

Strong Tone Develops in Stock Market

New York, Nov. 21 (AP)—A strong tone developed on the stock market today in the last few minutes of trading. Prices jumped from the early lows and turned the list irregularly higher from an irregularly lower tendency prevailing earlier in the last hour.

Douglas Aircraft hit 70 and closed at 69 1/2 up 3/4 points from the previous close and up 2 1/2 points from the low made earlier in the last hour. Consolidated Aircraft, United Aircraft and Boeing rose more than a point each. Wright closed 2 points higher.

Bethlehem Steel ran up 2 1/2 points from its low to close at 73 1/2 up 1 1/2 points net, and U. S. Steel closed at 87 up 1 1/2 points from the low and up 3/4 points net.

Chrysler wiped out a 1 1/2 point gain and closed unchanged at 81 1/2.

Other sections of the lost were lifted though less spectacularly. Anaconda led the coppers higher and closed with a gain of more than a point.

Aiding the late rise was a statement by Senator Edward R. Burke that revision of the Wagner labor relations act would be number one problem for congress. Other favorable items included a better technical position for the market, some hearings on profit-sharing systems in return for tax concessions, and a big steel order for Bethlehem.

The industrial and rail averages were down slightly on the day while the utility average made a slight gain.

Dow Jones closing stock averages: Industrial 150.26, off 0.12; rail 30.77, off 0.17; utility 23.13, off 0.19; and 85 stocks 49.71, off 0.94. Stock sales approximated 940,000 shares against 1,420,000 Friday. Curb stock sales were 226,000 shares against 300,000 Friday.

Chicago Stock Yards Tied Up By CIO Strike

Chicago, Nov. 21 (AP)—Livestock trading at the stockyards was halted today by a strike called by the CIO packing house workers union against the Union Stock Yards and Transit company.

Police Capt. John Prendergast, who assigned 100 policemen to special duty at the yards, reported about 175 stock handlers had refused to go to work.

He said the strike was for higher wages and vacations. A spokesman for the company said no grievances had been submitted by the workmen. The livestock handlers union, an AFL affiliate, was not participating.

In previous years there have been similar strikes called shortly before the International Livestock Exposition, which opens at the yards Saturday.

Commission house employees penned livestock and major packers operated hog and sheep slaughtering departments on direct shipments only. Cattle killing virtually was at a standstill and no quotations were available.

A statement issued by the packing workers' organization committee over the signatures of Hank Johnson, assistant national director, and Herb March, organizer, charged the Stock Yards and Transit company with "an increasingly vicious campaign of terror."

"The present tie-up is the outgrowth of the company's refusal to bargain in good faith," the statement said in part. "The direct provocation leading to the stoppage was: 'First, the slugging of Ben Brown, the local's president, on company property when he was going about his duties as feedman.'"

The statement charged the local's office was riddled with bullets and bombed since bargaining negotiations were begun with the company.

O. T. Henke, vice-president and general manager of the Union Stock Yards and Transit company, said the union statement about a "campaign of terror" was "outrageous" and "not true."

Henke also denied the company had refused to bargain, asserting negotiations had been in progress until yesterday.

New Trade Treaty Links The Powers—Here are the principal figures in the signing of a reciprocal trade treaty for the United States, Great Britain, and Canada, which brought far-reaching tariff reductions on many articles and bound most of the English-speaking world in renewed ties of friendship and commerce. Greeley Says Lumber Industry Loses by Pact

Seattle, Nov. 21 (AP)—The west coast lumber industry was a loser in the new British and Canadian trade agreements, Col. W. B. Greeley, secretary-manager of the West Coast Lumbermen's association, said today.

He asserted the only conclusion that can be reached from study of the pacts was that lumbering had suffered a definite loss.

The agreement did not open the door of the British market "by even a crack" for the great bulk of lumber used in housing and every-day construction which is less than 11 inches wide, he said.

"The 'lumber concession' by the United Kingdom is 90 per cent a paper concession only," Greeley continued. "It may enable American exporters to sell a little more freely in England the high grade clear and industrial items which are of short supply in British Columbia; and they may get a little higher price for what they sell. That is all."

"The agreement does not make the American west coast sawmill competitive with the British Columbia sawmill in the English market. It cannot restore any worthwhile volume of trade. It does break down the barrier of preferential tariffs."

He said Canada, in practical terms, "stands to gain more real trade in the United States than the west coast will gain in England."

Turkey Carload Shipped East

Lebanon—A third carload of turkeys grown in eastern Linn county was shipped from Lebanon Thursday, this making more than three carloads in all prepared at the Scroggin plant. The Thursday shipment was destined for California. Operations at the plant will now be suspended until around the first of December, when killing and picking will be resumed for approximately three more carloads to be sent to the east.

Field Meeting on Berry Crinkle

A field meeting on strawberry crinkle disease has been arranged by Assistant County Agent Robert Rieder for Wednesday, November 23, at 2:30 p. m., at the James Underwood farm in the Silverton Hills. The Underwood farm is located about 5 1/2 miles south of the Silverton Hills Grange hall.

O. T. McWhorter, extension horticulturist at Oregon State college, will be at this meeting to discuss the crinkle disease as well as other strawberry problems. Everyone interested in strawberries is urged to attend this meeting.

Taber Likens Hitler to Nero

Portland, Ore., Nov. 21 (AP)—Adolf Hitler was likened to the "Nero of Rome" by Louis J. Taber, master of the National Grange, in a memorial service speech last night before several hundred delegates to the 72nd annual convention.

Taber said Hitler was "placing himself and his philosophy without the pale of civilization... not since the Nerovs of Rome has the world witnessed such pagan disregard for the spiritual ideals of Christianity."

The Grange, he continued, was "proud... that 70 years ago our order forever banned communists from membership" and continued "just as the Grange had the courage to ban communists... may we today have the courage to dedicate our lives not only against communism but against nazism and fascism that are threats to freedom and liberty."

He called upon the million Grangers to lead a new "crusade to make democracy function and to erect barriers against the triple evils of communism, fascism and nazism."

The delegates, back in Portland from week-end excursions, prepared for busy days this week. The conclude ends Thursday night.

Action on resolutions was scheduled for the early part of the week and the election of an executive committee was held today. The term of Fred J. Preston, Inter-laken, N. Y., expired. All other officers held their posts two years and this is the 47th year.

Turkey Market Continues Active

Portland, Nov. 21 (AP)—Although there was virtually no price changes, the turkey market continued active today, both in buying and selling.

Toms ranged around 20c per pound and hens from 22 to 23c. In some instances the market was unable to obtain full requirements in hens.

Sales to retailers were 24 and 25c for hens and 22 and 23c for toms.

Berkowitz Asks Prayers for Jews

Portland, Nov. 21 (AP)—Rabbi Henry J. Berkowitz of Temple Beth Israel Sunday told 2,000 Portland Jews, united in a community service to pray for persecuted members of their race in Germany, that "this is the darkest hour in Jewish history."

He declared the current pogrom was the worst of all Jewish persecutions because of the tremendous number involved, because the victims are cultured and proud people and have no "ghetto" folk, because they have no sanctuary nor refuge, and because the persecutions represented a "ghastly reversion to barbarism in this so-called enlightened age."

Illinois Selected For Grange Meeting

Portland, Nov. 21 (AP)—The national grange selected Illinois today for its 1938 meeting place and announced a committee would determine the city several months in advance of the convocation.

As fixed by the constitution, the meeting will open November 15. Texts and New York delegates bid for the 1940 convention and California, Washington and Maine asked "consideration within the next few years."

Fred J. Preston, Inter-laken, N. Y., was re-elected to the executive committee. It was the only election scheduled at this year's session.

Fluorine Residue On Apples Raised

Washington, Nov. 21 (AP)—The agriculture department disclosed today Secretary Wallace had signed an order increasing the fluorine residue permitted on apples in interstate commerce from .01 to .02 grain per pound of fruit.

The tolerance was liberalized on the basis of a report by a special committee of scientists. Wallace named to study the effect of fluorine spray residue on fruits.

The department recently liberalized the tolerance for lead residue, raising it from .018 grain a pound of fruit to .025 grain. This change was based on a special report by the public health service such an increase would not be dangerous.

McNary Sees Drift Toward Free Trade

San Francisco, Nov. 21 (AP)—The new U. S. trade treaty with Great Britain and Canada was described Saturday by Senator Charles McNary (R., Ore.), as evidence of Secretary of State Hull's "drift toward free trade."

McNary told interviewers "it is interesting to note that as Secretary of Agriculture Wallace restricts farm products at home, Secretary Hull lets more and more foreign farm products come into America."

Bridges Speaks Up—Harry Bridges (above), head of the Longshoremen's union, and West Coast CIO director, along with others drew a sharp rebuke from John L. Prune Growers Look Closely At Marketing

Carlton, Ore., Nov. 21—The prune growers of Oregon are facing a condition as to their product which is forcing stern and sincere attention as to the marketing end. Louis Hurner of Carlton, as chairman of the prune growers' stabilization committee of Oregon, sees the danger ahead in the large surplus of prunes that are piling up in the state. He has therefore formed a stabilization committee which he appealed to the National Association of Food Chains and other sources of distribution, to make an extra effort to move the surplus of Oregon prunes. November 19 to 26, inclusive, is designated as "Prune Week" in Oregon.

The Portland Chamber of Commerce, upon request of Mr. Hurner, has fallen in line with the campaign to increase the sales of prunes throughout the state, not only in that week, but weeks that will follow. E. S. Strother of Dundee is secretary of the stabilization committee, and the officials, together with their members including Oscar Haynes of Yamhill, C. Roy Fryer of Yamhill, H. L. Pratt of McMinnville, Oliver H. Schrepel of Gaston, W. M. Elliott of Dallas, Eugene McDonald of Dallas, George R. Minty of Rickreall, T. F. Manckets of Salem, A. W. Chapman of Salem, R. L. Chapman of Dallas, E. J. Bruner of Eugene, R. R. Clark of Oakland, Dave Busenbarg of Roseburg, and Carlisle Scarbo of Corvallis, are putting forth every effort to bring to the consuming public's attention first, the merit of the Oregon prune as a food product, and secondly the need of moving the Oregon crop in order to prevent financial disaster to crops.
