Former Navy Men Wanted in Service

Enlistment of all former navy men in this area in the naval reserve V-6 program, which will permit those men to retain their rating in event they are called for a national emergency, is the goal of CQM Robert B. Fallon in charge of the Salem naval recruiting station.

Men signing with the naval reserve, will be able to count the time spent with the reserve toward advancement in rating as an enlisted man, will receive longevity benefits in higher pay and receive pay for drilling once a week if in the active reserve. Once a year, with their consent, they will go on a cruise or training duty and will receive all pay allowances including travel cost to and from their home during that time. If taking a cruise they will be granted shore leave in foreign ports.

Dave Putnam, senior in business administration, was elected president of Alpha Psi Delta fraternity on the Willamette university campus this week. The post was held previously by Art Wilson, Salem, who resigned because of added duties at law school.

Putnam has recently returned to school on the GI bill. He left Willamette in 1942, after serving as president of the junior class at that time.

Pledge officers were also elected for the semester. John Kooy, Sheridan, was named president, and James Raglund, Brooks, secretary.

New Post Offices Scheduled for Oregon When Congress Acts

Washington, Oct. 21 (AP)—If congress decides to resume construction of post offices and federal buildings next year the post office department has prepared a list of Oregon construction it would like to undertake.

Donough Raps Liquor Board

Portland, Ore., Oct. 19 (AP)—Carl C. Donough, democratic candidate for governor, Friday night in a radio speech here assailed the state liquor commission as a "one-ring circus."

If he is elected, the liquor commission members will not be reappointed, he said.

Donough referred to Ray Conway, commission administrator, as "cracking the whip and running the show."

He charged that the liquor commission "has gone into the merchandising business in a big way, but with poor merchandising methods and frequently inferior merchandise."

He said that conditions testify that the liquor commission has not been following the Knox law injunctions to promote temperance and to create a sensible administration of liquor sales.

Discussing the purchase two years ago by the Oregon and Washington liquor commissions of two Kentucky distilleries, Donough quoted Leslie Scott, republican state treasurer, to the effect that the distillery purchase "was engineered to cheat the federal government out of excess profit taxes" from distillery owners.

As to the investigation ordered by the 1945 legislature, he said, "whitewash or no whitewash, the purchase of a distillery was no credit to the state of Oregon."

Among other Oregon towns listed for new postoffices were: Canby \$85,000, Dallas \$105,000, Independence \$85,000, Lebanon \$95,000, Molalla \$85,000, Mongomery \$85,000, Mount Angel \$85,000, Silverton \$95,000, Stayton \$85,000, Sweet Home \$85,000, Toledo \$95,000, Willamina \$85,000 and Woodburn \$85,000.

The department said all of the towns would be on the new list unless the postal receipts have dropped below \$10,000 annually.

Food Bought in Free Market

Washington, Oct. 19 (AP)—American housewives are now buying food on 90 percent "free" market, the OPA estimated today, and their own thriftiness is the last barrier against runaway prices.

They are making headway in the fight against inflation, reports indicated. A downward trend in prices was noted in most food and commodity markets after a brief-lived tendency to reach the skies.

In addition, many retail stores were advertising their intention to keep prices down as far as their costs permit.

Less than a week after President Truman's action signalling the end of most controls, the OPA calculated that approximately 35 percent of the items in the average family basket have been freed from ceilings since last Tuesday.

It figured the average budget expended 30.3 percent on meat, 2 percent on fats and oils, and 2 percent on coffee. All these have now been decontrolled.

Previously, about 45 percent of the nation's food items were still under OPA ceilings—thus leaving only 10 percent in the restricted class.

Meanwhile, the OPA moved ahead in its program to junk a great majority of war-time curbs by November 1—with the notable exception of those on rents, automobiles and refrigerators.

Receiving their discharges from the army at the separation center at Fort Lewis, October 17, were Sgt. John W. Wolf of route 7, box 250, Salem, and Pvt. Nelson L. Young of West Salem.

Circuit Court

Default order entered in Glads vs. Wesley Juchs.

Sentences of two and three years in the penitentiary to run consecutively, the three year term to start at expiration of the two year term, were imposed on Edward D. Stuckey by Circuit Judge E. M. Pace Friday afternoon on charges of larceny and of larceny from a dwelling. Stuckey was held in lieu of \$10,000 bail. Stuckey was taken to a mental hospital from a place where he was temporarily residing.

Seventeen default divorce cases are on the docket for hearing next Monday in the two departments of circuit court.

Satisfaction of judgment has been entered in the case of Henry B. Koehler vs. E. J. Edmund, district director of the OPA and others involving violation of rent control here, alleging that the complaint does not state facts sufficient to constitute a cause of suit, that the court has no jurisdiction either over the subject matter or over the persons of the defendants, and that there is a defect in parties in that Paul A. Porter, administrator of the OPA is not named as a party defendant and that his presence is necessary for a complete determination of the suit. Frances A. Harrington, Portland, is appearing as attorney for the defendants.

Factory Jobs Show Increase

The number of factory workers in Oregon increased 12.3 per cent during the first half of this year, or double the national gain of 6.2 per cent, the state unemployment compensation commission said today.

Oregon's industrial jobs increased from 105,601 to 118,576 from January to June.

The expansion occurred in spite of a reduction in shipyard employment, from 14,813 to 7719 during the period. Lumber and logging firms accounted for most of the gain, rising from 42,173 to 54,275. Food processing plants increased from 16,495 to 20,931.

Employment by all firms covered by state unemployment compensation reached 273,317 in June, a gain of almost 12 per cent since January. Among non-manufacturing firms, construction was the leader, advancing from 12,290 to 17,718 jobs in the first half of the year.

The commission said continued seasonal demand for workers indicate that employment now has reached an all-time high for any peacetime year.

To get on the list a town in Oregon must have postal receipts of \$10,000 a year or show that its present facilities are no longer adequate. There have been no new postoffices constructed since 1940 though some under way were finished after that date.

On the list the post office department prepared for congress last year Portland led the Oregon cities in the number of buildings with a federal office building and postoffice to cost \$6,000,000, a main postoffice to cost \$1,900,000 for additional land, site and buildings, a federal office building No. 2, site and building, \$5,300,000 and \$50,000 for court house remodeling.

Among other Oregon towns listed for new postoffices were: Canby \$85,000, Dallas \$105,000, Independence \$85,000, Lebanon \$95,000, Molalla \$85,000, Montgomery \$85,000, Mount Angel \$85,000, Silverton \$95,000, Stayton \$85,000, Sweet Home \$85,000, Toledo \$95,000, Willamina \$85,000 and Woodburn \$85,000.

The department said all of the towns would be on the new list unless the postal receipts have dropped below \$10,000 annually.

Burglars Taken in Sreuous Chase

Portland, Oct. 21 (AP)—Two youths charged with burglary were captured in the early dawn yesterday after they had squeezed through barred windows, scaled high ledges, slid down elevator cables and dodged gunfire in alleys.

Detective Lt. Carl Crisp reported Robert H. Charboneau, 18, and a 14-year-old companion were on a second story ledge of an office building when they set off a burglar alarm. As police searched the roof, the boys slid down elevator cables inside the building and dashed into an alley.

Gunfire halted Charboneau but his companion was arrested at his Vanport home where he was in bed.

Police said Charboneau was wanted in a robbery in San Francisco where he admitted he escaped police by shinning down the understructure of the Golden Gate bridge.

Prospects of Chinese Peace Brightens as Negotiators Meet

Nanking, Oct. 21 (AP)—Chinese communist leaders arrived in the capital today to enter into another round of peace negotiations as a third party mediator predicted "a better than even chance" for success.

Communist Gen. Chou En-Lai and members of his party were greeted on their arrival from Shanghai by Generalissimo Chiang Kai-Shek. Two hours later, Chiang and Mrs. Chiang took off for a four or five-day visit to Formosa.

Well-informed Chinese sources said the visit had been planned three weeks ago and that it had no political significance. Chiang had intended to leave yesterday, but stayed over another day at the request of Gen. George C. Marshall.

Chinese sources added that Chiang was prepared to return to Nanking on four hours notice if sufficient progress is made in the negotiations and that he can issue a cease fire order from Formosa if necessary.

Before leaving, Chiang held a 45-minute meeting with U. S. Ambassador J. Leighton Stuart.

Meanwhile, Dr. Sun Fo, president of the legislative Yuan, held a preliminary discussion with third party delegates. Purpose of the meeting was to determine whether the communists will insist on their demand that the nationalists return to the military status quo of Jan. 13 and if they will accept Chiang's eight-point proposal listing his conditions for a cease-fire proposal.
