That means a dollar will buy only what 59 cents could buy in 1940. In other words: A 1948 dollar is worth only 59 cents in terms of buying power in 1940.

Figures on the cost of living are issued monthly by the labor department's bureau of labor statistics. It's known as the cost of living index. The bureau has employes in 56 cities. Every month they check on the price of things

families buy, like food, cloth-ing, rent, fuel, furnishings. In this way the government keeps a check on whether liv-ing costs are rising or falling,

Truman Issue **Before Texans**

(By the Associated Press)
Texas names a 50-vote democratic national convention del-egation today in a state convention torn between factions for and against President Truman and a middle-of-the-road group Lone Star state republicans pick 33 delegates expected to be

largely in the camp of Senator Taft of Ohio. The democrats met at Brown

wood, the republicans at Cor-pus Christi. It was the only presidential delegate picking of the day. Washington Senator Rob-

Although Taft didn't discuss

in detail his claimed southern strength, aides contend the Ohioan will have majority backing in 12 of the 15 states on the first ballot at Philadelphia. They concede Gov. Thomas E. Dewey only one delegation, Oklahoma's 20-vote group, and

they will strike weshipping June 15 when their

The union said that Pacific

countered with "outrageous demands" of their own.

The longshore negotiating
committee also charged the shipcommers with "creating confucounters with "creating co

Among the demands rejected by the employers, the union said, were those calling for re-duction of the present work shift of 10-14 to eight hours, for reduction of the work week from seven to six days and for

wage increases.

The union said the employers then insisted on a long-term contract instead of the present \$2-month agreement, with no provision for wage reviews. Unless the employers change

their position, the union said, a strike appears "inevitable."

A spokesman for the em-ployers charged that the union was "trying to create a situa-tion with talk of a strike." He denied that the employers had made "outrageous demands" and insisted they were making
