September Oats Draw Attention

Chicago, Sept. 21 (UP)—Grain futures were firm as the board of trade's attention centered on September oats which complete dealings today.

Wheat closed up ⅛ to 1 cent, while corn was off ⅛ to ¼. Oats closed off ⅜ to up ½, with September up 4⅞ to 5. Barley was off 1 cent.

The September oats opened up 2½ to 3¼ cents on urgent short coverings, despite no offerings of size. This action caused shorts in the deferred months and opening gains of ¼ to ½ cent were quickly extended.

The advance, however, was checked by elevator house selling, indicating that the oats would be delivered. There also was selling of the September against buying of November with seven cents difference.

Corn rose on commission house and operator buying, but sellers later eased the prices. Some hedging occurred on the bulges, and a large cash grain house sold large amounts of March.

Wheat opened on a crest which carried May up four cents. Local traders were sellers. At the time, there was little wheat for sale, inducing light buying. The market receded when offerings increased. January wheat was not so strong as the deferred months because of May offerings at 2.00. Market orders were to sell March and buy May at four cents difference.

Cash oats bookings were reported at 50,000 bushels. Dealers reported 33,000 bushels of corn and 37,000 of oats to arrive. Old crop corn for quick shipment was reported bought at 1.95-1.97.

The department of agriculture reported 142,700 total bushels of wheat bought at Chicago from Sept. 17-20.

Minneapolis wheat futures took a firm trend today, while oats advanced less than one cent. Kansas City wheat was steady to firm and January and March corn gained one cent during the session.

The president of the United States would designate one of his appointees as president of the Red Cross.
