

WILL YOU LOSE... your right to drive in Oregon?

Oregon's New Financial Responsibility Act becomes effective after June 8th. In a nutshell here is the new law and how it will affect you if you own or drive a car in the State of Oregon.

After June 8th, the driver of any automobile involved in an accident must, within ten days from date of such accident, file a full report of same with the Secretary of State's office, and in addition, also within a ten-day period, must file with the Secretary of State, evidence of financial responsibility in the amount of \$5,000 for the injury or death of one person, \$10,000 for more than one person in any one accident, and \$1,000 property damage. The question of who is or who is not to blame for such an accident does not enter into the provision, as operators of all cars involved must comply with the above. Penalty for failure to report such an accident provides for the suspension of the driver's license. The evidence of financial responsibility may be cash, a surety bond or a standard insurance policy. The foregoing does not apply to the owner of a legally parked car.

The surest way of avoiding a license suspension after an accident is to obtain a standard insurance policy now, before an accident. Be ready for the law before it goes into effect and insure your car before an accident, as afterwards it may be more difficult to obtain and the cost may be higher.

REMEMBER — THAT AFTER JUNE 8TH YOU CANNOT OWN OR DRIVE A CAR IN THE STATE OF OREGON, FOLLOWING AN AUTOMOBILE ACCIDENT, UNTIL YOU FILE WITH THE SECRETARY OF STATE, \$11,000 CASH, OR SURETY BOND, OR A STANDARD AUTO LIABILITY AND PROPERTY DAMAGE POLICY.

In explanation of the new law—Oregon's Legislature is trying:

- (1)—To reduce automobile accidents in Oregon.
- (2)—Compel automobile owners and drivers to be financially responsible for injuries sustained and property damaged as a result of automobile accidents.

Similar laws in effect in other states has actually reduced the number of auto accidents, brought about more careful driving, as the law effects only those who have accidents, and has resulted in more than 70% of automobile owners insuring for the protection of the public against injuries and damages sustained.
