Stocks Advance To Around Best Levels of Year

New York, Jan. 21 (U.P.)—Stocks advanced today to around the best levels in more than a year with the highest grade issues in demand. Volume increased on the rise.

Leading automobile issues—Chrysler and General Motors made new highs for 1942-43. Steels were strong and active with the leaders up a point or more. Farm issues had gains ranging to more than three points in J. I. Case.

Coppers moved up under the lead of Kennecott which gained nearly a point. Gold mines were featured by Homestake, which gained neary a point. Patino was up for the tin issues. International Nickel rose more than a point to a new high for 1942-43.

American Telephone lost nearly a point, but other communications were active with prices firm. Gains in the preferred stocks ranged to more than two points in American and foreign power 6 per cent stock.

Chemicals were strong with gains of 2 points and more in Allied, Eastman Kodak, and du Pont. Air Reduction and Union Carbide gained fractionally.

Grain Futures Decline Today

Chicago, Jan. 21 (U.P.)—Grain futures declined on the board of trade today under the influence of Washington reports that ceilings might be fixed on wheat. Rye firmed at the close to fractional gains.

Wheat finished the day off ½ to ⅜ cent a bushel, corn off ⅝ to ¾, oats off ¼ to ¾, rye up ⅛ to ⅜, and soybeans off 1½ cents.

Cash houses bought wheat futures on the recession, sales being credited to small family and bakers trade flour business.

Trade in wheat continued light. Resting demand at $1.38¼ cent a bushel steadied the market somewhat, but liquidation followed light rallies, and traders for the most part stood on the sidelines to await further news from Washington.

Commercial interests traded on both sides of the corn market. Country offerings lagged while shipping sales increased.

Trading in most futures reflected the fear of a ceiling on wheat. Cash grain interests bought May oats liberally on the recession.

Resting demand for May rye at 78 cents a bushel acted to steady the market.

Milk Strike Looms At Roseburg

Roseburg, Ore., Jan. 21 (U.P.)—Roseburg milk distributors announced today that producers had threatened to halt deliveries Feb. 1 unless a demand is granted providing for a price of 85 cents a pound for butterfat.

The producers demand the benefit of the one-cent increase in retail prices authorized last week by the OPA. Distributors contend they are currently operating at a loss and are preparing an appeal to the OPA for a further advance in consumer price.

Ellsworth Slated For Public Lands

Washington, Jan. 21 (AP)—Representative Harris Ellsworth (R., Ore.) is in line for appointment to the house committee on public lands, a position important to his district because of its extensive state grant lands.

Representative Lowell Stockman is trying to win a spot on the committee on irrigation and reclamation. His second choice is the committee on immigration and naturalization.

To conform with a rule which limits a member to two committees, Representative James W. Mott has given up public lands, retaining naval affairs and roads.

Credit Buying of Gasoline Banned

Washington, Jan. 21 (AP)—The petroleum administration today prohibited all credit buying of gasoline and other petroleum products for private motor cars, effective February 1.

The order provides that retail gasoline marketers or suppliers may not "grant, accept or participate in the granting or accepting, directly or indirectly of credit in connection with the sale of any petroleum product," but makes exceptions for sale to federal, state or local governments, for commercial use of motor boats and motor vehicles displaying "T" ration stickers.

Women who buy dresses in Britain without surrendering ration coupons are subject to fines in court.

kenzie river. Half of Grants Pass was without electricity for a time early this morning. The wind blew down several billboards and trees around Grants Pass.

Schools Affected

School attendance was low. Most Portland schools were open—except the high schools which were suspended because of the semester end — but attendance was off. Corbett and Gresham schools were closed. Schools operated at The Dalles, Salem and most other cities. Two grade schools were closed at Eugene because of power failure. No schools opened at Klamath Falls. Corvallis high and one grade school elected to suspend during the day.

People were requested at almost every point in the state to stay off the roads and hold traveling to a minimum. The Columbia river highway was open but ice under the snow pack made it extremely slippery.

Eugene Blanketed

Eugene, Jan. 21 (AP)—Eugene was blanketed with snow this morning after the heaviest fall here in six years. One death in an auto accident was attributed indirectly to the storm.

The wet snow clung to trees and power lines, cutting Eugene's connection with Bonneville and with its two hydro plants on the McKenzie river. Power was being supplied by the Standby stream plant.

An automobile accident on the narrow snow-clogged Jasper road last night during the height of the storm took the life of George Cameron, lumber worker, and sent two others, George W. Drake and George M. Drake, to the hospital with injuries.

Two city grade schools were closed this morning for lack of power, and operation of lumber mills and other industrial plants was hampered.

Farmers Need Machinery

Washington, Jan. 21 (U.P.)—The senate committee investigating the war effort warned today that 1943 and 1944 food production goals may not be reached unless more agricultural machinery is allotted to farmers.

Although farmers are being called on this year to exceed 1942's record crop by four per cent, the committee said, "the farm machinery program for 1943 has been made the red-headed stepchild of the war production effort—despite the fact that food as a weapon is equal in importance to guns, tanks and planes."

The war production board's action in permitting only 23 per cent as much new farm machinery to be manufactured in 1943 as was made in 1940, the senators said in a special report, threatens to deprive farmers of essential equipment at a time when labor is also being rapidly drained from the farms.

The senate committee is headed by Sen. Harry S. Truman, D., Mo.

10,000 Prisoners

The midnight communique had announced the capture of more than 10,000 prisoners yesterday, including 3,000 in one group and an entire German artillery regiment, perhaps 1,500 men, in another.

One giant red army pincers claw, last reported 79 miles from Kharkov, industrial capital of the Ukraine and fourth city of Russia, was believed to be advancing steadily.

The Russians were reported within 65 miles of Rostov from the north and only about 50 miles away on the southeast.

It was indicated that Lieut. Gen. Rodion Y. Malinowsky's army advancing on Salsk, which reached a point 18 miles from that railroad junction yesterday, was not materially nearer after having crossed the Manych.

Red Pincer Claws

Thrusting southwestward, Russian pincer claws were within 25 miles of Voroshilovgrad in the rich Donets basin mining and industrial area from the east 28 miles from the north.

West of Stalingrad city, where the Russians are liquidating the remainder of 22 trapped German divisions, a red army unit during the night stormed and captured a strongly fortified defense point, killing 300 Germans and taking 96 prisoners, the noon communique said.

Losses by Pregnant Ewe Paralysis

Dr. W. H. Lytle, chief of the state division of animal husbandry, said today he has received many reports of losses by pregnant ewe paralysis.

He said the disease can be prevented and cured by adding glucose to the diet, while flocks should be given three miles of exercise every day.

Cause of the disease is unknown.

Wool Growers Meet at Baker

Baker, Jan. 21 (AP)—The Oregon State Wool Growers' association opened its annual convention today as delegates urged the government to take over this year's entire wool clip.

The proposal found ready backing in pre-session conversations and delegates expected adoption of a formal resolution during the day.

Other items of business included action on a request that all public domain be made available for forage for the duration of the war emergency and on a demand for the elimination of conservation allotments.

Delegates said the wool production outlook for 1943 was bright with the only cloud the possibility of a labor shortage.

Dr. A. L. Strand, president of Oregon State college, was listed as one of the principal convention speakers. Baker's Mayor McKinney welcomed the delegates.

The Baker county wool growers' auxiliary will entertain the state auxiliary at several social functions, Mrs. Arthur Boyd, Baker, state president, announced.

Grand Island Fruit Growers Optimistic

Grand Island—Only three students were absent from the four primary grades of the Grand Island school Monday.

Two trucks are busily engaged hauling gravel for nearby trade, at the Elwyn Mandigo farm. The high water damage to the bunkers and machinery is being repaired and until that is completed only gravel loaded by hand with shovels can be hauled.

Peach growers are optimistic and in hopes the drop in temperature in this area the first of this week was not detrimental to the 1943 bumper yield.

J. H. Tompkins enjoyed a faw days' vacation spent with his brother, Forbes Tompkins, at Charleston and also to move some of the latter's belongings to the Harold Tompkins farm near Logsden where he is taking care of livestock.
