## Woodburn Council Needing Aspirin

Woodburn—When the Woodburn city council at its last meeting proposed to enact an ordinance licensing pinball machines in Woodburn it stirred up a headache and much opposition has developed during the week.

Petitions have been circulated among the church people objecting to this movement in the Methodist church, Foursquare church, Church of God, Presbyterian church and the Christian church and have been signed by a large number. A number of local business men are also objecting to the machines.

While the present law makes no legal bar to the installation of the machines, up to now no efforts have been made to operate them in Woodburn for the reason that the former council made it plain that if they tried to operate an ordinance would be immediately passed against them.

The matter will come up for final settlement at the next meeting of the council which will be held Tuesday night.

To make a mere mention of the Drake collection of the most unusual articles would take columns of newspaper space. His campaign button collection fills a half gallon pail, and one is too large for the pail. German prayer books 200 years old. Every conceivable relic of pioneer times and keepsakes brought across the plains in the 40's and 50's. Snake skins. Handmade children's shoes. Beads, Indian and otherwise. Pestles and mortars. Perfume bottles. Buttons and belt buckles dating to pre-Civil war days, and on and on.

The collectors are calling on the farmers in the various locals, raising funds for building the warehouse. They report good cooperation.

The seed cleaning warehouse will be built on Southern Pacific property near the depot. It is hoped that it can be completed this spring in order to care for this season's crop.
