Poles Capture 3 Italian Cities

Rome, Aug. 21 (AP)—Polish troops of the British eighth army, advancing swiftly from the Cesano river in the Adriatic sector, overwhelmed enemy resistance in a wide area inland and occupied the towns of Mondavio, Serafini and Palermo yesterday, an allied communique announced today.

As the Polish units gained in the east, it was disclosed for the first time that the Brazilian expeditionary force under Major Gen. Moraes de Mascarenhas had joined the United States fifth army in the area extending inland from the Tyrrhenian sea south of Pisa.

It also was revealed that a Greek expeditionary force, that has been in training in the middle east for more than a year, has arrived in Italy to join other United Nations troops driving the Germans northward.

The soldiers newspaper, Eighth Army News, published a message to the Greek troops from Premier Georgios Papandreu, asserting that "on your path to glory and liberty you are accompanied by the good will and expectations of the nation."

The Brazilians will help to fill gaps left by the withdrawal of three American divisions and some French troops from the fifth army for the invasion of southern France, it was announced. The exact location of the Brazilian forces remained a strict military secret which was not expected to be released until the Germans themselves find out.

109,575 Casualties Suffered by Nazis

With the U. S. Third Army in France, Aug. 21 (AP)—Lt. Gen. Patton's, 3rd army has inflicted 109,575 casualties on the Germans since August 1 in his dash across Brittany and north-

ern France to the outskirts of Paris.

The 3rd army has captured 49,650, killed 11,025 and wounded an estimated 48,900. The losses constitute a total of about 11 Nazi divisions in their present, depleted state.

Information was lacking today on most of Patton's columns, probing through France like the arms of an octopus.

Refugees slipping from Paris reported street fighting of increasing violence between French resistance forces and the Germans inside the capital.

Lipscomb Gets Best of Court

Jack Lipscomb, wrestler, under arrest on a body execution as outgrowth of an old damage action, was before Judge E. M. Page in circuit court Monday morning to answer under oath as to any property he might own. All his answers were to the effect he owned no property but an automobile, and that the automobile was pledged to meet another debt. Judge Page ordered the defendant's discharge, but did so reluctantly.

"I have had this man up here before but he pays no attention to the orders of the court," said Judge Page. "If I was in a position to punish him for contempt of court, I'd do so, but I'm not in that position. He thinks he is above the court and I am in the position that I'm afraid he is. I doubt if I have any authority to punish him for contempt. If I had such authority I'd keep him in jail for awhile, but as it is, I order him discharged."

Lipscomb was arrested in Portland brought here to answer under oath as to his property holdings.

It all grew out of an incident at a wrestling match at the army base in 1940. Lipscomb, who was one of the wrestlers, dropped into the lap of Ernest Smith, one of the spectators. The chair under Smith collapsed and part of the chair stuck into Smith's back. A damage action brought Lipscomb but efforts to collect it, including this last one, have resulted in failure.

Bulgaria to Break with Nazis

London, Aug. 21 (AP)—Informed diplomatic sources said today that Bulgaria may break diplomatic relations with Germany tomorrow and appeal openly to Britain and the United States for peace.

These informants stated on the highest authority that British, American and Bulgarian representatives have been in conference in Ankara, Turkey, for a week and that Bulgaria will be granted an armistice as soon as she makes a clean break with Germany.

(A United Press dispatch from Ankara quoted diplomatic quarters in the Turkish capital as saying that Bulgaria's conditions for an immediate withdrawal from the war already have been communicated to Britain and the United States through the Russian government, which is not a war against Bulgaria.)

(Continued from Page 1) northward to Gaillon and south to within 18 miles of Paris.

Forrestal Visits Eisenhower

Gen. Eisenhower's Headquarters, Aug. 21 (AP)—Secretary of the navy James V. Forrestal came away from a conference with Gen. Eisenhower today "tremendously impressed" with the spirit of cooperation which he said the supreme commander has fostered among the British and Americans and their allies.

"What he has done in the way of resolution between us and the British—and all our allies—is a great example for the rest of the world," Forrestal told a brief news conference.

The secretary came here after watching landings in southern France. He left this morning to visit Cherbourg. In his enthusiastic praise of Gen. Eisenhower, Forrestal said: "The confidence of both sides in his fairness has been maintained because he pursues one idea: the winning of the war. Everything else is secondary. It is a pattern of cooperation which could well be continued after the war."

"Gen. Eisenhower hasn't sold out to the British in any sense of the word. His main theme has been: 'What is the one thing we can do to win the war?'"

"When he met me this morning, he started talking about the fine job the navy was doing. His generosity of spirit compels cooperation. We have the same kind of figure in Admiral Nimitz in the Pacific. These men just don't think destructively—except in terms of Germans and Japs."
