The officer was in the act of turning in the street to follow, and as he did so he saw the tail light of Hannaman's car "loop the loop" to quote his report. Hannaman said the car skidded when it hit gravel.

Robinson Held For Manslaughter

(Continued from page 1)

Finally they left the trailer house, still arguing violently, and what followed was observed by several witnesses. Mrs. Phyllis Ramsden and Mrs. Maude Beckman, who live near the trailer house, told officers that when the two men left the trailer, Williams was seen apparently searching Robinson's pockets, accusing him of stealing a watch. Then they started scuffling and Williams is said to have struck Robinson over the head with a 12-gauge shotgun and attempted to choke him. Robinson's pummeled appearance indicated that he had been in a fight. He is held in the county jail.

Williams, witnesses said, returned to the trailer and Robinson got into his car and started to drive towards the highway when Williams again came out and jumped onto the running board of the car. Robinson for a moment lost control of the car and drove it into collision with a porch of the Robert Ramsden home, knocking it over.

The story, as told to the police, indicates that Robinson then turned the car towards Williams and ran over him, and drove over him after he had fallen. Then, the officers were told, he reversed the car and backed it over Williams' body. Robinson then drove away and was later arrested at Rickreall. Mrs. Ramsden and Mrs. Beckman telephoned the sheriff's office. Deputy L. L. Pittenger hastened to the scene after calling the first aid

car. Williams was taken by the first aid car to a hospital, where he died at 3:55 o'clock. The officers found a hat near the Williams trailer which was identified as Robinson's by initials, and his car license was checked at the state department. He was shortly afterwards arrested at Rickreall by State Police Officer C. E. Emahiser.

Another witness questioned was G. R. Mudd, who is said to have been with Williams during the day and the preceding night and to have been present during the dispute. Officers said Robinson claimed Williams shot at him twice as he was driving away, and that the shots broke the windshield and two windows of his car, but there was no evidence of shots being fired.

When officers asked Robinson if he had intentionally backed his car over Williams he is said to have replied, "I hope I backed over him." Wounds on Robinson's head were treated by a doctor before he was questioned at the courthouse by the district attorney and the police.

Williams' trailer is located on a 10-acre prairie tract that he owned. He quit the battery business in Salem in 1936 after having followed it here for 15 years. He is survived by a son, Joseph, Jr., who is in the navy, and by a brother, William, of Wenatchee. Palmer Williams, route 3, is a cousin.

Irish Mail Boat Bombed by Nazis

Dublin, Aug. 21 (AP)—German bombing planes, overshooting the west coast of Wales, carried the war into St. George's channel of the Irish sea, by bombing the Irish mail boat St. Patrick off the coast of County Wexford, Eire, for the second time in four days.

The boat, carrying passengers between Pabghaur, Wales, and Rosslare, Eire, avoided the shower of bombs by zig-zagging and dove off the three attacking planes with its two defense guns. The attack occurred yesterday. The three German planes were believed to be those which machine-gunned the 400-ton steamer Rose Marie off the south coast of Eire yesterday, wounding one member of the crew.

Pepper Hanged in Effigy by Women

Washington, Aug. 21 (U.P.)—While a stormy argument on conscription progressed in the senate chamber today, more than 100 women, representing the Congress of American Mothers, hanged an effigy of Sen. Claude Pepper (D-Fla.) on the capitol lawn in protest to conscription and what they called "other un-American activities."

Speakers from the delegation said they represented 10,000 members throughout the nation. Delegates from Indiana, Minnesota, Michigan, Illinois, California, Pennsylvania and Ohio engaged in the demonstration, which was interrupted by capitol police.

The delegation, which assembled across the street from the capitol, produced a dummy with a long rope attached. They dragged it to a maple tree and swung it over a lower branch.

The dummy, clad in overalls, bore a placard across the front marked: "Claude Benedict Arnold Pepper."
Soon after the dummy was placed on the limb, a capitol policeman arrived, produced a knife, and had a delegate—Mrs. W. H. Firlie of Pittsburgh, Pa.—cut it down.

The women, mostly beyond middle-age, heckled a man who said: "This surely is an un-American demonstration."
The man, who did not identify himself, walked hastily away when delegates gathered about him and shouted:

"Are you an American? Who are you? Go away!"

After the dummy was cut down the delegation marched around the capitol. Leaders dragged the dummy in front of them. Various women strode out of the line to stop the dummy. Hundreds of tourists watched.

The marchers sang "We'll hang Claude Pepper to a sour apple tree."

Bomb Explodes in Capital Mail

Washington, Aug. 21 (AP)—A bomb described by police as small and poorly constructed, exploded today in a U street branch post office, injuring two postal employees.
The bomb, in a mail bag being unloaded from a truck to a platform, was in a package addressed to a woman whose name authorities withheld.

Those injured were Harry B. Hess, 58, and Hyman Ritszenberg, 32, both of whom suffered shoulder and leg lacerations.
"I had my hand on the string of this sack when I heard a report," Ritszenberg said. "It sounded like two giant firecrackers going off at the same time."
"I looked down at my leg and it was bleeding and then I looked at my shoulder and there was blood on it."

Allotment Will Aid Navigation

Seattle, Aug. 21 (AP)—A \$151,800 allotment for aids to navigation on the Columbia and Snake rivers, including a 30-foot channel between Vancouver, Wash., and The Dalles, Ore., in connection with river navigation to Lewiston, Ida., was announced today by Capt. W. H. Munter, coast guard district commander.

He said engineering officers of the coast guards left Vancouver yesterday aboard the cutter Rhododendron to inspect the river to The Dalles. He said \$64,000 had been allotted for this project, plus \$25,000 for a maintenance base at Vancouver Barracks.

A \$25,000 allotment will be used to install aids between Cello Falls and the mouth of the Snake river.

FDR Ignores New Willkie Debate Offer

Hyde Park, N. Y., Aug. 21 (AP)—Ignoring Wendell L. Willkie's second challenge to President Roosevelt to debate political issues, the White House stood pat today on Mr. Roosevelt's assertion that conditions this year obviously made it impossible for him to campaign.

Thus, with one candidate avowedly bent on keeping out of the political arena and the other in stumping the country, one of the oddest campaigns in the history of American politics was taking shape. Willkie first challenged Mr. Roosevelt to meet him in debate in his speech in accepting the republican presidential nomination. The chief executive rejected the proposal at a press conference yesterday.

Things are in such shape this year, the president said, that it is obvious he cannot do any political campaigning. He referred to world conditions and American armament efforts.

The president has indicated that national defense problems would be his primary concern. They figured prominently in his press conference and, apparently, in a luncheon appointment yesterday with William C. Bullitt, United States ambassador to France, and Bernard Baruch, chairman of the war industries board during the World war.

Klamath Fires Under Control

Klamath Falls, Aug. 21 (AP)—Four large forest fires on the Klamath Indian reservation were again brought under control this morning after yesterday's high wind sent them surging over fire lines, leaping almost a mile in some cases.

The Swan lake fire swooped over 600 new acres late Tuesday and reinforcements were called from Crater lake national park and the Yakima reservation. The fire has been blocked 8600 acres since it started last week.

The 1000-acre Wilson Point fire broke out on the north end yesterday and set fire to a peat marsh. At about the same time the Black Hills blaze was blown over fire trails and increased to 500 acres in area. Another fire near Kirk covered 300 acres.

Continuation— Road Widening

—from page 1

der the formation of an association looking to an eventual improved highway from Salem through King's Valley and after a number of meetings and discussions with the various other interests involved the highway commission consented to make the survey and provide the estimates.

Both the city council and county court did not care to commit themselves as to the road until the probable expense involved was available and this could not be secured without the survey.

The basis of the whole proposition is a possible WPA project and such a project requires that the sponsors put up a certain percentage of the funds. In this case the sponsor would be the city inside the city limits and the county outside from the city limits to wherever it is decided to take the road on its first lap.

The road in question carries a very heavy traffic and is especially narrow in places constituting a bottle neck which is considered ideal as a WPA project and would furnish employment to a large number of men.

State employees will also be given an opportunity to join in the event, the state board of control adopting a motion this morning to close all offices at 3 o'clock.

"I don't often recommend that state offices be closed," said Governor Sprague during the discussion, "but this national event is of such significance that I feel we should let state employees off so they can attend."

"This action has no political significance. It is merely a personal tribute to Senator McNary, who has been so active in state affairs."

The first scheduled event in connection with the notification program will take place Sunday, the day of the senator's arrival home from Washington, when a fleet of 75 airplanes from all parts of the northwest that are slated to engage in a flying meet at Albany that day,

casualties were not learned. Several planes took part in the raid.

Italian Communique

Rome, Aug. 21 (AP)—Italy admitted an intensification of British air raids on Italian positions throughout Ethiopia today.

War communique No. 74, issued from general headquarters, said that the British had raided Mega, Gelib and Dire Dawa in Ethiopia. Neutral shipping had been warned that vessels approaching within 30 miles of the coast of the Mediterranean, Red sea, Gulf of Aden, Egypt and British African colonies henceforth were "in danger of destruction by mines or other means of war."

The communique said that Italian bombing formations had "attacked successfully and hit air bases on Malta." It claimed that all Italian planes returned safely "despite violent enemy reaction."

Rome, Aug. 21 (AP)—War flared to new intensity in the Mediterranean today as Italy launched a "total blockade" of British territories in that region and Stefani, the Italian news agency, reported a furious air-sea battle in which it said seven British planes were shot down.

Time and place of the battle were not disclosed, but Stefani's correspondent said an Italian air squadron had attacked large British warships protected by lighter vessels and a squadron of Gloster-Gladia-tor planes, with "considerable" effect. In addition to the seven British planes shot down, he said, two others were possibly destroyed.

New Members on GOP Committee

Announcement has been made that B. P. Pound, county chairman of the republican county central committee, has named additional members to the finance committee of the organization as follows: Ed B. Gabriel, chairman, Grant Day, A. A. Lee, D. W. Hill, George Manolis, B. E. (Kelly) Owen, Ed Kennedy, Carl Abrams and William Russ. Other members already on the committee are Ernest Miller, Lewis Judson, William McGilchrist, Jr., Milton Meyers, Wayne Dough-ton, Rex W. Ross, Katherine Goulet, W. W. Chadwick, Frank Derby, M. H. Hicks, Laurence Rich, U. G. Bower, Anna Pierce, Mrs. Floyd White, Mrs. Rex Sanford and Fred Lamport.

A meeting of the committee has been called for 8 o'clock Monday night at headquarters at the Marion hotel when T. H. Banfield, chairman of the finance committee for the state central committee, will be present. It is stated at headquarters here that the state and county committees are the only authorized bodies for the raising of party campaign funds.

Washington, Aug. 21 (AP)—In 40-below temperatures, the staff of the United States Antarctic service celebrated today the approaching end of the four-month-long winter night.

Albany-Eugene Game to Be Replayed

Albany, Aug. 21 (AP)—President George Wilhelm of the Oregon State Baseball league today allowed Eugene's protest of Umpire Bus Nonkin's ninth inning decision by which Albany defeated Eugene, 4-3, Saturday night in a playoff for the state league title. The game will be replayed here Saturday night or Sunday. A win by Eugene would necessitate another game, as Albany defeated Eugene 10-2 Sunday at Eugene.

Claim British Firms Sell Oil To Japanese

Houston, Aug. 21 (AP)—The Chronicle today said "the Houston oil industry buzzed with reports that two British-controlled companies were selling to Japan petroleum products recently embargoed by the United States."

The Chronicle said one executive asserted "when the United States stopped American oil companies from shipping aviation gasoline and other products to Japan, these two international oil companies, one controlled directly by the British government, stepped in and began supplying the Japanese market."

"Apparently," the Chronicle quoted him anonymously, "this is part of England's appeasement policy toward Japan."

The Chronicle said "he termed the situation 'a screwy one' with the two British-controlled companies supplying Japan, axis partner of Germany, with oil."

London, Aug. 21 (AP)—Sale of British oil to Japan and the closing of the Burma road over which war supplies were sent to the central Chinese government at Chungking were assailed in commons today by Geoffrey Mander, liberal member of parliament, as "grossly unfair."

Joint Use of Bases in Effect

London, Aug. 21 (AP)—British foreign office sources cited the British-American agreement of 1933 for joint control of Canton and Enderbury islands in the Pacific today as an illustration of Prime Minister Churchill's statement yesterday that the "association of interest for common purposes" between the two countries had developed before the war.

The officials offered the statement as a result of reported Japanese concern over rumors that Britain is offering to lease defense bases in the Pacific.

It was said authoritatively that the reports may have arisen from a misunderstanding of a portion of Churchill's speech yesterday.

The islands were placed under joint control for use of British and American civil aviation companies August 11, 1933, and on April 15 last year, Great Britain and the United States agreed to extend the arrangement for 50 years, with the possibility of continuing it indefinitely.

Morse to Mail Order by Saturday

San Francisco, Aug. 21 (U.P.)—Wayne L. Morse returned to Portland today after completing a hearing in connection with contract negotiations between the Waterfront Employers' association and the International Longshoremen's and Warehousemen's union.

Morse, Pacific coast longshore arbitrator, said he would have his decision in the mails by Saturday night.

The two day hearing covered charges of union representatives that employers were guilty of "flagrantly bad faith" in failing to enter into contract negotiations.

Employers countered they were willing to negotiate at any time, but refused to bond themselves by any concessions prior to opening of negotiations.

Shake-up Near in British Cabinet

London, Aug. 21 (AP)—Well-informed political quarters predicted today there would be a British cabinet change shortly after the fortnight's adjournment of parliament starting tomorrow.

Retirement of Neville Chamberlain, lord president of council, and replacement of Foreign Secretary Lord Halifax are mentioned.

Herbert Morrison, minister of supply, and Alfred Duff-Cooper, minister of information, also were discussed as likely to leave the government.
