Artist Sketches Pioneer Store

Perrydale—For five hours Monday morning the unusual presence of an artist sketching the pioneer store of Perrydale was of high interest.

Taking a position a few hundred yards away facing the Mrs. J. E. Youkum store, Arne R. Jensen, artist from Mukilteo, Puget Sound, spent the morning hours painting the realistic picture of the 1879 pioneer store.

During the noon hour inquisitive high school students of the nearby school were fascinated by the vividly formed picture in full color and hue of the store with the picturesque background including surrounding tall poplar trees with the old white church building of 1887 in the distance. To the delight of the onlookers Mr. Jensen, the artist, sketched in several figures of pioneers passing the time of day on the far corner of the porch.

Principal Le Roy Scott and Coach Milo Gould were informed of the presence of Mr. Jensen and extended the noon hour of school for the students to get first hand glimpses of an artist at work.

Mr. Jensen revealed that he had several pioneer pictures on view at the Seattle museum of fine arts. Of local interest were three pictures including the well known "Grande Ronde Indian School," "Beale Fountain," and "Woodpecker's College."

After finishing the picture of the pioneer store in Perrydale Mr. Jensen reported that the picture would be on view the week of October 25-31 in the Humphrey art studio at Corvallis.

Telephone Collinses Presenting Problem

Chamber of Commerce Secretary Playing Safe and Will Call Them Harry and Vic in Future

Dallas—When C. B. Sundberg, veteran manager of the telephone company here, retired several months ago he was succeeded by V. H. Collins and there the matter might have rested had it not been for—well let the story speak for itself.

H. V. Collins, better known as Harry all up and down the valley, is in charge at Salem. V. H. Collins, better known as Vic, is in charge at Dallas. In view of the part the telephone company is playing in national defense W. Blackley, secretary of the Chamber of Commerce at Dallas, decided he would ask Harry Collins, H. V. in other words, to accept a speaking assignment. H. V. begged off, too busy for the moment, and suggested that V. H. take over instead.

V. H. at Dallas charges Chamber Secretary Blackley, with failure to recognize the difference in initials but Blackley in turn passes the buck to the newspaper office and says they are the guilty party.

What's in a name anyway but Blackley says that from now on it's going to be Harry and Vic to him and if any changes are made in the process of transition to rule him out of the picture.

MONTGOMERY WARD

155 North Liberty Street SALEM, OREGON Telephone No. 3194
October 20, 1941

Mr. E. A. Brown, Advertising Manager
The Capital Journal
Salem, Oregon

Dear Sir:

We have just received word that the Montgomery Ward Salem store is the winner of first place in the recent Anniversary Sale contest which was held during the month of September. I know you will be particularly interested in our achievement inasmuch as your paper played such an important part in this contest as practically all of the advertising we used, during this period, was carried by the Salem newspapers.

We know that no sale can be even partially successful without the use of newspaper advertising and that it was because of the large amount of newspaper advertising that we did during September that we were able to win this contest.

Along this same line, latest reports show Salem leading in our Ward Week contest, now in progress.

Again, may I thank you for the part you have played and for the help you have given us.

Your very truly,
F. A. DAVIDSON, Store Mgr.
