

# Stocks Decline Irregularly In Light Trading

New York, Aug. 10 (AP)—Trading on the stock market today dwindled to around the lightest levels of the year as market operators awaited definite indications of the trend of the battle on the Russian front, details of the Solomon islands fight and outcome of the strife in India.

Leading issues moved narrowly and the major groups had minor declines. Modest demand continued for liquor issues.

Steels were very dull with prices steady to firm. A few sales of automobile stocks left this group at levels slightly above the previous close. Railroad stocks generally were quiet and narrowly mixed. Communications held around the previous close, oils eased, and airline stocks gained. Leading coppers had minor gains. Utilities slipped back in the average. Mercantiles were easier in most instances and farm shares steady.

Some selling came into Good-year Tire when directors cut the dividend to 25 cents a share from 37 1/2 cents a share and reported net profit equal to \$1.24 a share in the first half against \$2.23 in the 1941 period. The issue met support after touching 16 1/2 off 3/4. U. S. Rubber was steady.

Sales on the big board totaled 209,941 shares against 212,250 last Friday, the smallest for any full session, with the exception of July 1, this year, since Aug. 26, 1940. On the New York curb exchange sales were 42,205 shares compared with 46,470 Friday.

Dow-Jones preliminary averages were: Industrial, 104.91, up 0.01; Rail, 25.47, off 0.01; utility, 11.35, off 0.03; 65 stocks, 34.93, unchanged.

# Plenty of Bean Pickers Show-up

An unusual situation developed in the labor market this morning when 200 more bean pickers than there was demand for reported at the employment office, South Cottage and Ferry streets. "The situation was quite different from that which existed a year ago, W. H. Baillie, employment officer admitted. "However, we are not slapping ourselves on the back, but realize the condition has been brought about through weather conditions which have retarded the growing season."

It is expected beans will be reaching their maturity more rapidly later in the week and by next Monday it may be that the supply of pickers will not be equal to the demand. In several yards, owners have established camping facilities and secured the services of entire families in advance of the picking season.

Baillie visited the Wm. McGilchrist, Jr., bean yard in Mission Bottom and reported the finest crop he has yet seen. A double platoon of 60 boys and girls with two adult leaders is making a remarkable showing there, he reported. Two new platoons were sent to the Grand Island sector this morning. These groups report at 6:30 each morning and work until 5 p.m.

Establishment of a fifth sub-employment office was announced today by Baillie. "This one is located at Dallas and will operate through the hop and prune season. Others are located at Woodburn, West Stayton, Turner and Independence. An assistant is to be sent to the Independence branch to assist in the early hop season.

# Farmers Displeased With Light Drizzle

Abiqua—The drizzling rain of Sunday was not welcomed by the Abiqua ranchers who are commercializing on a seed crop for southern markets from their legumes and Willamette and hairy vetch.

After the crop, swathed for drying prior to threshing or combining, reaches a certain stage of dryness, if it becomes damp and dries the second time, the seed pods open and the seeds are scattered and the crop lessened or lost entirely. Market managers in the south are anxious for the entire crop of seed raised in the Abiqua section.

Albert Nerison is specializing in Willamette vetch and has small acreages of hairy vetch and legumes, the Schiedlers of Mt. Angel and the Herigstad Brothers are among the largest growers, with Ted Lorenzen and Leslie Brown among numerous other growers on a smaller scale.

# Kicks on Absence Of Telegraph Messengers

New York, Aug. 10 (AP)—Telegraph messengers should continue themselves to delivering telegrams, not singing them, says Joseph P. Selly.

Furthermore, they shouldn't be called on to take the dog out for a walk or make a fourth at bridge.

Selly, who is president of the American Communications association (CIO), demands the immediate elimination of such services on the ground they constitute a serious impediment to war time communications.

"The telegraph industry is a war industry," he wrote in a letter to Chairman James L. Fly of the federal communications commission in which he cited alleged instances of official messages being delayed for many hours.

"Over its circuits travel messages which make possible our whole complex manufacturing and distributing systems. No impediments should be permitted to hold telegraph operations during war time below the maximum level of efficiency.

"The most obvious impediment of a maximum level of efficiency for war time communications is continued handling of fixed-text messages, dog-walking, singing telegrams and other non-essential services."

Both Western Union and Postal Telegraph spokesmen, when approached on the matter, said special services never were allowed to interfere with official messages.

# Split Income Taxes Favored

Washington, Aug. 10 (AP)—The senate finance committee today voted 11 to 4 to permit husbands and wives in so-called community property states to continue to split their income for federal tax purposes.

Under present law, married couples in community property states may split their income and each file individual returns on half of their total income. This reduces their total taxes. The treasury wanted the income to be reported by the spouse who earns it, or be reported in a joint return. It estimated this would bring in \$85,000,000.

The committee, however, voted against further consideration of the plan. In effect it thus rejected the treasury proposal.

The action was a sequel to the committee's earlier decision to eliminate from consideration a treasury proposal to require mandatory joint returns from married couples as a feature of the \$6,270,900,000 war revenue bill.

Community property states are California, Texas, Louisiana, Arizona, New Mexico, Idaho and Washington.

The four who voted in favor of considering the proposal were reported to be Chairman Walter F. George (D., Ga.), and Senators Robert M. La Follette (R., Wis.), Arthur H. Vandenberg (P., Mich.), and Peter G. Gerry (D., R.I.).

# Prices Fixed for Prune Market

Washington, Aug. 10 (AP)—The agriculture marketing administration told Senator McNary (R., Ore.), that if the support prices for prunes were applied to the 1942 production it should result in farm prices of \$130 to \$135 a ton in California and \$140 to \$145 a ton in the Pacific northwest.

The AMA last June announced support prices for prunes which it said would result in prices of 5 1/2 cents a pound in the northwest. The price was based on prunes running 80 to the pound, with \$1 a ton deducted when the count was higher and \$1 a ton added when the count was lower. It said the support would cause prunes running 60 to 65 a pound to bring 6 1/2 cents in the Pacific northwest.

The AMA said the details of its dried prune purchase program were expected to be announced within a week.

# Salem Cadet on Radio Program

When Sidney Schlesinger left his native Salem to join the army air force he didn't expect to land on a network radio program within a few weeks.

Yet that's exactly what happened when officials of the west coast army air forces training center at Santa Ana, Calif., held auditions for actors on their new NBC program "Uncle Sam Presents," now heard Tuesdays from 9:30 to 10:00 p.m. PWT. Schlesinger was one of a half-dozen cadets chosen from among the thousands at the Santa Ana army air base to participate in the program.

Written by Captain Frederick Hazlett Brennan, famous short story writer of Collier's and Saturday Evening Post, "Uncle Sam Presents" features gripping dramas of aviation cadet life, with special attention to the important roles played by the folks back home on the success of Uncle Sam's future flying officers. Music is by the 36-piece soldier orchestra of Captain Eddie Dunstetter, every member of which is a former instrumentalist with a big name band.

Other WCAAFTC radio broadcasts heard in Oregon are "Soldiers with Wings," variety show with guest stars, CBS, Saturdays, 5:00-5:30 p.m.; and "Wings Over the West Coast" musical, Mutual Don Lee, Sundays, 7:15-7:30 p.m.

# Wheat Futures Lower Today

Chicago, Aug. 10 (AP)—Wheat futures closed lower today after a sluggish session of selling pressure and little demand.

Wheat closed with net losses of 1/4 to 3/4 cent a bushel, corn was off 1/4 to 3/8, oats off 1/4 to 3/8, rye off 1 1/4 to 1 1/2, and soybeans off 3/8 to 1 1/4.

Reports that spring wheat had begun to move to market depressed wheat prices which showed little rallying power. Light mill buying met declining prices brought about by scattered commission house selling. Locals sold May wheat and houses with cash connections offered September.

Corn futures receded to new seasonal lows, with late dealings devoted mainly to changing options from September to deferred positions.

Reports that cash oats had met good demand encouraged local and commission house buying of futures. Prices held around steady. Hedge selling continued light.

Rye futures dropped more than a cent a bushel under the weight of relatively heavy offerings. Trading continued very dull in the soybean pit.

# Crop Prospects Best on Record

Washington, Aug. 10 (AP)—The department of agriculture today indicated a total national corn production this year of 2,753,696,000 bushels. This compared with the July 1 forecast of 2,627,823,000 bushels.

The indicated corn yield per acre was set at 30.8 bushels.

The wheat indication is for production of 955,172,000 bushels, the department said. Of this figure winter wheat will contribute 697,708,000 bushels, or a yield of 19.2 bushels per acre. The spring wheat production is expected to reach 257,464,000 or 18.2 bushels per acre, the department said.

The oats production indication is for 1,331,511,000 bushels, it said.

The report said crop prospects in the United States are the best on record for this time of year. Growing conditions during July were outstandingly favorable for cotton.

Corn deteriorated locally from dry weather in the south but improved markedly in the north where earlier weather was too cool. The present estimate of the crop is 126,000,000 bushels above expectations a month ago and would be the largest corn crop since 1932. This fits in well with a program which calls for the fattening of the largest livestock herds on record.

# Child Awaits Removal of Can Opener

Philadelphia, Aug. 10 (AP)—Blue-eyed Sharon Bell, 4-year-old daughter of a Vancouver, B. C., policeman, rested comfortably at Temple university hospital today as physicians of the world-famed bronchoscopic clinic prepared to remove a can opener from her throat.

The object, a metal key-type can opener, lodged in the girl's throat a week ago.

Three operations for its removal in Vancouver failed and she was rushed by plane, taxi, train and ambulance to the Dr. Chevalier Jackson bronchoscopic clinic at Temple university hospital.

Dr. C. L. Morris said the girl was in no immediate danger and that the operation would be delayed until she recovered from the rigor of her journey and until a thorough study of the can opener's position in her throat had been made. An x-ray examination was underway.

The child was brought to Philadelphia by an aunt, Mrs. Eileen Burichson. The plane in which they flew from Vancouver to Toronto was filled with army officers, who drew lots to determine which would surrender his seat. Sharon and her aunt rode eastward in the seat assigned to Lieut. Edward Soule of the Canadian army.

They changed planes in Toronto and flew on to La Guardia field, New York. There a taxicab met them for a quick trip to Pennsylvania station and a train to Philadelphia. An ambulance met the train here and 10 minutes later Sharon was tucked in bed with two dolls and a stuffed toy Panda, companions on her long trip.

Sharon complained but little over her difficulty in breathing, but resented being fed through the nose.

# Obituary

**Mrs. Mary Berning**  
Mt. Angel—Mrs. Mary Berning, aged 85 years, 11 months, 12 days, died Saturday at the home of her son-in-law and daughter, Mr. and Mrs. John T. Bauman, with whom she had made her home these past years. Born Mary Zachman to John Zachman and Amelia Ayat on August 26, 1856, she was the first white child born in Wright county, St. Michael, Minn. On November 19, 1879, she was married to Henry Berning at St. Michael, where they lived until September, 1906, when she came with her husband and family to Mt. Angel, where they have lived ever since. Her husband predeceased her in death 6 1/2 years ago. She died after a long and serious illness, fortified with all the rites of the church on the afternoon of August 8. Her family was at her bedside during her last hours. The following children mourn her loss: Mrs. Louise Dyer, Portland; Mrs. R. P. Zollner, Mt. Angel; Sister M. Alexandra, O.B.B., Kakowis, B. C., Canada; Mrs. John T. Bauman, Rudolph Berning, Clemens Berning, Sister M. Irene, O.S.B., Convent, Queen of Angels, and Mrs. J. A. Kaiser, all of Mt. Angel; one brother, R. F. Zachman of Portland; 45 grandchildren and 12 great grandchildren. Besides her husband two children preceded her in death. Solemn requiem mass will be celebrated by her grandson, the Rev. Albert Bauman, O.S.B., at St. Mary's church, Mt. Angel, on Tuesday, August 11, at 8:30 a.m. Interment will be in Calvary cemetery. The body will be at the Baumans' residence on Monday evening. Public recitation of the rosary will be at 8 o'clock. Members of the Catholic Daughters of America will meet in a body to recite the rosary after their regular meeting on Monday night.
