Grain Futures Shift Nervously

Chicago, Feb. 21 (UP)—Grain futures shifted nervously on the board of trade today in light pre-holiday dealings. Wheat was unevenly higher, while corn and oats generally lost ground.

At the close, wheat was 1¾ cents higher to ¼ lower, corn ⅜ to ⅞ lower and oats unchanged to ⅜ lower. March barley was bid four cents lower.

Wheat opened strong, but dealers apparently feared a repetition of yesterday's tumble of nearly 10 cents. Every bulge attracted profit taking. September moved up to within a penny of its 30-year high before faltering.

Some wheat buyers avoided pressing the advances and confined purchases to declines. Other brokers were reluctant to invest heavily while the commodity credit corporation was buying neither wheat nor corn.

May and July wheat met large selling from elevators, and cash and southwestern interests.

Corn and oats teetered within a small range. Cash houses bought corn, but a large elevator sold March and May, while shipping interests sold September.

Spot corn was steady to firm and oats about steady. Merchants reported 185,000 bushels of corn booked to arrive, and shipping sales included 25,000 bushels of corn and 5,000 bushels of oats.

Stocks Advance Up to 2 Points

New York, Feb. 21 (UP)—Stocks moved up fractions to around 2 points today in the best price run-up since February 7. Trading was less active in the early hours than yesterday.

Sentiment was bolstered by announcement after the previous close of bigger dividends for International Harvester and Nash Kelvinator.

The market also got some good news late in the session when Ward's Automotive reports disclosed that production of cars and trucks had crossed 100,000 for the first time since July, 1941. Total production in the latest week of 102,098 units compared with 97,276 in the previous week and 19,410 a year earlier.

Trading was limited by the severe snowstorm which hit New York late yesterday and piled up about 11 inches in what was said to be the worst storm in six years, as well as by the Washington's birthday holiday tomorrow when the exchange will be closed.

Many brokers living in New York suburbs, faced with high snowdrifts and biting winds, just started their week-end a day earlier.

Planes take only a hundredth part of the time to cross the Atlantic that Columbus did.
