Better than a dozen hankies for opening STUFFY NOSTRILS

What's the use of sniffing so many hankies, trying to blow snot out of stopped-up nostrils? It only piles up the laundry bill. And remember, a lot of violent blowing only makes your nose more sore, red, unsightly, and it very often injures the delicate membranes.

A more economical and gentle way to relieve congestion in your nostrils due to a cold is to insert a little Mentholum.

This delightful ointment will soon break up congested mucus, relieve the smothery feeling, and permit you to breathe normally through the nose. It also relieves sniffing, sneezing, swelling, soreness, and redness.

Mentholum helps in so many ways that you should always remember this: For Discomforts from Colds—Mentholum Link them together in your mind.
