Sundown Stories

By Mary Graham Benson

Silver Paper
Christopher Columbus Crow and Willy Nilly decided they would ask the man for any scraps of silver paper or foil that he might have.

"That is all he wants," said Willy Nilly. "He'd like that for his nest and to take out when the sun shines, and see how brightly it gleams. You've done so much for us, and we must be on our way."

The Puddle Muddlers all came running to Willy Nilly. They were ready to go. They began to pile into the trailer, into the automobile Two-Ways, and were off, shouting goodbyes to the mother and

father, the children and the neighbors when suddenly an old car in which were a tired, sad looking couple, stopped and the man driving the car said:

"I must speak to you. I must, I must, I must."

"Yes, he must speak to you," the woman said. "Don't go now. Wait until you hear what we have to say."

"Do you mean you want to speak to me?" asked Willy Nilly. They had looked directly at him and yet he had never seen this couple before. What could they want? Why did they want to speak to him?

Willy Nilly was far enough away from the people with whom he had been stopping to know that the couple did not wish to speak to them. The automobile Two-Ways had not got out of waving distance—but it was on its way. He parked by the side of the road.

"But you don't know me," he said. "You must have made a mistake." And now he was wishing he had not stopped. Did these people mean trouble for them?

Tomorrow: "Willy Nilly's Fear."

N. Y. Tests Prove Women Can Lose FAT

Ask Your Doctor If It Isn't Good Way. Read Every Word

NEW YORK, N. Y. A test conducted by a prominent N. Y. physician and a nationally known newspaper woman proved there is a harmless, effective way to lose fat. If you'll only TRY TO IT and give it a fair trial.

In 45 days, 25 women lost a total of 280 lbs. EVERY woman lost fat—the average loss per woman being 11 1/2 lbs. The women first of all ate sensibly. And for proper functioning they took a little daily dose of Kruschen Salts. If you have the slightest doubt about this Plan just ask your own doctor about its safety and merit.

And this is important to know! Kruschen is not just one salt as some people have ignorantly believed. Rather, it's a blend of 6 active mineral salts (see on box) which, when dissolved in water, make a beautiful mineral drink similar to the waters of famous European spas where wealthy fat women have gone for years.

Here's the Kruschen Plan: Just take a half teaspoonful of Kruschen in hot water every morning for better functioning. Go light on fatty food and sweeten-sal plentifully of lean meats, fresh fruits and green vegetables. Plan to do this faithfully for 30 days and see if you don't lose fat and feel healthier and younger. A jar costs but a few cents and makes 5 gallons of most healthful efficient mineral health water. At Perry's Drug Store and druggists everywhere.
