BIB 'N' TUCKER

By Roby Laughlin
HOW many of you women pay a great deal of attention to the selection of your shoes and handbags? And do you always consider the two together when you buy? If you don't, you certainly should. . . . From observation, it's evident that most of you buy a bag because you happen to like its particular color or shape or because it seems to go well with your favorite dress. . . . Very few of you set out on a shopping spree to find a "shoe and bag toswome" to complement your costume. . . . When you're choosing this Fall's wardrobe why not do away with that "doesn't matter" attitude and just take a look around at all the chic footwear with handbags to match that will add interest to your new clothes. . . . If your bag and shoes lack chic, your whole outfit suffers and there's no amount of finery—not even the most eye-catching gown this side of Paris—that will give you a well turned-out appearance. . . . Take it from us, this season's shoe styles are a sensation and there aren't adjectives enough to express our enthusiasm. . . . The biggest news seems to center around the shoes with the heavier soles, ranging from a quarter to a half an inch in thickness, and the heels, which come in innumerable shapes. . . . It's very smart to have your shoes one color and the soles another shade. (concluded on page 8, column 5)
