

Dick Lewis, famous big top funster in the clown contingent of the Russell Bros. Pan-Pacific circus. It's a science, the art of being so utterly ridiculous that thousands of people will roar their heads off at the sight of you. And the big Russell Bros. Pan-Pacific railroad circus, coming to Salem Thursday and Friday, June 14-15 has many "scientists" in this field.

Liquor Control Board Pushes Wine Sales

Portland, June 7 (AP)—The state liquor control commission is holding a bargain sale. Imported wine stocks which the commission is discontinuing have been cut from \$3 and \$2.50 to \$1.25 in an attempt to sell them out within three months.

First Water Runs Through New Unit

Bend, Ore., June 7 (AP)—First water has coursed through the north irrigation unit of the \$8,500,000 Deschutes projects, the reclamation bureau announced today.

As a means of cleaning mud from the fish screen at the intake at Bend, Clyde H. Spencer, engineer for the reclamation bureau, Tuesday pushed a button that lifted a five-ton steel gate. The mud was washed out within a few hours, and the gate was closed. The canal will carry Deschutes river water 60 miles to land in Madras county.

General Clark Not To Speak on Fourth

Seattle, June 7 (AP)—Gen. Mark Clark has declined an invitation to speak at Seattle's Fourth of July celebration, it was disclosed today. Clark notified Lt. Col. Harry Lawton, Independence day committee chairman, that he would be unable to travel west as he had been ordered to return to Europe.

Robert Taylor, as Roy, and Vivien Leigh, as Myra, are back again in "Waterloo Bridge," which is now showing in a return engagement at the Capitol theater. The cast includes also C. Aubrey Smith, Lucile Watson and Virginia Field.

About 1729, Stephen Gray made what was probably the first transmission of electricity when he was able to convey the electricity generated by rubbing a glass ball along a string supported by a silk thread.
