA and a municipality it serves.

New Dispute Halts Fish Ships

Seattle, May 21 (AP)—A new dispute between packers and cannery workers over hiring of men hit the Alaska salmon fishing and cannery season today just as more than 600 men were ready to sail north.

The Cannery Workers' and Farm Laborers' union, affiliated with the Committee for Industrial Organization, insisted it had the right to determine which men were to be hired.

Packers demanded that many former employees, members of the American Federation of Labor unions, be hired.

The C. I. O. was chosen recently as collective bargaining agency for cannery workers in a consent election held by the National Labor Relations Board.

The union agreed with the canned salmon industry yesterday that A. F. of L. men who wanted to work this year would have to have C. I. O. permits. This provoked A. F. of L. picketing of a terminal from which Libby, McNeill and Libby cannery boats were to sail.

The Alaska Steamship company's S. S. Yukon, which was to have sailed at 9 a. m., was delayed until at least mid-afternoon while efforts to sign 230 cannery workers for passage on the ship continued.

More Politics Seen by Lewis

Washington, May 21 (AP)—Chairman John L. Lewis of the Committee for Industrial Organization announced plans today for increased participation by labor in political activities.

Lewis, commenting for the first time since the defeat of the CIO-Guffey ticket in the Pennsylvania elections, told the second annual convention of the United Office and Professional Workers of America that political strength would be gained as the numbers increase.

"As we grow in natural strength, our unions will grow in political strength," Lewis said, announcing simultaneously that his organization drive would move forward with industrial recovery.

"Political activity is the natural by-product of economic activity as the union expands to serve an increased membership."

Lewis guarded his comment on the political situation, closing his remarks with a statement that "there are many other things I could say about political activities but under the circumstances I will not."

Mussolini Calls Wheat Committee

Rome, May 21 (AP)—The government wheat committee met today at the call of premier Mussolini to consider Italy's drought-created wheat shortage and authorized an increase of approximately seven percent in wheat prices.

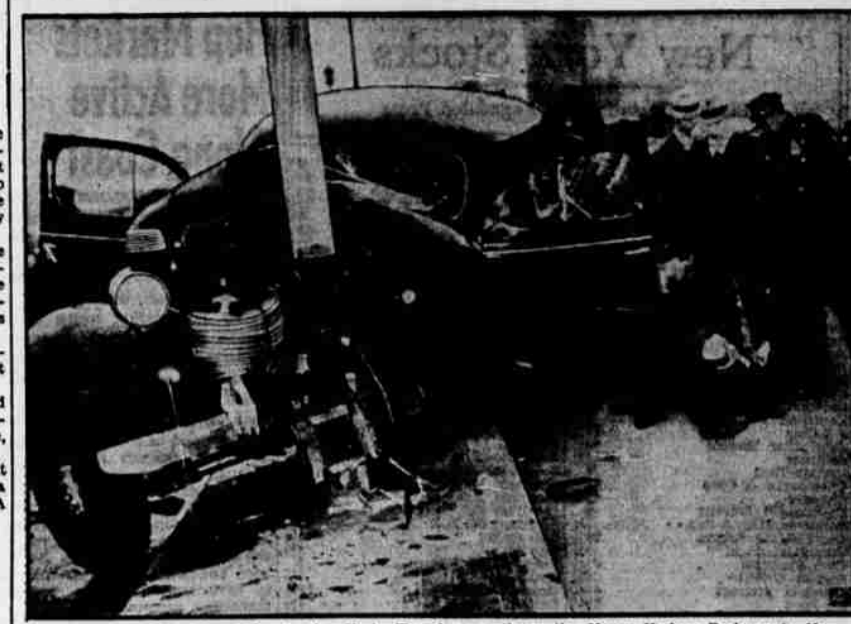

The committee fixed the price of Italian wheat at from 135 to 150 lire a quintal, or about \$1.94 to \$2.18 a bushel.

Pear Growers Reject AAA Pact

Washington, May 21 (AP)—The agricultural adjustment administration announced today that California plum, Bartlett pear and Buere Hardy pear growers rejected a proposed marketing agreement.

Eberta peach growers approved the program, but it was announced that a marketing agreement will not be issued on them because shippers signatures to the agreement do not represent sufficient volume. Additional time will be granted Eberta peach shippers to sign the agreement. The AAA said that 47 percent of the Eberta peach growers representing 74 percent of the volume voted in favor of regulating interstate shipments of the fruits.

Journey's End For New Sedan In New York—Traveling south on the Henry Hudson Parkway in New York, this new sedan mounted the island dividing the roadway and crashed headlong into a steel light pole. Three persons were taken to hospitals in critical condition. Note the injured victim at right being given aid as he lies on the pavement. — Associated Press Photo.

Lewis Rapped Again by Green

Cincinnati, May 21 (AP)—William Green left a renewed ultimatum with the Committee for Industrial Organization today.

After warning in a prepared address against continued spending by the government, the American Federation of Labor president declared last night that the doors "of the house of labor were still open to those who had left its portals, but the American Federation of Labor will never leave that house to go to them."

Green mentioned neither the CIO nor its leader, John L. Lewis, in his talk at the AFL's first annual trade and union label exposition here, but said:

"Nowadays we hear employers' complaints of oppression by labor and by the government. In some cases where industry has been plagued by sit-down strikes and other illegal and high-handed procedure, these complaints are justified."

"The American Federation of Labor and its unions do not and will not condone such illegal methods of organization. We condemn them."

He then added: "The real assets of labor are not to be found in large treasuries of great financial power, but in union solidarity. * * * When you find a man who even by a gesture would destroy that unity, can that man be a friend of labor?"

Illinois to Pass Relief Measure

Chicago, May 21 (AP)—An appropriation measure designed to meet Chicago's relief crisis was pushed toward passage in the special session of the legislature today.

The bill called for an increase of \$500,000 monthly in state aid for relief. Legislative leaders hoped for passage by Wednesday.

Lewis guarded his comment on the political situation, closing his remarks with a statement that "there are many other things I could say about political activities but under the circumstances I will not."

Wild Animals Have Adventure

Canon City, Colo., May 21 (AP)—A deer, a mountain lion and a railroad locomotive crew figured in a strange adventure in the Royal Gorge of the Arkansas river—and the lion lost.

Engineer J. D. Batie said he brought his Denver & Rio Grande Western locomotive to a stop just ten feet from where the mountain lion had knocked the deer to earth and was about to kill it.

Seeing the locomotive almost upon him, the lion leaped to flee but struck a fence and was momentarily dazed. Fireman Lee Barker grabbed a coal pick and hit the beast in the head, killing it.

The deer struggled to its feet and bounded away, only slightly hurt.

Fisherman 'Hoodooed'

Middle Grove—Murray Dow, son of the Lee Dows, is nursing a sore finger, cut with a knife while on a fishing trip. The cut required five stitches and is causing the young patient considerable pain, as the nerve endings were injured. Murray believes his fishing trips are hoodooed as on a similar one last year he was recalled to the family home because of severe injuries received by his father.

Catholics Hit Ugly Journalism

New Orleans, May 21 (AP)—Sensational journalism was attacked yesterday by delegates to the 28th convention of the Catholic Press Association of the United States.

The Rev. Donald F. Miller, Oconomowoc, Wis., editor of the Liguorini, charged that the secular press was "guilty of flooding the country with a great deal of unwholesome propaganda." He branded as abuses of the modern press "sensational sex stories, morbid and unhealthy combs and features, and glorifying of divorcees and rakes."

100 Rescued In Frisco Fire

San Francisco, May 21 (AP)—One hundred persons were rescued and seven slightly hurt in a \$25,000 fire that flared up the elevator shaft of a five-story apartment hotel here today.

Scores were helped down ladders or carried downstairs when smoke and flames trapped scantily clad guests.

Charles Tennant, 68, suffered a heart attack in the excitement and was carried out. He recovered. Mr. and Mrs. George English, 38 and 40 respectively, fled down the steps with sheets over their heads. They were sent to a hospital suffering from cuts and smoke inhalation. James Bailey, 18, overcome by smoke, was treated at the scene.

Three firemen were treated at Central Emergency hospital. Charles Flynn, 43, and Charles Egan, 41, suffered lacerations, and Ralph Halvorsen, 26, received painful injury when a burning chip lodged in his eye.

Several months ago a similar fire, also starting at the base of the elevator shaft, periled the structure. It has rooms for about 200.

Jimmy Roosevelt To Enter Clinic

Washington, May 21 (AP)—James Roosevelt, secretary and eldest son of the president, plans to enter the Mayo clinic in Rochester, Minn., soon, he announced today. He has been suffering from a stomach disorder.

He emphasized that his visit to the Mayo hospital would be merely for the purpose of going through the routine examination. He said he planned to leave Washington as soon as he could fit in his plans with those of his father.

The president planned to view the regatta between Navy and Harvard this afternoon at Annapolis.

School Girl Found Slain, Ravished

San Antonio, Tex., May 21 (AP)—Twelve year old Hope Eliondo, school girl, was found slain and ravished near her home at Laverania, 25 miles southeast of here today, and officers guarded a young negro from a crowd that quickly gathered around the county jail.

Oscar Tewes, Laverania farmer and member of an all night searching party that had been hunting the child since she failed to appear at school, stumbled across the body in high weeds.

Her back bore a stab wound. Clothing had been torn to shreds and one shoe was missing. Her underclothing had been torn off and officers said she had been criminally attacked.

A slip of paper, found near the body, bearing the name of a negro, led to his immediate arrest.

Award Contract For 13 Planes

Washington, May 21 (AP)—The war department announced today the award of a contract to the Bell Aircraft Co. of Buffalo, New York, for \$2,168,265 for the purchase of 13 of the new Bell pusher type fighting planes.

The contract for purchase of a quantity of these fighting planes, known in the army air corps as the "Alracuda," followed nearly a year of exhaustive tests of the new plane which is of radically new design.

In the new plane the propellers are located behind the wings, instead of in front as customary.

It is powered by two motors and the war department has canceled its top speed but it is believed to be well over 300 miles per hour. The department said it is "believed to be sufficient to overhaul any bomber now in production of building" anywhere in the world.

The new plane is armed with six guns, two of which are aircraft cannon. These are larger guns than are carried on any other airplane.

Daring Raid Near Shanghai

Shanghai, May 21 (AP)—Heavy artillery fire broke out northwest of Shanghai today and it was reported that guerrillas had made a daring raid almost to the city boundaries.

Firing became general in the Tsang and Nansiang suburbs, and continued for an hour.

The apparent guerrilla raid to the doors of Japan's stronghold here coincided with a series of Chinese air raids, retaliating for the fall of Su-chow.

Chinese planes bombed a Japanese army airport at Fengpu, on the Hankow-Tientsin railroad south of Su-chow, and bombed and machine gunned a strong Japanese force east of Langfang, on the east-west Lung-hai railroad.

Foreign military authorities reported that the Chinese last night raided the Woocong fort area at the mouth of the Yangtze river northeast of Shanghai. However, Japanese denied the raid and the foreign military men said that it was possible, though not probable, that the airplanes sighted were Japanese ones on maneuvers.

Chinese authorities said that their planes which dropped handbills over Japan yesterday, on the first raid in history against the Japanese group of islands, dropped a total of 1,100,000 leaflets.

School Girl Found Slain, Ravished

San Antonio, Tex., May 21 (AP)—Twelve year old Hope Eliondo, school girl, was found slain and ravished near her home at Laverania, 25 miles southeast of here today, and officers guarded a young negro from a crowd that quickly gathered around the county jail.

Oscar Tewes, Laverania farmer and member of an all night searching party that had been hunting the child since she failed to appear at school, stumbled across the body in high weeds.

Her back bore a stab wound. Clothing had been torn to shreds and one shoe was missing. Her underclothing had been torn off and officers said she had been criminally attacked.

A slip of paper, found near the body, bearing the name of a negro, led to his immediate arrest.
