Polk County Forests Closed Because of Fire Hazards

Dallas—A large section of Polk county has been closed to all travel except by special permit, through the governor's proclamation, R. C. Howell, district warden states. Included in the closed area is all territory bounded roughly by the Valsetz-Falls City road on the south, the Lincoln county line on the west, a line running horizontally about three miles south of Grand Ronde on the north and an irregular line extending from Dorn Peak through Black Rock and back to the Valsetz road on the east.

Signs to make clear the exact boundaries will be posted at once by the fire patrol and on each notice a pin on the printed map will show the location of the notice in relation to the closed area.

Permits, which will be issued only for official business, may be obtained from the Dallas office of the fire patrol or from any lookout or warden in the area. Violations of the closure order are punishable by a fine from $25 to $250 and jail sentence of 10 to 60 days.

Despite the hazardous conditions now existing in the woods, no forest fires have been reported in Polk county. The Cold Springs camp of the Polk county fire patrol was called to Falls City Tuesday night when the Richardson mill there burned. The Grand Ronde and Aboretum crews of 20 boys each have been sent to battle the forest fire raging 27 miles northwest of Forest Grove, Howell reports.

Crop Insurance Agents Chosen

Dallas—Appointment of authorized agents to sell federal all-risk crop insurance has been announced by Bob Mitchell, chairman of the county AAA committee. The persons appointed as agents are J. H. Voth and Mr. and Mrs. George Kurre of Dallas.

Voth will be the representative for crop insurance north of the Dallas-Salem highway, and Mr. and Mrs. George Kurre will be the representatives south of the Dallas-Salem highway.

"These sales agents will begin calling upon farmers soon to give every producer of winter wheat a chance to protect his crop from natural hazards through this new federal insurance program," Mitchell said.

In Oregon the last day for filing crop insurance on the 1946 winter wheat crop is before seeding the crop or September 30, whichever is earlier. Farmers may file applications with a sales agent or at the county AAA office.

Inspection of crop damage and adjustment of losses will be made by the local adjuster for the county, supervised by the state crop insurance director. Insured growers will report losses to the county AAA office.

West Salem Taking Part In Shrine Paper Drive

West Salem, July 13—The local community will participate in the state-wide Shriners' hospital paper and tin drive which is scheduled to open July 21 and continue through July 29. Eola, Brush College and all the surrounding communities are asked to aid in the drive by leaving their bundled waste paper at the city hall or if a sizable quantity can be collected in the neighborhood and deposited at a central point, a pick-up call can be secured by contacting W. C. Heise, salvage chairman.

The same instructions as to disposal of waste paper and tin can applies to West Salem proper, only a door to door pickup will be made Saturday evening, July 28. Housewives are especially urged to hold their paper for the pickup or leave it at the city hall as West Salem will receive credit for only that which is collected in that manner as the paper salvage boxes placed at several locations in town are sponsored by the Salem Junior Chamber of Commerce. Further information regarding special pickup service may be secured from W. C. Heise.

Proceeds from the sale of the paper will be used to aid the crippled children at the Shriners' hospital. Collection of paper fell to an all time low in June, and support of this drive will not only help the handicapped youth but will aid in the war effort.

School Cannery Dates are Fixed

Albany—Opening of the Albany school cannery is scheduled for Thursday and the cannery will also operate Friday, John Welbes, superintendent, said Wednesday.

Welbes said, however, that this will be the only Thursday the plant will be open. Thereafter the plant will operate only on Mondays, Wednesdays and Fridays.

The cannery can accommodate but 25 persons at a time, the superintendent said, and he urged all persons planning to do canning there to make appointments by calling 494 or 886R. A phone will be installed at the plant itself July 14.

It is necessary that 500 cans a day be processed at the school cannery, according to Welbes, to cover operation costs.
