THE ARMY POST MURDERS

By Virginia Hanson

The Characters: Katherine Cornish, herself, visiting Elizabeth on a mid-week Army post. Elizabeth, Colonel Wright's daughter. Adam Drew, acting commanding officer.

Chapter 24 Not To Be Shaken

"That is no concern of Mrs. Wheeler's," she said in a queer, strangled voice. "Nor of you or anyone else."

Wild horses could not have dragged more out of her, and Adam was too intelligent to try.

"Your guess is as good as mine," I told him with something like dismay. Surely, surely Elizabeth was not mixed up in this.

"And what do you know about that?" he murmured aside to me. He was nervous, alert, quivering with eagerness like a bird dog at point.

"It was in the freezer - in the ice cream," Lou was explaining in a high-pitched, hysterical voice. "I was going to taste it - I almost did - then I felt something with the ladle and fished it out."

"Did you have your hands on it?" he asked. "I - why yes, on the handle."

"Better," he told me after he took a bit of wheedling to get her to unfold those lips, and even when she did it was my impression that she had come prepared to say just so much and no more.

"But Elizabeth did not mention you," Adam protested good-humoredly. "In fact she definitely stated that she saw no one while she was at home."

"She wouldn't be thinkin' of me. The poor dear thought you meant folks-company."

"And she didn't go back to tell you about Anne. How do you account for that?"

"How did you find out about it, by the way?"

"Annie blinched. 'It was that Mr. Nelson—the big fellow. He drove up and came in hollering for Elizabeth, so I come down to see what he wanted. He told me about—her.'"

"Where else? At that hour?"

"She sniffed loudly, as if to remind him that she had her work to do and couldn't go sky-hooping around at all hours of the night—and now look at her!"

I could almost hear the words chasing themselves around in her mind, but she was silent, in deference either to Adam's rank or to the gravity of the situation.

had hung up. "Still hopeful. I feel like a heel not to tell some of these people. But how can you know you're talking to 'em?"

"And now for Charlie."

There was a rather determined grin on his face, like a comedian with the toothache.

Adam was suddenly gone, bounding away miles ahead of me. I ran, calling shamelessly after him to wait, but of course he didn't hear me.

"She couldn't be badly hurt. I decided dispassionately, for only a well woman could go on screaming like that."

"They were in the kitchen - Lou, Barney, the Shaws, Mrs. Flower. The room seemed to be full of them. I dashed in pell mell, aware that Annie and Elizabeth were coming behind me."

"It was in the freezer - in the ice cream," Lou was explaining in a high-pitched, hysterical voice.
