

Sprague Will Proclaim Daylight Saving

Governor Charles A. Sprague said Tuesday he would issue a proclamation placing Oregon on daylight saving time at 2 a. m. February 9, conforming with a federal law which applies only to interstate commerce, federal offices and federal reservations. At that time, all clocks in the state will be advanced an hour.

"I have learned that Governors Langle of Washington and Olson of California will proclaim daylight saving time for their states and, in the interests of uniformity, I am going to do the same for Oregon," the governor said.

The governor previously had opposed it on grounds that agricultural interests did not approve. However, agricultural representatives meeting here last Friday to discuss the shortage of farm labor advised the governor that they would have no opposition to it, inasmuch as the government wants the clocks advanced as a war measure.

Anderson New Service Manager

The appointment of M. H. "Barney" Anderson, as service manager for the Arnberger Motor company, 385 North Commercial, local Nash dealers, was announced today by Perry Arnberger, company head, as part of a move to expand the service facilities of the firm. Anderson will take up his new duties immediately.

The addition of Barney Anderson to the personnel of the dealership, Arnberger stated, completes his program, begun in October with his appointment as Nash dealer, to provide for the company's many customers and friends the latest, most advanced service equipment, tools and parts, operated by personnel thoroughly trained in factory approved service methods and procedure. Arnberger announced that the current theme song of his entire organization, during the present emergency and thereafter, will be "Keep 'Em Rolling Right."

Anderson brings to his new duties a thorough knowledge of present day service problems, having had extensive experience both as a service manager and as traveling service representative for Wentworth & Irwin, Inc., state distributors for Nash cars. In this capacity he assisted dealers in placing state-wide Nash service at a high point of efficiency.

Plan Curb on Profits, And in Labor Unions

Washington, Jan. 21 (AP)—Far-reaching legislation to compel "special interest" groups to submit accountings of their funds and to limit profits on defense work was prepared today to meet the house.

Chairman Vinson (D., Ga.), said he would introduce immediately a bill to require "big Chambers of Commerce, labor unions and all special interest groups" to report to a federal agency their assets, liabilities, contributions and expenditures.

Well informed congressional circles said that such a program had been discussed by President Roosevelt with conferees on labor legislation two months ago.

At the same time, Vinson said he was working on a second bill designed to prevent the "excessive and unconscionable" profits which the committee declared some corporations had made on naval contracts. The Georgian said that the legislation could not fairly be based on a fixed percentage of profit, but probably would be built around average profits over a given period of years.

The naval committee sent a voluminous report to the house yesterday summarizing its investigation of 19,086 naval contracts. All members approved the report as a

Holy Land Exhibit Here Four More Days

People of Salem and surrounding towns of the Willamette valley who have not witnessed the Holy Land exhibition at the Breyman block, corner of Court and Commercial

streets, have but four days more to see the model of Palestine that has been called by some newspapers in the east, the greatest mechanical creation of the 20th century. The last performance in Salem will take place Sunday evening, January 25. The exhibition that has simply amazed hundreds of people during the engagement here has been sponsored by the Capital Journal for the cause of the Red Cross war fund.

Joseph W. Gaudel, designer and originator of the model came from the island of Malta in the Mediterranean sea to New York in 1912 and went to Edmonton, Canada, where he worked as a sign painter for two years before taking up the task of completing the panorama which had been started in the home town of Balzan in Malta. Pelley Gets Prison Jolt

Asheville, N. C., Jan. 21 (AP)—Superior Court Judge P. Don Phillips sentenced William Dudley Pelley to serve from two to three years in state prison yesterday after ruling that the 52-year-old leader of the Silver Shirts of America had violated the terms of a suspended sentence.

It was seven years ago tomorrow that Pelley was convicted of using fraudulent advertising to sell stock. Upon payment of a fine and court costs his sentence was suspended on conditions of good behavior.

Judge Phillips held that Pelley, who once told the Dies committee on un-American activities that his organization was anti-Semitic, had during his probation period:

Violated a state law relating to the publishing of false and libelous statements, particularly about the president of the United States; shown contempt for the court; had fraudulently and deceptively advertised; and violated a law relating to the joining or operating of a secret political organization.

Archbishop of Canterbury to Resign Office

London, Jan. 21 (AP)—The Archbishop of Canterbury, primate of all England and a central figure in forcing the abdication of King Edward VIII, announced today he would resign March 31 to make way for a younger man.

The archbishop, the Most Reverend and Right Honorable Cosmo Gordon Lang, was 77 years old last October 31, and has been the Archbishop of Canterbury since July 27, 1928.

He said he was relinquishing his lofty church office to make way for "someone younger in years and more vigorous in mind and spirit, who will be better able to prepare now for post-war plans."

The top-ranking ecclesiastic, the Archbishop of Canterbury is 11 first peer of England next to the royal family. The only other arch-

Archbishop of Canterbury, Church of England's Head

bishop of the Church of England is the Archbishop of York.

It was considered likely in some British quarters that the present Archbishop of York, 60-year-old Dr. William Temple, would be named Dr. Lang's successor.

Following the abdication of Edward VIII, in which Dr. Lang was a leading fighter to keep England from having a king married to a divorcee, the venerable archbishop placed the crown on the head of King George VI, Edward's successor.

His decision to resign his position was made known to the convocation of the province of Canterbury, one house of the church assembly of the Church of England.
