Problem Parents The Jittery Type

"Your voice is high and shrill, you snap at your darling."

So children get on your nerves? They always have. Before you were married you never could stand to visit where there were children. Children meant noise and disorder and sticky hands on your good clothes. Children meant confusion. Now that you have children of your own you've learned to

love them, of course, but to you they still mean—confusion. You seldom say, "they get on my nerves," but along toward the end of a day you notice that your voice is high and shrill, you are likely to drop things, you keep looking at the clock, counting the minutes until bedtime. Along toward the end of the day, you're likely to snap and snarl at your little darling—even while you hate yourself for your meanness.

Yes, you, the jittery type, are a problem parent, indeed. You know all the rules for model parenthood, but you are just too nervous to abide by them. Well, first remember you have plenty of company. There's scarcely a parent who isn't the jittery type, at least part of the time.

Next, attack your problem directly. Find out just what makes you nervous and remedy the cause if you can. If it's noise, buy rubber-soled shoes for the children, install sound-proof walls, put cotton-and-wax plugs in your ears. If you find you can be a model parent during the early part of the day, while your ill-temperament asserts itself only late in the afternoon, your solution is simple. You need—must have—relief before your nervous breaking point occurs each day. Don't you know of another parent in your neighborhood, who also is the jittery type? Strike a bargain with her. Tell her you'll take care of her children each morning, if she'll relieve you at the dangerous hour of 4 o'clock.

It won't take much to restore your nervous balance. Perhaps you'll stroll down the street and get a chocolate soda. Maybe you'll call on a childless friend! If somehow you manage to free yourself of your children for awhile each day, you'll come back to them a much sweeter, calmer, more lovable mother.
