Among the 29 Oregonians enlisted as naval aviation cadets during the past week, Commander Bert H. Creighton, of the cadet selection board for the 13th naval district, announces Edwin P. Mything, John P. Burreis and James A. Henery, all of Salem.

Dance Saturday night at Stayton's new outside dance pavilion with the Top Hatters. 200

Flying Dragons Use Jap Plane

Chungking, Aug. 21 (AP)—A captured Japanese army plane has been taken up for test flights over China by Major David L. Hill of Hunt, Tex., and may be used for practice dog-fights by Brig. Gen. Claire L. Chennault's Flying Dragons.

Hill, six-foot two-inch former American volunteer group pilot and now a member of Chennault's force, had trouble crowding his lanky frame into the seat built for pint-sized Japanese.

"My darn knees were up to my chin," he said. The plane, a 1940 model I-19 was seized by the Chinese last year when it was forced down in Fukien province.

"The short turning radius and maneuverability of the plane are unbelievable," said Hill. "It takes off and lands with very short runs. Instruments are simple and all gadgets are handy. It has no armor plating and no self-sealing gas tanks, which are sacrificed for performance."

While standing in front of the Orey pool hall at 2:40 o'clock this morning Officer Overgard heard a noise apparently in the rear of the building and upon investigation found that an attempt had been made to enter the McDowell market, 171 South Commercial. He roused Ralph McDowell and they searched the place but apparently nothing had been taken. Tracks were found and the rear door had been forced open about five inches.

Tom Wood of the B & B bowling alley reports to police that while his coat was hanging in a rear room someone took \$37 from a wallet.

Edwin Floetke, who was arrested late last night at West Stayton by Deputy Sheriff Young on a disorderly charge, was taken to Stayton justice court this morning by Sheriff Burk where Justice Bell sentenced him to 10 days in jail and to pay a fine of \$50. However, he was given suspended sentence and paroled to Sheriff Burk subject to good behavior.

Mr. and Mrs. W. E. Arebart, 925 Union street, have received word from their son, Dale Arehart, that he has been promoted to sergeant and is now stationed in the dental clinic at Camp Callan, Calif.

The mixed two-ball foursome golf tournament planned for Sunday, August 23, at Woodburn, has been postponed one week, it was announced this afternoon. The play will be at the same time Sunday, August 30, with supper at 5 o'clock.

Reed College Leaves It to Keezer

Portland, Ore., Aug. 21 (AP)—The Reed college directors left it up to Dr. Dexter M. Keezer whether or not he is to continue as president.

They refused to extend his present leave of absence at a meeting yesterday but said that he might return to his post for the fall term if he wished.

Some Reed factions have demanded Mr. Keezer's resignation because of his lengthy absences on government assignments. At present he is director of the consumer division of the OPA and has been in Washington almost constantly. He is now vacationing here.

Regulating Of Off-Shore Fishing Looms

Washington, Aug. 21 (AP)—A study of certain crustaceans as a food resource and drastic regulation of Pacific coast off-shore salmon fishing are expected by Sen. McNary (R., Ore.) from two measures on which he said today there had been no objections.

McNary said he expected approval as soon as he could call the bills up for senate vote.

The fishing bill would require licensing by the fish and wildlife service of all offshore salmon fishing south of latitude 50 north—which would include the three Pacific coast states—and would authorize the service to determine deeded regulations and to co-ordinate offshore regulations with those in force in the three states.

Each boat used in offshore salmon fishing would be required to have a license, at a fee of not more than \$5, and the kind of gear and nets to be used would be specified.

Those who engaged in offshore fishing in 1939, 1940 and 1941 would be entitled to file application for permits. If in later periods the service determined that more permits should be issued, they would be distributed by lot among applicants.

Court News

Circuit Court
Complaint for divorce by Chester R. vs. Alice S. Ridgway alleges cruel and inhuman treatment and asks partition of a property agreement between the parties. They were married in Salem September 28, 1920.

Petition in the case of Salem vs. Jim M. Rice and others asks appointment of an attorney and guardian ad litem for a long list of defendants whose status cannot be ascertained, states the petition, and is necessary before titles can be guaranteed.

Five defendants indicted by the grand jury in its report filed yesterday afternoon are scheduled to have their arraignments next Tuesday before Judge Page who accepted the report of the jury yesterday.

Dorothy Miller has filed complaint for divorce from Roy Miller, who she married at Chehalis, Wash. Nov. 16, 1935. She alleges cruel and inhuman treatment, asks custody of a child, reasonable support money and an appropriate division of the personal property.

Probate Court
Appraisal of \$441.70 has been made on the estate of Josephine A. Bruzas by Walter S. Lamkin, Bessie M. Elson and Ruby W. Emery. Ronald C. Glover, administrator, has been directed to execute a deed to Mr. and Mrs. Lawrence A. Scmitz.

Minnie A. Haworth, administratrix of the estate of David R. Dealy, has petitioned for authority to sell personal property. Consent of E. W. Dealy, guardian ad litem, accompanies the petition.

Justice Court
Lydia Wuest, assault and battery on charge preferred by Bertha Mix. Case taken under advisement.

Bert Hoyt, failure to stop. Pleaded guilty; case continued for sentence until Sept. 21.

Robert Harvey, violation of basic speed law. Pleaded guilty, fined \$10 and costs.

Police Court
Failure to stop, Harry Paulwell, Salem, and James A. Rhinebold, Portland; bail \$2.50 each.

No driver's license, Donald Lyon, 1808 Court, and Fred Lassie, 482 South High.

Alfreda Parazon and Orpha Schenechin, both of Chillicothe, vagrancy. Fined \$100 each and given 90 days in jail.

Drunk charged against Sgt. P. S. Moan, Camp Adair, released to army authorities; and Harry C. Kremmel, Eugene, bail \$10.

Marriage Licenses
James L. Worthington, 23 U. S. army, Rt. 1, and Vermetta Wiley, 19, bookkeeper, 250 S. Cottage, both of Salem.

Hope for Action On USO Building In Two Weeks

After having followed up several blind alleys with dead ends, the committee in charge of providing USO facilities for Salem believe they have found the highway toward success. Reports of progress in connection with the local situation were made during a luncheon today attended by heads of the several department committees.

William Crawford of the governor's economic council who is also a member of the northwest group which passes on the eligibility for material priorities in all projects of this nature, said he felt sure definite action would come within a couple weeks. He quoted a telegram from Senator McNary, who said he had checked in Washington with the works production board. The latter group reported that applications must pass through the federal works administration and then be approved by the president.

Present plans call for the leasing of the American Legion hall. Certain alterations will be made in the structure and it is the hope of the building committee that an additional \$18,000 or so can be secured with which to build an annex on the Chemeketa street side of the structure.

Making reports today for the various activities were: State Librarian Eleanor Stephens, Dr. H. E. Rahe, Mrs. W. L. Phillips, Dr. Henry Morris, Ralph Curtis and William Crawford. George Martin of the YMCA division of USO of San Francisco, a guest at today's luncheon, congratulated the local council as having laid the finest groundwork for successful operations he had found anywhere.

It was stated by Mr. Crawford that Col. McCoy of Camp Adair is particularly anxious that the Monmouth USO be one of the first to be completed in this area.

Adlard Boys Both In Service

Of interest to many Salem people is the word received by Mr. and Mrs. W. R. Adlard concerning their two sons, both of whom are in the service.

Ensign John Adlard, the older son, is reported on active duty with the navy somewhere on the Pacific. He has completed the armed guard school in San Diego. He is a graduate of Salem high school and Willamette university. For the past several years he has been one of the head chemists with the state highway department. Mrs. Adlard is the former Jean Andrews and for the duration she will stay in San Francisco.

Staff Sergeant I. R. Adlard, the younger son of Mr. and Mrs. Adlard, has recently completed a course in the Japanese language. He has studied to become an interpreter. He is now at officers' training school at Fort Sill in Oklahoma.

Sergeant Adlard is a graduate of Salem high school and Oregon State college. In the year 1937-38 he was an exchange student in Canton, China. He was also the first and only American student to enter the college at Los Banos in the Philippine islands.

Germans Claim 2095 Prisoners at Dieppe

Berlin (from German broadcasts), Aug. 21 (AP)—The German high command said today that 2,095 prisoners had been captured in the Dieppe attack. Of these, 607 were reported wounded.

Preliminary accounts the day after the fight had listed the number of prisoners at 1,500. (There was no confirmation from allied sources of these figures. Allied losses have not been given.)

A German communique said 117 British planes were shot down in the attack instead of 112 as originally reported. German plane losses were placed at 35 instead of the earlier-reported 37.

Plywood Trainer Planes Produced

San Diego, Calif., Aug. 21 (AP)—The Ryan Aeronautical company today said a plastic-bonded plywood trainer plane is now in production for the army.

The new two-place open cockpit PT-25 eliminates 98 per cent of the aluminum alloys used in other trainers. Forgings, castings and iron and steel structural parts are greatly reduced.

Chinese Recapture Kwangfeng Base

Chungking, Aug. 21 (AP)—An official Chinese military report today said Chinese forces had recaptured Kwangfeng, which the Japanese had developed into one of their most powerful strongholds in Kiangsi province.

It was stated the re-capture had dispelled the threat of the first overland Japanese invasion of Fukien province. The Chinese were said to have retaken the city yesterday morning after by-passing it in the Kiangsi campaign in which they have recaptured Kweiik, Shanghai and other points to wrest from the Japanese the control of a 60-mile stretch of the eastern Kiangsi railroad.

Oregon Drive For Scrap Opens On Labor Day

Oregon's big drive for scrap iron and steel, as a 48th-part of the national scrap harvest, will open with a blast the week of September 7, Labor Day. This announcement was made Thursday by Claude I. Sersanos, chairman of the state salvage committee, following a meeting at Portland of representatives of the USDA war board, county agents, oil, automotive, farm equipment and rubber industries which are tying in with the intensive war program.

"This drive will find more than 5,000 volunteer workers doing a grand job," said Sersanos, which probably will be even more outstanding than the recent rubber drive, which netted the government 10,225 tons of old rubber scrap from Oregon.

"We sincerely hope that the big drive can start with a bang on Labor day and that Oregon's million and more citizens will make the supreme effort, with labor in the vanguard."

Sersanos emphasized the fact that Oregon's quota on the drive between now and January 1 is 47,500 tons and that Uncle Sam needs a total of 17,000,000 tons to carry on necessary war production activities. During the first six months Oregon put into war production more than 60,000 tons.

W. H. Ramsey, manager of the Union Oil company for Oregon is heading up the petroleum industry in the harvest program and C. W. Thorp of the Good-year Rubber company is state chairman of the Inter-Allied Industries group, which will tie in with the salvage committees of the state to put over the drive.

"The automotive group is headed by A. B. Smith of the Smith Chevrolet organization and the farm equipment group by J. M. Burt of the John Deere Plow company.

Sersanos pointed out that when the big campaign gets underway, every piece of old, unusable plow, fence, chair, tractor or other piece of iron or steel equipment or part thereof should be turned in through these organizations and the salvage committees as designated "official salvage depots" throughout the state.

Ban Rail Delivery Of Gas in Midwest

Washington, Aug. 21 (AP)—Petroleum Coordinator Harold Ickes today prohibited railroad delivery of automobile gasoline in 20 states in the middle west and southwest in a move to release an estimated 5000 to 6000 tank cars for supplying the east.

The states brought under the ban were Texas, Louisiana, Mississippi, Alabama, Oklahoma, Arkansas, Tennessee, Kentucky, Missouri, Kansas, Nebraska, Illinois, Iowa, Indiana, Ohio, Wisconsin, Michigan, Minnesota, North Dakota and South Dakota. Deputy Coordinator Ralph K. Davies said it "remains to be seen" whether rationing of petroleum would be made necessary in those states as a result of the order.

Plan to Call Men With Dependents

Evanston, Ill., Aug. 21 (AP)—Brig. Gen. Lewis B. Hershey said today that draft boards would begin calling men with dependents before Christmas.

The national selective service director reiterated the order in which men with dependents would be called.

Single men with "secondary" dependents, such as aged or crippled relatives, would be called first, he said.

Next would come married men whose wives work, then men with dependent wives, and finally men with wives and children.

Willkie Sent To Tell Allies Of War Effort

(Continued from page 1)

by the news agencies of this country as to make the situation seem much more serious than it actually is. Raw Materials Problem

The fundamental problem of production in this country today, he said, is getting raw materials to plants. He said the priority system sometimes did not work out, but added that the very use of the system signified there are not enough raw materials to go around.

Asked whether he was satisfied with production, the president said no and that he never would be, but he added that he was not blue about the situation.

Emphasizing that this is a world war, he said the United Nations did not yet have enough implements of war to go around. As an example, the president said, he would like to have 1,000,000 American troops in Australia but they just could not be put there.

The trip was Willkie's own idea. He has an insatiable appetite for information about what is going on where the fighting is. An example was his 1941 visit to Great Britain where he conferred with Prime Minister Winston Churchill.

Income Tax Plans Discussed

Washington, Aug. 21 (AP)—A senate finance subcommittee today considered a proposal to collect income taxes currently—instead of a year behind—through mandatory monthly installments.

Such a system, if adopted, would be substituted for the house-approved plan to withhold a portion of taxes from wage, salary and dividend checks.

Chairman Bennett C. Clark, (D., Mo.) of the subcommittee appointed to study "pay-as-you-earn" income tax collection, indicated that he favored a system to collect income taxes on a current, monthly basis. Such a plan would be an adaptation of one submitted to the finance committee by Beardsley Ruml, chairman of the Federal Reserve Bank of New York, to "forgive" taxes on 1941 income, which are being paid in installments this year, and begin current collection of income taxes by applying the money paid on 1941 taxes to 1942 taxes.

The congress of industrial organizations in a formal statement commented on the course of the 1942 war revenue program through congress, condemning the house and senate tax committees for rejecting the treasury revenue program.

3rd Enemy Sub Sunk Off Brazil

(By the Associated Press) Enemy submarines in South American waters have picked off two more merchant victims but reports from Rio de Janeiro today said a U. S. plane had sunk another undersea raider—the third destroyed in recent days in that area.

That the pack of axis submarines is meeting stiff resistance off the Brazilian coast was indicated by dispatches from Fort Aleza crediting an American plane with destroying a sub. United States fliers also were reported to have sunk one other submarine of the three.

The last officially disclosed ship sinkings—those of a Brazilian coastal steamer and a British cargo carrier—put at 438 the Associated Press tabulation of announced allied and neutral war time merchant losses in the western Atlantic area.

Brazilians Capture Second U-Boat

Rio de Janeiro, Aug. 21 (AP)—The Brazilian air force was reported today to have captured a U-boat, the second put out of action since a ruthless sea and air search was started for the submarines that sank five Brazilian ships in coastal waters a week ago.

Capt. Silvio Fontoura of the Brazilian air force was reported to have arrived here to report on the capture. The submarine was taken it was said, after it had exhausted its fuel and rations, and was escorted to Fernando Noronha island.

President Getulio Vargas promised 10,000 seamen who marched to Guanabara palace last night that the United States and Brazilian navies would protect them.

Big Salmon Run In the Columbia

Astoria, Ore., Aug. 21 (AP)—Gillnet fishermen brought in loads up to 6,000 pounds during the last two days, buyers and packers of Chinook salmon reported here today. The catches allayed fears that Bonneville dam, across the Columbia river about 100 miles upstream, had damaged the run. The current run was spawned since the dam blocked the river five years ago. Salmon return to spawning grounds every four years.

Makin Island Said Scene of Marines' Raid

(Continued from page 1)

The navy said a Japanese destroyer or cruiser had been set afire by allied aircraft and declared that bombardments by enemy planes, destroyers and submarines had inflicted only minor damage on allied shore positions.

Ships Easily Hid Enemy destroyers could hide easily in the maze of islands, escaping detection by day, and make hit-and-run attacks on the marines' shore positions under cover of darkness.

The navy's announcement that several islands had been "recently captured" indicated that the marines, cutting through the mountainous jungles, had virtually completed occupation of the strategic bases. The leathernecks were known to have gained beachheads on at least three and perhaps six of the eastern Solomons.

Informed quarters in Auckland, New Zealand, said the Japanese were busily reorganizing their naval and air forces in the northern Solomons, apparently for a renewed attempt to drive out the American sea-borne invaders in the southeast.

These quarters said Japanese troops in the Tulagi region were fighting a bitter delaying action in the hope of receiving reinforcements, and declaring the outcome still hangs in the balance.

Striking at Japanese supply bases far to the west, allied bombers again attacked enemy forces on Himor Island and touched off great explosions in the town of Maobisse, General MacArthur's headquarters announced.

"We saw a lot of Jap soldiers running for their lives for the shelter of the jungle," an allied pilot said, adding that the raiders dropped to low levels to machinegun and bomb fuel or ammunition dumps and other targets.

Farley Bids For Harmony

New York, Aug. 21 (AP)—State Chairman James A. Farley, victorious in political battle with President Roosevelt, sought today to unite democratic ranks behind the party's candidate for governor, Attorney General John J. Bennett, Jr., and win the support of the American labor party.

Farley, who forced the nomination of Bennett over Senator James M. Mead in spite of the president's opposition, at the democratic state convention yesterday, was confident that party harmony would be restored.

Russians Hurl Germans Back Across the Don

(Continued from page 1)

nodar, only 60 miles from the Black sea naval base of Novorossisk which appeared in imminent danger of being cut off. But the Russians declared they had taken a toll of more than 2,500 nazis, destroyed 14 tanks, seven armored cars, 103 trucks and many guns in a three-day battle below Krasnodar.

Half way down the Caucasus, the land bridge to the middle east, the Russians acknowledged that German vanguards had made some advance southeast of Pyatigorsk in a drive toward the Grozny oil fields.

Leningrad Front
Meanwhile, the Russians proudly marked down the first anniversary of the siege of Leningrad, where the red army, aided by the city's 3,000,000 civilian population, has held the Germans at bay for 12 months.

Dispatches to Pravda said Adolf Hitler, expecting a swift conquest of the old-time capital of the czars, had thrown 60 divisions into the long assault and hauled up 6,000 big guns, 19,000 machine-guns, 4,500 mortars and 1,000 tanks in a vain attempt to crack the city's defenses.

Heavy local fighting still raged around the northern metropolis, with a mid-day communique reporting that more than 1,000 Germans had been wiped out in 48 hours. Russian troops were credited with capturing an important strategic position in a limited offensive.

German Communique
Berlin (from German broadcasts), Aug. 21 (AP)—Continued German progress in the Caucasus and annihilation of encircled soviet forces on the north central front southeast of Lake Ilmen were reported today by the German high command, which said that elsewhere, on the Don river, near Rzhev on the Moscow front, and on the Volkhov front, Russian attacks were repelled.

The German communique also reported soviet planes carried out "harrassing flights" over the government-general area of conquered Poland, causing casualties in Warsaw.

The Caucasus campaign was mentioned only with the brief statement that "German and allied troops, overcoming stubborn enemy resistance, are successfully continuing the attack."

Anti-aircraft artillery was credited with setting fire to a soviet transport in the Straits of Kerch, while German minesweepers were reported to have sunk two armored Russian guard ships in the Sea of Azov. Sinking of three soviet transports on the Volga was attributed to the German air force.

Farther north, the communique declared, "several soviet attempts at crossing the River Don were frustrated."

A map showing all the travels and campaigns of General George Washington has been given I. W. (Doc) Lewis by Jesse O. Drake, corner of Trade and Winter streets, to present to Capital Post No. 9 of the American Legion at the September meeting. The map, under authority of the 72nd congress in commemoration of the 100th birthday anniversary of Washington, was prepared by the National Geographical society for the National Geographic magazine.

What do you Save when you Go BACK?
