# VOTERS... ATTENTION

Should you vote for a Marion County PUD so that five men, inexperienced in the handling of that kind of a business, can mortgage your property for money to buy the P.G.E. Company system, thereby removing the P.G.E. Company, the second largest taxpayer in Marion county, from the tax rolls?

Don't you see that you would have to pay your share of the taxes the P.G.E. Company now pays because the PUD pays no property tax?

# Have You Had Enough?

How much longer will Salem stand for our disgraceful car parking situation? Notwithstanding Salem's wide streets, visitors call our parking facilities the worst they have seen in all their travels. Your city council recognized at least a partial solution of this problem with parking meters and unanimously approved a contract for their installation.

## WHO BLOCKED THE PROJECT?

The same all-day parking monopoly which for years past has intimidated traffic officers and opposed all modern methods of traffic control. They would approve off-street parking provided Salem taxpayers furnish the parking lots.

## SALEM LAGS FAR BEHIND

Portland, Astoria, Bend, Oregon City, Albany, Corvallis, Eugene, Medford, Klamath Falls, Grants Pass and Coos Bay—These Oregon cities are reaping the benefits and revenues which come with the modern, convenient parking meter system.

## Parking Meters Save the Tax Dollar

With the revenue from parking meters, hundreds of other cities are providing: Off-street parking lots. Traffic safety directors. Necessary traffic signals. Enough officers to properly enforce traffic regulations. And best of all—Better parking facilities.

## Our Parking Problem Is Bad Now

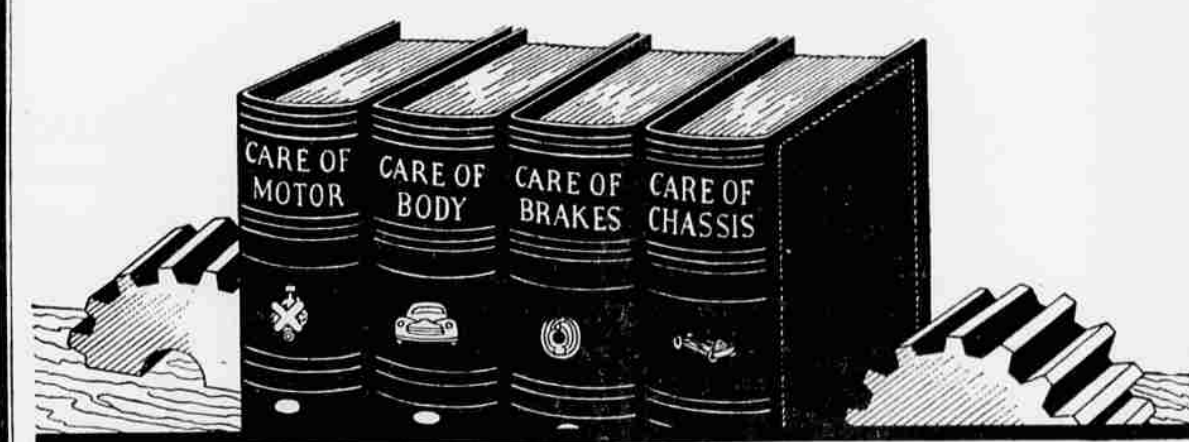

What will it be when more cars become available? Now the all-day parkers are asking you to approve a charter amendment which would forever bar parking meters from our streets.
