## Want Alcatraz Abandoned

San Francisco, Jan. 21 (AP)—District Attorney Matthew Brady today urged abandonment of Alcatraz as a federal prison.

Aroused by last week's attempted break from "the rock," Brady recommended that the San Francisco Chamber of Commerce start a drive to have the federal government transfer its "devil's island" elsewhere.

The recommendation was in a letter congratulating Marshall Dill on taking over the chamber's presidency. The letter said in part:

"Today San Francisco, whose glorious traditions have long numbered her among the most romantic and fascinating cities of the world, is fast becoming known as the city on whose bay is located Alcatraz, the infamous new 'devil's island,' the toughest 'big house' in the world, where the nation's incorrigibles are located and frequently go mad and kill, rather than endure the discipline and hopelessness of the place. "Why should San Francisco play host to the nation's incorrigibles and its fair name and beautiful harbor be marred by such a place?"

He was the first witness called by the government in its attempt to prove that Murray (the Camel) Humphreys, former public enemy, neglected to include the ransom as part of his 1931 income.

The kidnaping of Fitchie, who has been president of the union for 32 years, had never before been officially reported.

## Martin Seizes Control of UAW Quarters

Detroit, Jan. 21 (AP)—Homer Martin led his loyalist faction of the United Automobile workers back into the union's headquarters today despite his "impeachment" by a group of 17 executive board members whom he previously had suspended.

Surrounded by police and a strong bodyguard, the UAW president returned to the union offices and summoned into session the four executive board members remaining loyal to him. His opponents had controlled the offices for two weeks, but in a swift movement yesterday Martin suspended 15 board members and seized control of the office.

The oppositionist group, which last night "impeached" Martin and ordered him to stand trial, was not in session today. Although only 15 originally were suspended by Martin, two other board members joined the oppositionist faction and automatically placed themselves on the suspension list.

With the two rival factions fighting desperately for support in the rank and file and for control of local unions, reports were developing that the Congress of Industrial Organizations may hold much of the balance of power. Heretofore the CIO has insistently demanded harmony in the UAW, its third largest member. Martin, however, has repeatedly demanded restoration of UAW autonomy.

The impeachment was based on Martin's action of suspending the board members. They claimed they were acting in accordance with the union's constitution. They ignored Martin's suspension order.

## Sprague Talks To Publishers

Eugene, Ore., Jan. 21 (AP)—Oregon editors should devote greater study to local issues, and not seek escape in attacks on universally unpopular figures, Gov. Charles A. Sprague told members of the Oregon Press conference at its annual banquet last night.

Sprague, himself a publisher, spoke on the topic "The Press and Politics." He said the Oregon press was conceived and born in political rivalries, but had outgrown them long ago and now could claim to great objectivity in news handling. He urged editors to maintain the present standards.

Final events of the conference scheduled for today include a luncheon discussion of the relation of the press to come, led by N. J. L. Pieper, head of the San Francisco office of the federal bureau of investigation.

## Prisoner Given Look at Penitentiary

Roseburg, Ore., Jan. 21 (AP)—Delbert Leatherwood, 21, of Umpqua, who pleaded guilty in circuit court earlier this week to theft of turkeys, yesterday made an inspection of the Oregon state penitentiary upon orders from Judge Carl E. Wimberly. A policy of giving first offenders an object lesson by putting them through an inspection of the penitentiary was introduced by Judge Wimberly in circuit court several months ago. In such cases the offender customarily is granted a parole when he appears for sentence.

Leatherwood, who, according to Sheriff Perry Webb admitted theft of turkeys from a farm belonging to his aunt, was taken to Salem by Deputy Sheriff Clifford Thornton.

## Invention May Save His Tires

Rochester, N. Y., Jan. 21 (AP)—Watchmaker William J. Parkinson grew weary of wearing out tires against curbs and wheels parking his car.

This week he received a patent on a parking "pathfinder" for cars which he claims will reduce tire and fender repair bills.

The "pathfinder" will light a tiny red light on the dash as soon as his car approaches within three or four inches of another car, a curb, or obstruction of any kind. A curved rod fastened to the bumper has a coil spring nearly as sensitive as an insect's antennae. When it touches any object it causes an electrical contact and lights the red dashboard lamp.

and went back to work in a stump patch. While he was away one of his daughters and a neighbor returned to the house, and the daughter later quoted her injured mother as having said: "He done it. Papa done it. Don't tell." They told no one until the following day when Mrs. Rose died at the Woodburn hospital.

The authorities believe the motive of the crime was to collect on a \$4,000 insurance policy that he had taken out for his wife a few months ago.

The razor blade with which Rose ended his life was given him yesterday, with instructions to leave it in the wash room adjoining the jail corridor. Instead he apparently kept it about his person.

Rose's body was taken to Woodburn today by the Beecher & O'Hair mortuary, and it was said a double burial probably would be given in Belle Passet cemetery. Mrs. Rose's funeral was held Tuesday, but burial was held up pending the investigation.

## Obscene Cards Lampon FDR

Boston, Jan. 21 (AP)—Municipal court warrants were sought today following the seizure of 300 cartoons obscenely lamponing President Roosevelt.

Lucky were those responsible, said Police Commissioner Joseph P. Timilty, that they were in America. "If it had happened in any totalitarian country," he said, "the perpetrators unquestionably would face a firing squad."

The commissioner said a warrant would be sought for the arrest of the foreman of a respected old-established printing firm where the postcard size cartoons were seized in a raid shortly before they were to have been distributed at a banquet last night. He said warrants also might be asked for three officials of the firm.

Timilty believed the Boston police "have intercepted what I believe to be one of the most vicious and obscene attacks ever made on a president of the United States. In my opinion, no matter who is the incumbent of that high office, he is entitled to respectful and honorable treatment."

## German Spies Get Two Years in Jail

Cristobal, C. Z., Jan. 21 (AP)—Two young Germans, convicted in the Canal Zone's first espionage trials of unlawfully obtaining information on the defenses of the United States, were sentenced Friday to two years at hard labor.

## RADIO Day by Day

Time is Eastern Standard  
New York, Jan. 21 (AP)—The country's microphone entertainers, now taking a strike vote because of failure of wage negotiations, are concentrating themselves entirely with sponsored programs.

The differences involving their organization, the American Federation of Radio Artists, and the American Association of Advertising Agencies, have come about because sponsors, advertisers and actors think more money should be paid the lesser lights in programs produced by advertisers. There also is the question of pay for rebroadcasts.

One factor in the situation, the artists say, is what they consider lack of understanding of the scale for script rates, of which there are 60 or more a week in the chains. These programs go few if any feature stars.

Meanwhile the networks, considering the question lies solely between advertisers and artists, are watching developments. The chains stand up some time ago for their sustaining of network produced programs.

Just what would be done about fill-ins during a strike materials, hasn't been indicated.
