

# Grand Opera In Portland February

Portland, Ore.—From a music-loving youngster on the streets of Torre Maggiore, Italy, to the proud position of leader of a band in the far-off St. Louis, U. S. A., then by successive steps to the ownership of a gilded temple of music on New York's Broadway and in international reputation as an impresario of grand opera, are milestones in the kaleidoscopic career of Fortunio Gallo, the undaunted messiah of music for the masses, who will bring his famous San Carlo Opera company to Portland for a limited engagement of grand opera at the Paramount Theatre, commencing Friday, February 3rd, and closing Monday, February 6th.

Gallo has built his San Carlo Opera company into an international institution. It had its inception in 1909 and this year the company is arranging its 29th anniversary. Not for him are huge subsidies by leaders of society and tycoons who endow opera houses in Metropolitan centers as visible expressions of their interest in music and art. The high C's of San Carlo sprang are directed, not at the plumed dowagers in the golden horseshoe but to the music-loving Mr. and Mrs. John Public, who revel in the Gallo expositions of music drama without the social frills and their attendant high cost of opera going.

The Portland repertoire includes, Friday, "Carmen" with Coe Glade, Saturday matinee "Martha" in English followed by ballet diversions, Saturday evening "Il Trovatore," Sunday matinee, "Madame Butterfly" with Hui Koyke, Sunday evening, "Faust," and closes Monday with "Tannhauser" in German. Mail orders are now being received at the Paramount Theatre and already hundreds have sent in their orders.

Amazing Results Reported In Medically-Supervised Clinical Tests—Sickness from Colds Actually Cut More Than Half!

**A SIMPLE GUIDE ANY MOTHER CAN EASILY FOLLOW**

Wouldn't it be wonderful to know about a way that helped thousands of people to escape many colds with all their discomforts and dangers? A way that sharply reduced the number and length of colds, that cut sickness from colds 50.88%, that reduced children's school absences due to colds even more—57.86%!

These are actual figures—not taken from just a few experiences—but from a great series of clinical tests in which more than 17,000 men, women and children took part. 37 doctors were on the supervisory staff. More than 500 supervisors and nurses assisted them. This great clinic, by sharply reducing the number and length of colds and the

distress that comes with them, proved the worth of Vicks Plan.

Vicks Plan is a simple guide which emphasizes the importance of proper personal care and the use of two specialized medications for relief of symptoms in different types and stages of colds—Vicks Va-tro-nol and Vicks VapoRub. When colds threatened—at the first sniffle or sneeze—Va-tro-nol was used to help prevent many a cold from developing. When a cold got by all precautions, VapoRub was used to relieve its discomforts.

The results speak for themselves. Vicks Plan may do less for you—or it may do even more. But with such a record it certainly is worth a trial. It is easy to follow in your own home. You get full directions in every package of Va-tro-nol or VapoRub.

**To Help PREVENT Many Colds**

Va-tro-nol is specialized medication—expressly designed for use in the nose and upper throat, where 3 out of 4 colds start. You can feel its tingling, stimulating medication go right to work to aid nature's own defenses against colds. Used at the very first warning nasal irritation, snifle, or sneeze—a few drops up each nostril—Va-tro-nol helps to prevent many colds from developing.

**To EASE Discomfort of Colds**

VapoRub is the standby of most mothers the country over for relieving misery of colds. Massaged on throat, chest, and back, VapoRub works two ways at once: (1) Direct through the skin like a poultice; (2) Its medicated vapors are inhaled direct to phlegm—clears air-passages—checks tendency to cough—relieves local congestion—and you soon feel comfortable again.

**BEAGLE HOUND**

English fox-hound in miniature. Solid and big for his inches, true beagle has the long-wearing look of the hound that can last in the chase. One of the oldest breeds in history—close to the original breed of hounds, U. S. standards specify 15 inches maximum height—any true hound color acceptable.

**HE'S GIVING HIS NERVES A REST.... AND SO IS HE**

THE frazzling pace of these fast-moving times doesn't mean a thing in the life of the dog. Although his complex, high-keyed nervous system closely resembles our own, when the dog feels his nerves tire he settles down—relaxes—as the beagle hound above is doing. That is instinctive with the dog. We are not so likely to break nerve tension before it gets our nerves upset. Ambition and determination push us on and on...past the warning stage of nerve strain. Will-power silences the instinct to pause and rest.

And yet jittery, ragged nerves are a distinct handicap. Don't let your nerves get that way. Learn to ease the strain occasionally. Let up—light up a Camel! It's such a pleasant way to rest your nerves—a brief recess, mellow with the pleasure of Camel's mildness and ripe, rich taste. Yes, no wonder smokers say Camel's costlier tobaccos are so soothing to the nerves.
