Planners Hear Of City Needs

Silverton—Two topics were up for discussions before the Silverton planning commission at the regular meeting Monday night at the city hall, both inspired by local petitions and letters, and the death of a woman and serious injury to her small daughter, when the two were struck by an automobile Saturday night.

The commission wish to re-arrange the previously planned zoning ordinance which was initiated in the commission and passed by the city council on recommendation of the commission some time ago. A move is under way to plan for commercial and industrial areas nearer the center of town which is now largely residential.

They second ruling affirmatively discussed was law enforcement with respect to drivers of automobiles in being more considerate of pedestrians, especially on crowded streets of Saturday evenings, long considered a need in Silverton.
