

175 Club Leaders Going to School

Amos Bierly, 4-H club leader for Marion county, announces

that about 175 club members will attend the 4-H summer school at Corvallis this year. No one essential for work at home has been encouraged to attend and it is anticipated that the total attendance will be less

than the 2000 who were at the school last year.

Enough housing facilities have been obtained at the State college for the 11 days of school, although many of the buildings there are now in use for the army. No special train will be

run, arrangements being made for securing enough gas for use of school busses to take the children to Corvallis and back.

Special steamer excursions for workers have been inaugurated by the city of Valdivia, Chile.

Different in Britain Churchill Says

New York, May 21 (AP)—Mrs. Franklin D. Roosevelt disclosed Thursday that Prime Minister

Churchill was concerned about anti-aircraft protection during a recent motor trip with the president near Washington.

She related this incident to a convocation of city college students:

"My husband and I were driv-

ing with the prime minister out from Washington to a place where they planned to spend the night. The prime minister asked if there was any anti-aircraft protection.

"Why no," the president answered, "it's just a camp and can-

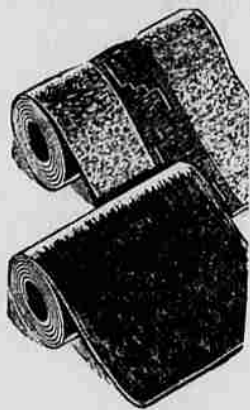

hardly be seen from the air." "The prime minister said, 'anywhere I go in Great Britain they take anti-aircraft protection with me.' He paused a minute and then said, 'but in Great Britain there is no place more than 15 minutes away from the enemy'."
