This year a thankful Thanksgiving — thankful that the war is over, for most of us at least, and doubly thankful that a good many of those vacant chairs will again be occupied at the festive board. Each and every one of us can, and should be truly thankful this Thanksgiving day.

"I'M SORRY, SIR, BUT I'LL HAVE TO CHARGE YOU MORE IF YOU HAVE MORE!"

How much can you pay?

What would you think if the clerk at your favorite store asked to see what you had in your wallet before he decided what to charge you for a shirt?

Or if, just because you happened to have some money saved up, you were asked to pay more than other people for a haircut, a movie ticket, or even such important items as rent, food and clothing.

That's exactly the kind of reasoning UAW-CIO leaders are using in their wage demands on General Motors—

They point to funds we have saved up over the years to expand and improve our plants and provide more jobs and more production. They say, "Give us that in higher wages."

General Motors does not go along with that kind of reasoning. People should not have to pay more just because they have a savings account—

For many years we have used our savings to expand capacity, create more jobs and provide greater values.

And we intend to keep on doing just that. We are, at present, embarked on a very important reconversion and postwar expansion program. Our objective, now as always—to produce more and better things for more people.
