### How 23,000 new jobs were born

To grow with the West... to build and maintain the finest possible telephone service for you... a good sized army of men and women is already at work, and more are pitching in every day. In the last five years, we have added more than 23,000 new employees—our total force is now more than 63,000.

It is our purpose to provide telephones for everyone who is waiting just as rapidly as we can and to build an ever-expanding, ever-improving service for the West. Our gross plant construction will aggregate \$130,000,000 for this year and, as now visualized, it will exceed \$200,000,000 for 1947. It's a big job, but you can be certain we're going ahead fast.

An ever-improving telephone service at the least cost consistent with good wages and working conditions for our employees and a reasonable return to the thousands of people who have invested in the business.
