Headache Is A Symptom

By J. H. WILLETT
of the Capital Drug Store

No one ever has "just a headache." Somewhere in his or her system, hidden to all but a qualified physician, there is a cause, a reason, for the ache. And it's a physical disability that only a doctor can correctly diagnose, prescribe the remedy and thus save the sufferer from more serious complications.

Perhaps no human ailment is so frequently neglected as are headaches, nor so unsuccessfully self-treated. Even occasional headaches should serve as a warning that something is wrong with the functioning of the organic structure, and should result in a visit to the doctor's office for advice.

Then the choice of a drug-gist to fill the prescription should be a careful one.

This is the 38th of a series of editorial advertisements appearing in The Capital Journal each Friday.
