

Monmouth Buildings Exchange Ownership
Monmouth—The A. F. Huber Agency reports the following sales of city property: The

Klicks building, Main street to Mrs. J. Nowowiejski, who had it rented for the use of her furniture store for several years. The former Oregon College of Education infirmary building,

known as East House, to Dr. E. F. Barrows, a member of the OCE fraternity. The building which has been converted into a residence is now occupied by Lieut.-Col. and Mrs. A. B. Wil-

son and their three young sons who came here from Spartansburg, South Carolina. The Netherlands comprises an area of 13,600 square miles.

Government Trapper Seeks Sheep Killer

Silverton Hills—Victor Howard, government trapper, accompanied by Mrs. Howard, has

returned from a several days' stay at Berkensville, Ore. He was called there to assist in trapping a bear that had been destroying sheep in that section. Only one large bear was caught as the

animals were tricky and wise and the trappers resorted to all their available methods. Howard said the bear, would follow the herded sheep from one fold to another and do their killing

before they could be hindered. Canals barges in Provence, France, which were motorized before the war, are now drawn by horses.
