## Townsend Clubs

B. I. Plummer will give a poetic description of the last Townsend National convention for club No. 2 this evening at 8 o'clock at the Les-Lie Methodist church on South Commercial street. Mrs. Florence Shipp is secretary of this club and invites the public to attend this meeting.

West Salem — The West Salem Townsend club will meet at the city auditorium Tuesday, May 14, at 8 o'clock. A feature of the evening program will be a showing of pictures in movie reel by Dr. David B. Hill of Salem. All children are especially invited and women members will bring cakes for refreshments.

## RADIO Day by Day

Time is Pacific Standard New York, May 13 (AP)—With Europe in the throes of its earnest indications are that of trans-Atlantic stannals will be at a fairly satisfactory stage most of the week. The forecast as supplied by W. A. R. Brown, NBC engineer, reads: "Good reception conditions expected to prevail through Friday, with somewhat disturbed stannals to be noted by Saturday."

H. D. Bradley, 546 Patterson, West Salem, reported to the police that his cruiser type boat, about 15 feet long, was stolen from the foot of Wood street.

W. A. Heater for county judge. Vote 62X. Pd. Adv. 118

Geneva McCleery of the Bright Spot reported to the police that her purse was stolen from that place Saturday night by someone entering from the rear. It contained about \$4.50 in money.

John Steelhammer for representative.—pd. adv. 118

Organization of a concentrated campaign to raise funds for the American Red Cross will be held at the Golden Pheasant Tuesday noon with Milton L. Meyers presiding. Four thousand dollars has been set as Marion county's quota toward assisting the Red Cross with war relief funds. Representatives from service clubs and other organizations and county board members have been invited.

## Powell Pleads Guilty To Drunken Driving

Ira Powell, prominent Monmouth man, was sentenced by Police Judge A. Warren Jones this afternoon on a charge of driving a motor vehicle while under the influence of intoxicating liquor. He entered a plea of guilty this morning, following his arrest Saturday night. He was sentenced to pay a fine of \$100 and serve 90 days in jail, which was suspended when he paid the fine. According to the police report in the case, five shots into the ground from an officer's gun were necessary to make Powell stop while being chased by two policemen. A report made by Officer Kest-

## Newport Raps Raver Activity

Newport, Ore., May 13 (AP)—Three Newport councilmen asked the Bonneville administration yesterday to keep its employees away from here until after a public utility district election next Friday.

In a letter to Administrator Paul J. Raver, Councilmen Will L. Grigsby, Paul Hudson and Edward J. Eliason said:

"We respectfully request that all Bonneville employees be kept away from the city and contiguous territory until after the election May 17 next.

"We object to paid public servants being used to exert undue influence in any controversy that must be decided by a fair vote of the people.

"You are cited to the Hatch act. Disregard of this request may be followed by a request for an investigation by the FBI (federal bureau of investigation)."

The councilmen declared the campaign had been handled in "an unfair and highly injudicious manner," and that "extremely questionable practices have been indulged in that tend to disrupt the orderly life of the city."

Three other councilmen did not sign the letter and another was absent from the city.

## Plan Service to South America

Portland, May 13 (AP)—Officials of the Moore McCormack lines of New York are expected to arrive in Portland Wednesday to complete arrangements to inaugurate west coast service to South America.

The company recently was low bidded to provide service from Vancouver, B. C., and other west coast ports to Buenos Aires, via the Panama canal.

President of the company, Albert V. Moore, and Captain Kirkwood H. Donavin, former operating manager in San Francisco for the Panama Pacific line, said service will begin about June 15.

Ports of call include Seattle, Portland, San Francisco, Los Angeles, Barbadoes, Rio de Janeiro, Santos, Montevideo and Trinidad.

The service will include five vessels, two of which will be new C-2 type cargo liners. Other ships, which were chartered from the U. S. maritime commission, are the City of Flint, Colamer and Independence Hall.

Growers of early varieties of fruit, particularly Marshall strawberries, are having trouble finding pickers with the first of the crop scheduled for the last of this week or the first of the next, according to A. B. Welser, of the Central Howell district. Schools, which usually provide a large share of the pickers, will not be out for at least two weeks in general but the fruit is not waiting, he states. The ideal way at present is for several women or families to go together and split transportation costs. Welser says he has other fruits following strawberries and that pickers at his place are assured of almost steady employment. Picking prices were not given.

## Peeler Log Ban Held Up

Washington, May 13 (AP)—Rep. Wallgren (D-Wash.) said today he feared state department opposition makes doubtful enactment at this session of a measure to forbid exportation of peeler logs larger than 28 inch diameter.

But, he added, the educational program of the Pacific northwest congressional delegations in behalf of the bill materially will assist passage at a future date. "We can convince the state department that the legislation will not injure any other country nor interfere with the trade agreement program."

Wallgren added it had been found necessary to amend his bill authorizing the president to limit the duty on red cedar shingles. He said that measure had a fair chance for passage at this session.

As drafted, the bill would have authorized the president to fix a duty of 25 cents per square on the shingles in excess of 30 per cent of the total American consumption.

Because Congress, not the president, was authorized by law to fix duties, Wallgren amended the measure fixing the duty at 25 cents whenever the Canadian importations exceeded the 30 per cent figure.

## State of Siege At Curacao

Willemstad, Curacao, Dutch West Indies, May 13 (AP)—state of siege was declared here and throughout all Dutch West Indian islands today following the arrival here of 500 allied troops.

The troops were brought here yesterday by the Canadian destroyer, Fraser, which reinforced the two British warships already in port. Authorities announced today that about 400 Germans have been interned in a concentration camp on the island of Bonaire but that no Germans had been killed.

Aruba, Dutch West Indies, May 13 (AP)—More French marines were in the harbor preparing to land today on this Dutch island, 700 miles from the Panama canal.

A black-out had been ordered and a state of siege was in force.

London, May 13 (AP)—Authoritative quarters said allied forces would be withdrawn from Curacao and Aruba as soon as their security was fully established or sufficient Dutch forces were available there. It was said also that Great Britain has no intention of interfering with the Dutch East Indies and that it had not been suggested that Britain do so.

## Cooperage Strike At Tacoma Settled

Tacoma, May 13 (AP)—The two-month old strike of 210 employees at the Northwestern Wooden Ware company plant here was settled today and all employees will return to work tomorrow morning, Joseph L. Diven, company manager, and Earl Hartley, business agent for the Lumber and Sawmill Workers' union (AFL), announced.

Hartley said the company met the strikers' demand for a 65 cent an hour minimum wage "all along the line." The new scale represents a 7 1/2 cent an hour increase. The plant employs many skilled men above the minimum pay classification.

Similar strikes at other cooperage plants owned by the Northwestern company at Seattle, Portland and Toledo, Ore., are still unsettled, Hartley said.

The term of Ernest Werner of Central Howell will expire this year as a member of the non high school district board and election of his successor will take place in the school districts which make up zone 4 at the time of the regular annual school election in June. It is not known whether he will be a candidate to succeed himself. An interesting situation also exists on the board as Roy Rice, whose term expires in 1941, and Eugene Finlay, whose term expires in 1942, are both candidates for elective offices. Finlay as representative in the legislature and Rice as county commissioner. Rice stated today if he was elected commissioner he would naturally retire as member of the non high school board and it is possible Finlay may do the same thing. Rice also is a member of the county fair board from which he will retire if elected as commissioner.

## Death of Irwin

Medford, May 13 (AP)—Lester W. Irwin, 28, whose body was recovered from Rogue river last Friday, met death in an accident and not by drowning, Dr. Joseph Beeman, state police crime laboratory head, said Saturday.

Dr. Irving Fox, pastor of the First Baptist church here, is being sent by his congregation to the annual convention of the Northern Baptist Toledo, Ore., are still unsettled, Hartley said.

A pre-convention conference will be held May 19 and 20. On the return trip, Dr. Fox will stop for a two-day Bible conference at Freeport, Ill., his former field of service, where he served for 12 years. He expects to be back in his pulpit June 2. The Northern Baptist convention constitutes a membership of more than ten million persons. There will be upwards of 5000 in attendance at the Atlantic City conference from many parts of the northern portion of the United States.

County Clerk Boyer advised today that voters in Salem No. 12 who have been accustomed to voting at the old city auto park will have a new polling place at the coming primary Friday in the basement of the Salem Deaconess hospital. A special entrance is available, it is stated, so as not to bother inmates at the hospital.

Dr. Walter F. Ricker, superintendent of public instruction for the state of California, has been selected to make the principal address during Willamette university's 88th commencement exercises, June 8.

As has been the custom for a number of years the exercises will be held in the Elsinore theatre at 4 o'clock the afternoon of June 8. The class this year will be the largest in the history of the Methodist institution. It will consist of 100 liberal arts seniors, 10 in law and four or six graduate students.

## First Line Defenses Forced In Belgium

By Richard D. McMillan  
With British Expeditionary Forces, in Belgium, May 13 (U.P.)—The sledge-hammer attack of the German army penetrated the first line of Belgian defenses today and paved the way for a major battle in which British mechanized forces rushed to the aid of the Belgians.

The Belgians fell back only after stubborn resistance in which they inflicted heavy casualties on the invading armies.

The second line of defense in Belgium is not as long as the original defense line and therefore the Belgian forces, supported by British and French, will be less scattered and more powerful.

(The Germans claimed capture of Liege and the penetration of the Albert canal, main Belgian defense line, at two points—Maastrecht and northwest of Hasselt).

The Germans have pushed ahead with armored divisions, attacking almost constantly.

The German forces, which were engaged with the French in the Ourthe river sector of South Belgium, have used excellent mechanized units in forcing the Belgian and Dutch first line defenses.

It was stated that the German troops that broke through the Albert canal at Maastrecht spread out in mushroom fashion to threaten the flanks of the Belgian main line. The Belgian troops were forced to fall back.

Parachute troops were used by the Germans in these operations and in operations further in the interior but allied sources said that practically all of them had been rounded up before they did much damage.

British troops moving towards the action passed Belgian wounded on their way to the rear. Refugees streaming past the advancing troops said the fighting was furious.

## Italy Reinforces French Frontier

Rome, May 13 (AP)—In the midst of a rising anti-allyed campaign, Italy busily reinforced her Litorale line of fortified positions along the western Alpine frontier facing France today and, according to Italian sources, called out additional reservists to reinforce her army of 1,250,000 men.

There were two major expressions of anti-allyed sentiment, one a series of student demonstrations that brought out 500 soldiers and police to protect the British and French embassies, the other continued propaganda against British-French control over shipping in the Mediterranean.

Troops and police prevented the student demonstrations from reaching the two embassies. Students who had marched through the streets with an Italian flag dispersed after spectators said they had heard them shouting for war.

In addition, Catholic sources announced that English and Scottish seminaries for student priests were being closed and that the Belgian seminary had been closed.

No confirmation of the call for fresh reservists was available in authoritative quarters on the ground that it was military information. But one informed source said the Italian figure of 1,000,000 men published abroad probably was exaggerated.

## Ability Held Key to Success

Success is due to inherent ability. Inspired ambition and willingness to work rather than the "bugaboo" of experience, George P. Griffiths, of Portland, purchasing agent for the Preskott, told the Chamber of Commerce today noon.

Men are fired for lack of capacity rather than experience, the speaker said, pointing out it is more important to have the capacity to concentrate, think clearly and to follow through than to gain knowledge only through repetition.

Griffiths cited Andrew Carnegie and Cyrus K. Curtis as examples of outstanding successes, yet the first knew nothing about steel when he purchased interest in a foundry and the other nothing about the publishing business. In this state, he said, the voters selected a governor because of his business acumen and leadership rather than because of any experience in public service.

Otto H. Hunt, the first whelkino contest winner, was introduced as was Mayor W. A. Weddle of Stayton, a guest. Music was furnished by the Centennial Syncepators.

## Injury Caused Death of Irwin

Medford, May 13 (AP)—Lester W. Irwin, 28, whose body was recovered from Rogue river last Friday, met death in an accident and not by drowning, Dr. Joseph Beeman, state police crime laboratory head, said Saturday.

Dr. Irving Fox, pastor of the First Baptist church here, is being sent by his congregation to the annual convention of the Northern Baptist Toledo, Ore., are still unsettled, Hartley said.

A pre-convention conference will be held May 19 and 20. On the return trip, Dr. Fox will stop for a two-day Bible conference at Freeport, Ill., his former field of service, where he served for 12 years. He expects to be back in his pulpit June 2. The Northern Baptist convention constitutes a membership of more than ten million persons. ## 43 States Aid Protection Of Wild Life

Washington, May 13 (AP)—Helped by the federal government, 43 states have undertaken wildlife restoration projects costing \$2,775,628.

The interior department's biological survey bureau reported today that in the first 21 months of the federal aid program, a period ended March 31, approval was given 198 projects.

The federal government pays 75, the state 25 percent of the cost of the projects, for such programs as research into wildlife management problems, restoration of land or water areas to provide additional benefits for wildlife, and acquisition of lands for wildlife management and breeding areas.

There are 125 trained experts supervising the program, said the bureau, and the demand for competent persons to conduct the work is so much greater than the supply that 20 percent of the states sponsoring projects have sought the bureau's aid in finding qualified workers.

Among the projects reported were (amounts represent combined federal and state contributions): Oregon, \$56,041.97—three projects: suitable habitat and range, restoration of sage grouse habitat in southeastern Oregon and re-seeding of burned-over areas in Tillamook, Yamhill and Washington counties.

## Advise Britons To Leave Italy

Rome, May 13 (AP)—British consular authorities today received instructions to advise British travelers to leave the country because of a new wave of anti-British sentiment coincident with the mobilization of 2,000,000 troops in preparation for imminent developments likely to put Italy into the war on the side of Germany.

In addition, the British authorities were advised that British subjects resident in Italy should not be discouraged from leaving if their departure is convenient.

Week-end developments included confirmation by the ministry of war that an additional 1,000,000 soldiers had been called to the colors, an important military conference between Premier Benito Mussolini and his leading commanders, and intensification of the anti-British campaign in the newspapers. After the military conference it was announced that Mussolini had ordered immediate completion of Italian western fortifications on the French frontier.
