FOR WOMEN ONLY!

MUCH has been written, much said, about feminine hygiene. Too often, however, women overlook hygiene in the REAL sense of the word—underarm cleanliness and sweetness. You cannot be attractive and appealing with underarms moist, stained and smelly.

There is now a simple and safe way to prevent under-arm odor and keep your dresses free from perspiration stains and smell. It is Arid, a new vanishing cream deodorant which safely stops perspiration from 1 to 3 days.

Arid has 5 outstanding advantages:

1. Does not rot dresses, does not irritate skin.
2. No waiting to dry. Can be used right after shaving.
3. Instantly checks perspiration 1 to 3 days. Removes odor from perspiration, keeps armpits dry.
4. Arid is a pure, white, greaseless, stainless vanishing cream.
5. Arid has been awarded the Approval Seal of The American Institute of Laundering for being harmless to fabric.

Women use more Arid than any other deodorant. Try a jar today at any drug, department or ten cent store... 10¢, 35¢, and 59¢ size jars.

GOOD TASTE TODAY

The "news" that one of my readers sends me is not very flattering to the good manners of the younger generation, and I am sorry to say that the complaint made is becoming all too familiar. However, to quote this particular letter: "Several weeks ago I sent two wedding presents to two young brides. Neither one has thanked me. At first, I thought that they were both away on their honeymoons and would write in time. Since then, friends have told me that the younger generation has now become so casual that they think there is no obligation to thank people who send them presents. I can not believe that this is an accepted change of today. I would very much like to hear your opinion."

In answer I can say, in the first place, that it is not an accepted change of today. Moreover, I think that in spite of occasional complaints there are comparatively few brides who do not try to sit down and write thank-you notes just as soon as they can. In fact, I rather wonder whether in your case the brides have had time to answer. This is, if your presents arrived at the last minute, it would be unreasonable to expect notes until after they return home from their wedding trips.

I really think it unlikely that both these brides will be so rude as to send no letters of thanks. An occasional one, somewhere at some time, yes. But two together—not likely. The truth is that rudeness is so unusual that we hear of such a

How Much Silver Necessary?

Dear Mrs. Post: Is it necessary always to put a knife at each place even though it may not be necessary for the menu?

Answer: Without at least one knife at the right and one fork at the left, the place would be unusable. The early family breakfast table is the only one that is set with the implements necessary, and none extra. For late breakfast (at noon or half-after) the table setting is either the same as that for lunch or else for supper.

A Dinner Napkin
Dear Mrs. Post: Is it correct to hem a dinner napkin on all four sides, or are the selvedge edges to be left?

Answer: The two selvedge edges are left as they are—unless the napkin is to be hemstitched.

\$200,000,000 Damages Yearly Due to the Lowly Moth!

The deadly clothes moth causes two hundred million dollars damage yearly according to the U. S. Department of Agriculture. An appalling loss due, in part, to carelessness.

With modern moth control, losses on moth damage should be cut to an absolute minimum. During the summer season, the eggs of the moth hatch into larval stage in from 4 to 8 days. Unless protective control measures are taken, your moth damage will be greatly increased during the next few weeks.

As a distinct aid to the control of the moth, Miller's are offering their annual sale of ODORA MOTH-PROOF CLOSETS.

Be sure to see these new and improved closets and cabinets this week... save as well as protect!
A regular \$3.98 value for \$2.98 in ODORALITE, a self-lighting cabinet when the door opens.
