Gift From Rotary—Ardell Johnson, of Silverton, and his Guernsey heifer calf, the start of a future dairy herd.

### Silverton Boy Happy With Rotarian Gift

Silverton—Ardell Johnson, son of Mr. and Mrs. Oscar Johnson of the Evans Valley district, most hilariously announced "It's a Guernsey for me," and expressed thanks and appreciation to the members of the Silverton Rotary club, Monday, who made possible the gift of a well bred heifer calf, and Ardell was the lucky boy as first choice of the first gift because of his outstanding record as a sophomore in the Silverton high school in vocational agriculture. Ardell's dad specializes in Guernseys.

The calf bears the name of "Twin Springs Peaches."

She was selected from Twin Springs Guernsey farm of McMinville, L. A. Miller, proprietor and owner. Peaches' mother is "Sunbeam Peaches" 524,953, and made a record of 381.1 pounds of butterfat in 305 days, G. G. G. at 2 years of age. Peaches' sire is "Wandemere Cedric Royal," 274,482, and her paternal grandmother is "Princess Ann of Lenor Place," with a record of 727.4 pounds BF and AA, and the grand dame, paternally, is "Clarissa of Chiconia" with a record of 646.7 pounds BF, AA.

The project just undertaken by the Rotary club of which S. Parzy Rose is the president this year, plans to have Twin Springs Peaches start something for them.

Her first blessed event, should this be a heifer, is to be turned back to the Rotarians in expectation of making this a continuous Guernsey activity, and another boy that can qualify, is to be given Twin Peaches' daughter, and so on.

The whole matter is an effort to encourage local Future Farmer boys to do their best in their dairy projects as well as other agricultural lines in which the Rotarians are interested as a group and individuals.

The Rotarians plan a like project for Jerseys and Holsteins and will present a heifer calf of best breeding from these types to the lucky freshman or sophomore from the classes of Leonard F. Hudson, instructor, who picks the winner, calf and boy, and supervises the necessary often check-ups for the club, seeing to the breeding and otherwise proper attentions for the calf.

William P. Reisterer, Sublimity, Gilbert Jacobson, Route 5, Salem, and Leonard L. Bangston, Portland, are also due to leave the 12th for re-examination and will be accepted either as 1-Bs or 1-As, as the case may be. They had previously been rejected for minor defects.
