Grains Off In Day's Trade

Chicago, Dec. 21 (AP)—Mills brought wheat futures today following overnight sales of a fair quantity of the bread cereal to Mexico, but this support was unable to stem the decline which started with the agriculture department's announcement that a record-breaking winter wheat crop was indicated.

Wheat was down around a cent most of the session. Corn and oats were off small fractions. Both feed grains were adversely affected by indications that the increase in the spring pig crop will not be as large as desired. There was a good shipping demand for corn, sales totaling 250,000 bushels.

December oats, in which trading ended at the close, finished on a split quotation, 83 1/2-81. This was 1/2-3/4 up yesterday. Wheat finished 1/2 lower to 1 cent higher, January \$2.11 corn was 1/2 lower to 3/8 higher, January \$1.32-1.32 1/4. Deferred oats contracts were 1/4-1/2 higher.

Mexico purchased 5,000,000 bushels of American wheat overnight. The grain is for shipment January to May, inclusive. It was reported Belgium had inquired for American corn, but that purchases had been postponed.

The interstate commerce commission suspended an order requiring railroads to give priority to movements of Commodity Credit corporation relief grain from Oregon, Washington, Idaho and Montana to North Pacific coast ports for export.

Stocks Advance Irregularly
New York, Dec. 21 (AP)—Profit taking on four straight recovery weeks today kept the stock market in a slightly unsteady position although assorted favorites managed to display a certain amount of strength.

Dealings were relatively quiet throughout. Early gains running to a point or so evaporated in a number of cases as the session proceeded and mixed tendencies persisted near the close. Transfers for the two hours were in the neighborhood of 600,000 shares.

The list still had to contend with some belated selling for income tax purposes but this was offset by replacement purchasing. Bidding also was based on the more optimistic labor picture and the hope that reinvestment demand would bring a good rally at the year-end and early in January.

Closing Dow-Jones averages: Industrial, 178.32, up 0.47; Retail, 52.40, off 0.11; utility, 37.52, unchanged; 65 stocks, 65.41, up 0.07.

Sales totaled 630,000 shares compared with 550,000 shares last Saturday. Curb volume was 220,000 shares against 180,000 shares last Saturday. Bond turnover of \$2,620,000 compared with \$2,170,000.

General Clark to Aid on Peace Pact
Washington, Dec. 21 (AP)—Secretary of State Byrnes named Lt. Gen. Mark W. Clark today as his deputy to begin preliminary work on a peace treaty for Austria.

General Clark, a American general in Austria, will join deputies of foreign ministers from France, Britain and Russia in London January 14 to begin the task.

Ambassador Robert Murphy, political adviser to the American commander in Germany, was named yesterday as deputy on the German peace treaty.

Montgomery Ward Will Spend \$2,500,000
Portland, Dec. 21 (AP)—The Oregonian reported today that Montgomery Ward & Co. will build a \$2,500,000 warehouse here to serve its branches in four Pacific northwest states.

The newspaper said the firm was buying 14 acres in a former housing project as a site for the structure.

Priority Order on Grain Suspended
Washington, Dec. 21 (AP)—An order requiring railroads to give priority to movements of commodity credit corporation relief grain from Oregon, Washington, Idaho and Montana to north Pacific coast ports for export has been suspended by the interstate commerce commission. The order also had required permits for movement of grain from these states not designated for export.

Youth Training Bills Drafted

Washington, Dec. 21 (AP)—Recommendations on universal youth training—going into and beyond the military field—will be laid before President Truman by an advisory group in time for congress to be informed during the next session.

Dr. Karl T. Compton, head of the committee chosen by Mr. Truman, urged the members to follow the idea of "insuring the continuation of our form of government," said the report likely will be ready late in March.

The group, designated as the president's advisory commission on universal training, was told by Mr. Truman that "the military phase is incidental to what I had in mind." He said he wanted young people informed on what the government stands for, and its responsibilities.

Dr. Compton told reporters that "any adequate program must recognize the fact that the nation's security depends not only on its military strength but also the physical, spiritual, religious and moral fiber of its young men. All these aspects will have equal emphasis, he added.

Mr. Truman observed that great republics in history have fallen when their people became "prosperous and fat and lazy and were not willing to assume their responsibilities."

Greeting Sent By President

Washington, Dec. 21 (AP)—President Truman today sent a message of Christmas greetings to members of the U. S. armed forces in all parts of the world. He expressed gratitude for the part they are playing in the struggle toward "a just and enduring peace for all peoples in all countries."

Mr. Truman said much remains to be done in this struggle. "The accomplishment of our task will require the same devotion and the same high ideas which you, the men and women of our armed forces, have always displayed," he said.

"The liberty-loving peoples throughout the world, who in darker days prayed for our success in battle, now offer their prayers that our struggle for harmony and tranquility on earth shall succeed.

"I wish to express the nation's deep appreciation of the part that you are playing and the hope that our gratitude will in some small way compensate for your absence from home, friends, and dear ones on this Christmas day."

High-ranking officers and officials of the war and navy departments joined the president in sending yuletide greetings to service men and women.
