# Young Mother May Get School Excuse

Attorney General George Neuner has advised the state department of education that the 17-year-old mother of a small child may be excused from completing high school.

This authority will be given a school board when the girl has completed the eighth grade if the board believes further attendance would cause hardship in the family, said a statute quoted by Neuner.

A statute amended by the last legislature states that "All children between the ages of 16 and 18 must be in school or legally employed. If employed, they must attend part time schools..."

Although her marriage takes the girl out of the minor class, the law does not refer to minority or majority but only to age, Neuner pointed out.
