Maximum Wednesday 54, minimum 39. River today -4.

Ball of \$250 has been posted by pinner Arthur Buell, charged with snatching a gun at another. He is slated to have a hearing Friday before Justice of the Peace Joseph Elton.

“Savings—insured to \$5000.00—are earning 3 1/2% at Salem Federal, 130 South Liberty.

In a news article yesterday about the death of Edwin F. Craven at Garibaldi Wednesday morning the name erroneously appeared as Edward Craven. The funeral service is to be held at Tillamook Friday at 10:30 a.m., with concluding services in Pioneer cemetery at Rickreall.

Special short method in teaching Gregg shorthand will be used for the beginners' class in shorthand starting Monday at the Capital Business College. Phone 5987.

Optometrists do not have to pay renewal license fees while they are in military service, the attorney general ruled today.

Give your furs the "best"; store them in our cold storage vault. Foreman's, Ph. 9448.

A musical program will be given by the Roberts grange Saturday night under the direction of Mrs. Roy J. Rice, lecturer. Pupils from the Roberts and Halls Ferry schools will give the program. Candidates are to be given an opportunity for introduction. The grange will be hosts to all residents of the community.

Lutz Florist, P. 9592, 1276 N. Lib. Enlisting in the navy in Portland yesterday were Boyd E. Hartman, Donald V. Curtis and Raymond C. Stoffer, all of Salem and Julius L. Nielsen, Corvallis.

Call Willamette Valley Roof Co.

Marriage licenses have been issued at Vancouver, Wash., to Vernon Saffer, El Paso, Tex., and Ruth Dahlman, Salem, and to James Munro and Josephine Laffin, both of Sheridan.

Find just the right gift for your mother at The Moderne.

The state board for vocational education will open a class here Monday to train women for aviation sheet metal work. Twenty women will be enrolled in the first class, first of its kind ever to be held in the county. The women will be trained for the Boeing Aircraft company in Seattle.

Experienced waitress at the Quelle

The Chemeketas will engage in their annual spring housecleaning and fuel gathering expedition this coming week-end at their cabin on Whitewater creek. While the trip is primarily for the purpose of work, it is expected time will be found for those so inclined to enjoy hiking, fishing or skiing. Since a thief raided the cabin some weeks ago and stole all of the silverware, it will be necessary for those making the trip to bring their own knives, forks and spoons. Registration should be made at the Senator hotel. The leader will be Virginia Wells.

Normegene Howe now at Cinderella Beauty Salon, P. 7823.

In the interests of this year's activities at the Silver Creek recreational area, motion pictures taken during the 1941 outings are being shown through Polk and Marion counties by Mrs. Lelf Bergsvik and Carl Greider. The latter, as physical director of the Y is expected to be in charge of most of the camping activities of the area. The pictures have been shown in all of the public schools of Salem except senior high, in Silverton, West Salem and Monmouth. They will be shown before the Dallas Chamber of Commerce Friday and in the schools of that community. They will visit the Aumsville PTA Friday night and Monday night the films will be shown to the Leslie PTA. The camping season will open June 28 with the younger boys.

Old-time Revival every nine, Pilgrim chapel, 975 Market. Welcome.

Rummage sale, Parish house, 550 Chemeketa, April 24 and 25.

E. C. Grady of Los Angeles arrived in Salem today to take over the district management for the Standard Oil company in Marion and Polk counties, succeeding W. A. McPee, who has been manager here the past four years and has been ordered to return to California. Grady has taken his residence at 1698 State street where the retiring manager has been residing.

Everyone admires Needlebutt Bedspreads; white or in colors. Just unpacked in new patterns. Better Bedding Store, 115 N. High.

All members of the county court were out of the city today. Commissioner Smith and Engineer Hubbs were at Dallas attending a district meeting of county judges and commissioners from this section. Commissioner Girod was in Portland at a conference with officials on the asphalt situation as to likely developments for the coming

Season in road building. County Judge Grant Murphy was still on his eastern Oregon trip as special state deputy for the Odd Fellows, expecting to be back tomorrow morning.

Beautiful and unusual Mother's Day cards for your selection at The Moderne.

A telegram has been received by Mr. and Mrs. Dan Hughes, that Jack Hughes, well known Salem resident, who has been ill at Cheyenne, Wyo., for several months has returned to the hospital there and that his condition was considered serious. Hughes left the hospital about two weeks ago and was removed to the home of his daughter, Mrs. Marion Jackson. At the time he was considerably improved and had been able to take a few rides in a car about the city. The telegram gave no other details as to the relapse necessitating his return to the hospital.

Glady Howard's new re-weaving service at Miller's will save you many dollars by re-weaving moth holes, burned places, worn spots, etc. in your valuable apparel, drapes, etc. If it is a job of any kind in re-weaving, see Miss Howard at once.

The state department of agriculture announced today it has closed a jam and jelly factory in Multnomah county because of unsanitary conditions.

For Home Loans—see Salem Federal, 130 South Liberty.

H. C. Johnson, four-county coordinator for the Camp Adair cantonment, will be the speaker Friday noon at a joint meeting of the Salem retail trade bureau and the Salem Realty board.

Azaleas—10 kinds. Many in bloom. Knight Peary Nursery, 375 S. Liberty.

Scout leaders from Oregon, Washington, and Alaska (the "Big Tree" region), are attending the sessions. Mrs. Alan H. Means, national Girl Scout president from Salt Lake City, is in charge of the conference.

Dr. Moran, 158 S. Cottage, Chiropractic Physician.

Window shades cleaned, reversed, repaired. Reinholdt & Lewis, P. 8991.

Mr. and Mrs. L. C. McShane have returned to Salem after a six-months' visit with relatives and friends in their old home states of Ohio and Indiana. They report war industry plants operating in high gear throughout that section of the country, the increase in activity since December 7 being pronounced.

Cook Wanted: Man or woman; restaurant exp. preferred. Fry the cook and sandwich work. Ph. 3347.

Cootie club final dance of the season, V.F.W. hall, Friday.

Maccabees are entertaining soldiers at the Fraternal temple this evening. An hour's program starting at 8 o'clock will be followed by dancing. The Oregonian dance orchestra has been secured.

This weekend Lilacs will be in full bloom at Schuckings' Eola Acres. Drive out and see this beautiful sight and, if you care to, make selections for your own planting. Salem-Dallas highway.

Rummage, Fri. & Sat. 463 Ferry.

Salem physicians and laymen interested in the control and cure of tuberculosis are in Portland Thursday and Friday attending the annual meeting of the Oregon Tuberculosis association. Dr. G. C. Bellinger, superintendent of the tuberculosis hospital presided during this afternoon's meeting while Tinkham Gilbert took part in the panel discussion. Mrs. George Moorhead will discuss the time element in connection with the annual sale of Christmas seals. Others in attendance from Marion county are Dr. V. A. Douglas, Mrs. Glen Seelye, Miss Winifred Tolbert, Mrs. Bernice Skinner, Miss Erma Plett, Mrs. Katherine Holderbaum and Miss Mary Flynn.

## Empire Builder Car Derailed

Seattle, April 23 (AP)—The rear car of the eastbound Empire Builder, a lounge car, was derailed by a broken rail about 12:05 a.m. today near Monroe, east of Everett, the Great Northern offices here announced. No one was reported injured. Service on the line was expected to be restored by noon today.

The lounge car went off the track and was pulled along over the ties a short distance, before tipping up at an angle. A sleeper car in front of it was detached, and the train proceeded on eastward about two hours later.

Only a few people were in the lounge car. The train left Seattle at 10:15 p.m. The derailment was two miles west of Monroe.

## Reign of Terror In Madagascar

London, April 23 (AP)—Agents of Vichy government were reported today to have instituted a virtual reign of terror on the strategic French island of Madagascar in their attempts to round up all sympathizers with the Free French movement.

Dispatches to the Daily Express from Tananarive said Governor-General Armand Annet had arrested hundreds of De Gaullesians on orders from Pierre Laval, Vichy's new chief of government and proponent of collaboration with Germany.

Annet's own secretary as well as other members of the island administration were among those reported arrested.

The situation on Madagascar is of concern here because the island, situated off the east coast of Africa, lies athwart vital allied lines of communication with India and there has been speculation that the Japanese might try to gain a foothold there.

Annet was quoted recently as saying the island would be defended against any aggressor and the Madagascar radio has denied any Japanese or German encroachment.

The Daily Express dispatches today, however, declared: "Madagascar is not being defended against Japanese infiltration and it cannot be defended against Japanese invasion."

Marion county's share of contributions to relief money for April is shown by statements from the state committee to be as follows: aid to dependent children, \$2,406.20; aid to blind, \$209.20; old age assistance, \$7,672.40.

## 1,900,000 Nazi Reserves Sent Against Soviet

(Continued from page 1)

barred civilians from Normandy's coastal roads between 7:30 p. m. and 6 a. m.—leaving the clear assumption that any person abroad in the forbidden hours would be a British commando or other foe, subject to being shot on sight.

On the Russian war front, Soviet dispatches reported that the German armies in the Ukraine, heavily battered in recent weeks, had abandoned their counter-attacks and changed tactics to a defense of fortified positions.

The significance of this lay in well-informed military predictions that Hitler's long-heralded offensive would strike its heaviest blows on the southern flank, in a drive toward the oil-rich Caucasus. Now, according to the Russians, the Germans' preliminary "feeler" thrusts have been crushed and the Nazis forced back on the defensive.

Russian dispatches also reported that on the central (Moscow) front, a Yukhnov, thousands of nazis bodies had been found when the melting snows uncovered a huge pit in the central square of the town.

Hitler's field headquarters reported "successful" German offensive operations on the northern (Leningrad) and central fronts, and asserted that Finnish troops in Karelia, north of Leningrad, had beaten off 150 red army attacks in 10 days with a total of 14,000 Russians killed.

## Naval Staff for South Pacific

Allied Headquarters, Australia, April 23 (AP)—Vice Admiral Herbert P. Leary announced today the make-up of a 14-man naval staff for Allied forces in the southwest Pacific, headed by Capt. Cary Jones of the U. S. navy.

Ten other American officers will serve under Captain Jones, the chief of staff. One Netherlands East Indies officer and two Australians are on the list.

The staff includes: Capt. J. H. Carson, Comm. (supply corps) A. A. Antrim, Commanders M. R. Kelley, R. C. Hudson and J. H. Shultz and Lieutenant Commanders E. T. Neale, H. J. Martin, B. C. Lovett, J. D. L. Grant and R. L. Taylor, all of the United States navy; Capt. F. E. Getting of the Royal Australian navy; Commanders G. B. Salm of the Royal N. E. I. navy and Wing Commander G. Packer Royal of the RAAF.

## McNary Offers Bill For Crop Alcohol

Washington, April 23 (AP)—Senator McNary (R. Ore.) asked congress today to authorize construction and operation of plants to produce alcohol for war purposes from grain and other surplus farm crops and from forest products.

He introduced a bill (S2474) to authorize the Reconstruction Finance Corporation to make loans to finance and operate such plants.

McNary said he was convinced from studies made by a subcommittee of the agriculture committee, of which he is a member, that alcohol could be produced from farm and forest products.

"In the Pacific northwest we have a large supply of surplus wheat and, at times, surplus of fruit, berries and other farm crops and forest wastes which could be profitably utilized."

## Land Denounces Delay on Ships

Washington, April 23 (AP)—Chairman Emory S. Land of the maritime commission charged today that "infernal agitation" among shipyard workers and delays in deliveries of steel plate are retarding the shipbuilding program.

"This infernal agitation is going around in everybody's head about whether it should be a closed or open shop, or whether they should join this or that union," Land told the senate committee investigating the war program.

He called for "stabilization of labor relations—sometimes known as freezing relations."

When he asserted that the shipbuilding program could be 50 per cent ahead of present production, Sen. Harold H. Burton (R. O.), asked whether "loafing" was responsible for the lag.

"It certainly has a bearing on it," Land replied. "One of my pet leavies is loafing in the yards. We have got to build up morale and that includes everybody from management to labor."

"That brings up the question whether morale should be built up by legislation or whether we should go to other factors," Burton said.

"I don't care how it is done as long as we stabilize relations," Land said. "I want ships."

## Oregon Caves Yield Relics

Philadelphia, April 23 (AP)—Evidence of early man's transition from spear thrower to use the bow and arrow has been found in eastern Oregon caves, Prof. L. S. Cressman, head of the University of Oregon's department of anthropology, told opening sessions at the American Philosophical society's annual three day meeting today.

Dr. Cressman said that the Oregon caves also yielded fragments of colled basketry, which "must have been brought in by migratory peoples." His paper, "Cave and lake bed cultures of south central Oregon, in the northern great basin," also dealt with discoveries made in "the bed of an ancient lake."

"The bed of an ancient lake," he said, "has given us three horizons: (1) the oldest, when horse, camel and some elephant-like animal stalked their thirst at the dwindling water holes and were hunted by man; (2) a second, about the shore line when the lake was beginning to refill about 4,000 years ago; and (3) the historic Modoc culture about the modern shore line, dating about the beginning of the Christian era."

## National 40 Mile Speed Limit Looms

Washington, April 23 (AP)—Warning to motorists: conserve your tires; drive below 40 miles per hour or you won't be permitted to have gasoline.

With gasoline rationing imminent, this was the penalty under consideration in the senate military affairs committee today as an effective way of forcing America's 30,000,000 car owners to stop burning up rubber in high speed travel.

After hearing top officials of the army, WPB, and petroleum coordinator's office, the committee asked Undersecretary of War Robert P. Patterson to draft legislation fixing a national 40-mile speed limit.

## FDR's Mother Left \$1,089,872 Estate

Poughkeepsie, N. Y., April 23 (AP)—Mrs. Sara Delano Roosevelt, mother of the president, left a net estate estimated at \$1,089,872, a New York state transfer tax appraisal showed today.

This figure was reached after deduction of funeral and administrative expenses and debts totaling \$38,489. A state tax of \$48,431 was imposed.

Under a will probated earlier, President Roosevelt receives nine-tenths of the entire estate and his mother's Hyde Park, N. Y., property.

## Hormone Acts Like Magic on Grain Crops

Memphis, Tenn., April 23 (AP)—A powerful hormone that has increased production of some crops as much as 100 per cent, was described before the 103rd annual meeting of the American Chemical society here today.

The new compound—levulinic acid—has produced remarkable increases in yields of cotton, corn, oats, alfalfa, soybeans, cow peas, beans and grasses, according to W. W. Moyer, of the A. E. Staley Manufacturing Co., Decatur, Ill., who said the product "promises to find its greatest field of usefulness in agriculture."

Levulinic acid has been known for more than 70 years, but only recently has it been produced commercially. It also has been found to be useful in the manufacture of special dyes for coloring plastics, and is an ideal metal cleaner.

However, the outstanding discovery, Moyer said, was its ability to stimulate the growth of important agricultural plants.

The method of application is to soak or dust the seed before planting or to dust the plants at the flowering stage.

At a leading agricultural experiment station it was found that treating the seed increased the cotton yield by 650 pounds per acre and that treating the seed and dusting the flowers increased it by 750 pounds per acre.

Oats showed increases of 20 and 30 per cent, respectively; alfalfa, 50 per cent; soybeans, over 40 per cent; cow peas, 33 per cent, and grasses 12 per cent. In beets the yield was more than doubled.

## Brand Stresses Free Learning

The right of free hearing, the free flow of information should be the watchword of the country and not so much that of free speech, an idea that has been much abused in recent years, asserted Justice James T. Brand as he discussed some of the problems confronting the average citizen during a talk before the Salem Lions club today.

"People won't fight for the right to talk or for a slogan for any great length of time," he added, "Liberty, however, is a weapon which may be used toward the dissemination of ideas. The free flow of facts to the minds of the people is of everlasting importance."

While admitting the correctness of the theory that "machines will win the war," Judge Brand pointed out that it takes men to build them. "No single man or group of men can turn this country into a flock of sheep," he declared and added "that they must know why they fight."

Judge Brand said he felt sure that the American people had gotten down to earth and were now considering the real weaknesses and the real strengths in the present struggle.

## Funeral Services For Mrs. James Imlah

Funeral services will be held Friday for Mrs. Jennie C. Imlah, late resident of Rt. 1, Box 125, Salem. Mrs. Imlah passed away Wednesday at a local hospital, and services will be held from the chapel of Clough-Barrick company at 2 o'clock Friday, Rev. W. Irwin Williams will officiate.

Mrs. Imlah was born in Jasper county, Missouri, Nov. 12, 1876, the daughter of Elijah and Sophia A. Nelson. She came to Oregon in 1905, and has lived near Salem since that time. She was the last surviving charter member of the Wallace Road Sweetbrier Sewing club, and was also a member of the Chadwick chapter No. 37 of the Order of Eastern Star, and the White Shrine of Jerusalem. Ritualistic services will be given by the Chadwick chapter of O.E.S.

She is survived by husband, James Imlah of Salem; daughter Mrs. Frances Angle of Oakland, Calif.; son, Lawrence Imlah of Salem; two sisters, Mrs. W. C. Ward and Mrs. Fred Gardner, both of Portland, and four grandchildren.

## Air Alarms Sounded Twice Over Denmark

Stockholm, Sweden, April 23 (AP)—Two waves of bombers swept over Copenhagen shortly after midnight in the first attack on the Danish capital since July, 1940, and were met by anti-aircraft fire which sent 50 persons to hospitals, it was reported here today.

The raiders, flying at high altitudes, twice sent residents to air raid shelters where one aged man died of apoplexy but so far as could be learned here no bombs were dropped on the city.

Alarms also sounded at many other points in Denmark. Hundreds of anti-aircraft guns kept up a steady barrage, but apparently none of the planes were shot down. Shell duds and splinters crashed in the streets and on roof tops, however, and injured 50 persons.

The gunfire was so heavy that watchers on the Swedish coast near Denmark believed that heavy bombs were falling.

## Oregon Auto Dealers Show 75 Percent Loss

Portland, April 23 (AP)—Oregon motor vehicle dealers showed a sales loss of 75 per cent in March as compared with March of last year, it was announced here today.

Independent retailers as a whole, however, showed a 10 per cent increase for both March and the first three months of this year over the same 1941 period. Apparel stores gained 48 per cent, furniture stores, 20 per cent and the lumber-building-hardware group, 19 per cent, figures for March showed.

## Sugarless Week Starts Next Monday

No sugar at all is to be sold in Salem or elsewhere next week, which is from Monday, April 27, through Saturday, May 2. This was announced here today by A. H. Zinsley, who has been appointed sugar rationing registrar for Salem.

Notwithstanding published information in the newspapers very few grocers, restaurant operators, canners and institutions that are users of sugar have yet applied at the Salem high school building for their rationing blanks, Mr. Zinsley said, and tomorrow is the last day on which they can do so. He said today that no canners and no institutions at all have applied and only about 50 out of possibly 125 grocers in the district. The order applies to everyone except housewives. The hours for application tomorrow are from 8 a.m. to 5 p.m.

Having secured the blanks they are to be taken away and filled out, then back to the registrar's office next Tuesday or Wednesday and signed by the owner or manager of the establishment in the presence of the registrar. They cannot be mailed.

Sugar rationing is scheduled to start May 4 in spite of all arguments about whether or not it is necessary. At that time the American people will make their first acquaintance with the ration card, an acquaintance that is to grow closer in the months ahead.

The starting sugar ration is to limit every man, woman and child to one-half pound a week for the first two weeks. That limit may be raised later, depending on supply, but it probably will not rise above one pound a week.

## Threat to Madras Disappears

Madras, India, April 23 (AP)—The Madras government announced today it had decided to bring back essential government offices, which had been moved inland, saying "the immediate threat to Madras City has now disappeared."

(Recent transfer of many of the Madras offices and much of the population to inland points coincided with Prime Minister Churchill's announcement in London that a large Japanese naval force, headed by three battleships, was moving the Bay of Bengal.)

(The return to the important coastal city follows intimations from India and Britain yesterday that allied sea and air power in the defense of India was increasing.)

(On Tuesday Gen. Sir Archibald P. Wavell, commander in chief for India and Burma, said the time "may not be far distant" when the United Nations would have the sea power to drive the Japanese out of the Indian ocean.)

## Asks Indian Aid In Winning War

New Delhi, April 23 (AP)—Louis Johnson, President Roosevelt's envoy to India, told the people of India in a broadcast today that the goal of allied victory must come first, and pledged that after that the United States would put her loftiest ideals into the solution of world problems. He asked India's help in winning the war.

"There is no goal for us and for you," he said, "except victory, and in that victory may I say on behalf of the president of the United States that we propose to bring to the problem of eventual peace, no less than to the battlefield of the immediate war, our aroused conscience, our highest resolves and our loftiest ideals."

"To those high ends we have dedicated our lives, our fortunes and our sacred honor."

## Alien Curfew Test is Near

Portland, April 23 (AP)—A test of the validity of the enemy alien curfew order nearing today following indictment of Minoru Yasui, American-born Japanese, by a federal grand jury yesterday.

Yasui, from Hood River, recently surrendered to Portland police after hours to test the order's legality.

Hundreds of anti-aircraft guns kept up a steady barrage, but apparently none of the planes were shot down. Shell duds and splinters crashed in the streets and on roof tops, however, and injured 50 persons.

The gunfire was so heavy that watchers on the Swedish coast near Denmark believed that heavy bombs were falling.

Centenarian Passes  
Silverton, Ore., April 23 (AP)—Mrs. A. O. Legard, 88, Silverton, today learned of the death of her mother in Maumoon, Wis. She said her mother, Mrs. Sara Hauert, was 104.

## Lieut. Putnam Memorial Services Held

Brief but impressive memorial services for Lieut. Rex Putnam, who was killed during the course of duty as an aviator in the United States army, were held at the First Methodist church this forenoon.

Taking his text from Ecclesiastes, "I will remember my covenant which I made with thee in the days of thy youth and I will establish it unto eternity," Dr. J. C. Harrison declared that lives such as that of Rex Putnam were not for the early twenties but that "principles for which they lived and die are for eternity." He then quoted from Victor Hugo's Les Miserables where the bishop says "It is not which you receive but which you give that makes you rich."

Speaking of the things and conditions which Rex had been able to enjoy during his life, Dr. Harrison pointed to the home life of his parents, Mr. and Mrs. Rex Putnam, Sr.; the public schools and three years at Willamette; the "church of the Living God" and the "privilege of being a citizen of the country for which he lived and for which he gave up his life."

Rev. George H. Swift, rector of Saint Paul's Episcopal church, read the scripture passage and offered prayer for the young aviator. Richard Barton, baritone, sang two solos.

No additional information concerning the death of Lieut. Putnam has been received here. It is known he was engaged in the ferrying of airplanes to the Far East at the time of his death.

## Lumber Wage Arbitration

Salt Lake City, April 23 (AP)—Only two or five issues in the dispute between representatives of Washington and Oregon lumber companies and the CIO-International Woodworkers of America remain to be settled. Prof. N. P. Feinsinger, special representative of the war labor board, said as arbitration hearings opened today.

Prof. Feinsinger, dean of the University of Wisconsin law school, said they were wages and vacations and that the two sides had agreed on grievance procedure, union security and "make ready" time. One hundred and forty-two companies employing approximately 40,000 lumber workers are involved.

Worth Lowery of Seattle, union president, represents the union. Dr. Vernon Jensen, assistant professor of economics at Colorado university, is arbiter. He will hear testimony and then make recommendations to the war board.

Prof. Feinsinger did not explain what the agreed terms were. "It is a great accomplishment for the industry to reconcile its differences in this way," he told reporters.

## Man Dies at Wheel, Near Wreck Occurs

Colorado Springs, Colo., April 23 (AP)—Ivan Lee Marsteller, driving over the perilous Ute canyon road yesterday, died of a heart attack. His body slumped over the hand brake. His foot lodged under the brake pedal.

Unable to move him or stop the car, Mrs. Marsteller grabbed the steering wheel and swerved the car into the canyon wall.

She escaped serious injury.
